Creating an Space Request Using 25Live

Creating a Space Request Using 25Live

Overview

25Live is the University’s Space and Calendar Management System. It can be accessed at the following link: https://25live.collegenet.com/wcu/ or from the University’s homepage under Faculty and Staff (http://www.wcu.edu/faculty-staff/index.asp).

Everything created in 25Live is called an event. These can be space request (room reservation), notifications that go on calendars, or large-scale University Events (as defined by University Policy #110).

Keep in mind that you can always consult the online help if you have questions about what to do. Click the general “Help” button in the upper right of the page to access all Help topics, or click the Help icon in the navigation bar to access context-specific help for the current view or functional area.
The remainder of this document outlines how to create a space request in 25Live for a regular user.
Opening the Event Wizard

To start creating an event, click the green “Create an Event” button. You may also click the Event Wizard tab to open the wizard.

(Insert dashboard screenshot)
**Entering basic information**

Enter an Event Name, and select an Event Type and Primary Organization. The Event Name is how the event will appear on web calendars and in searches. If fields are mandatory, an asterisk will appear to the right of it. Once mandatory fields are entered, the asterisk becomes a check mark.

Click “Next” to enter additional basic information.
Enter additional basic information

Enter the event’s expected head count, and event description. The Event Description is used to describe the purpose of your space request. If it will be published to a calendar, it should also describe the overall event (this is a good PR opportunity). Please do not use the Event Description to leave notes for the space approver.

Click “Next” to add event occurrence information.
Does the event repeat?

If the event has more than one occurrence, select “Yes;” if it has a single occurrence, select “No.”

Click “Next” to set the event start/end date and time.
What is the first occurrence date?

Specify the date and times of the first occurrence date of the event. If your event occurs on multiple days, you’ll describe how it repeats later. If your event has multiple occurrences that happen at different times, you’ll need to create separate events for each time.

If the event requires Setup/Pre-Event and/or Post-Event/Takedown time, select the option you need, then set the number of days, hours, or minutes needed. This is useful for things like setting up, having catering delivered, or when doors open for a large event.

Click “Next” to set up multiple event occurrences, or if the event has only one occurrence click “Next” to select the event’s Location.
How does the request repeat?

If your space request has more than one occurrence, select how it repeats.

- **Ad Hoc Repeats**: Individually select dates to add to the event.
- **Daily Repeats**: Examples: Repeats every day for 5 occurrences; Repeats every 3rd day through a specific date.
- **Weekly Repeats**: Examples: Repeats every week on Monday and Thursday for 12 occurrences; Repeats every other week through a specific date.
- **Monthly Repeats**: Examples: Repeats every month on the 1st and 15th through a specific date; Repeats every 3rd Monday of the month for 8 occurrences.
- **Does Not Repeat**: This event has only one occurrence.

Click “Next” to set the event’s occurrence dates.
Define the exact dates of the event

If you need to switch to a different kind of repeat pattern, select it from the drop-down at the top of the panel. Use the repeat date controls to define the event’s repeating pattern or ad hoc dates. Once defined, you see the dates in the Occurrence List at the bottom of the page.

Click “Next” to select the event’s location(s).
Select location(s)

Search for suitable locations by location name, or saved search. Public searches are available for your assistance. Locations that best fit your head count will appear higher in the list. If you’ve searched, choose one or more available locations for your event.

Please note: 25Live allows for multiple locations to be requested. However, the University practice is to request only one space/location per request and requests with multiple locations are not valid will not be routed properly.

A red triangle means the location is not available. A green check mark means the location is available. A green box with lines inside means the location is in use, but the event that is using it is willing to share the location. Make sure to select a location that is available.

If you need to un-assign a location for specific occurrences, choose a different room layout, and add setup instructions, click “View and Modify Occurrences” on the right.
Contacts

The location scheduler is automatically assigned to your event, based on the space you requested.

Select CONTACTS for this event.

Scheduler

Snyder, Elizabeth
Social/Clinical Research Spec
ecsvery@email.wcu.edu

Requestor

Buchanan, Pamela
Executive Assistant

Click “Next” to add any comments or notes for the event.
Add Comments and Notes

Enter appropriate comments and/or notes for the event.

- Internal Notes can be seen only by people who are event contacts, like Requestor and Scheduler. This is a good place to leave set-up instructions and/or budget codes.

Click “Next” to choose the state of the event.
Choose event state

Click Tentative as the event type, and then click Save.
