Subject: One correction

Greetings to the committee,

Thank you for working through the many changes today. There is one correction that Dan & I made after the meeting. The MAT core lists HPE 621 as one of the "Research" theme courses but it was inadvertently left out of the MAEd core. So, I'm going to go back and include that course in all the MAED core listings.

That course is:

HPE 621 Research Methods in Health & Physical Education (3)

Since we didn't go over it in the meeting, if you have any objections to that correction please let Lori, Dan, and me know.

Thanks,

Lee Nickles, PhD
