At approx. 2:40 a.m. WCUPD received reports of possible shots fired in the area of Central Drive and Old Cullowhee Road. Officers have and are continuing to check the area both on and off campus but have not located anything unusual. We wanted students to be aware of the report. Again, nothing unusual has been located.

It is not totally unusual for shots to be heard near our campus during the fall due to hunting, celebrations etc. but students need to be aware of the report. If follow up information is necessary, we will provide additional information. Thanks.

Ernie Hudson

Chief of Police
