We had 6 yea's, 0 nay's, and no concerns to bring to the committee. That passed and will go to PEC next week.

Thank you, and have a great weekend,

**Subject:** FW: MAED in SPED - severe/profound

Greetings to the committee,

Due to my oversight, I didn't bring this one forward to us to review at our last meeting. I do not want to hold it up due to my error, so I ask that you review that attached change and reply by Friday with a yea or nay, and if you have any concerns/issues.

This is the MAED proposal for the SPED concentration in Severe/Profound disabilities. The only issue was that they did not have the new core pasted in, which I added.

Thank you, and my apologies for my error.

Yes, send it out and let's get it approved.

Greetings Lori,

Due to my oversight, I neglected to bring the MAED in SPED – Severe/Profound proposal before the curriculum committee. It was in the group I sent, but I neglected to put it on the agenda I went through.

I've attached it. It looks fine, except that it didn't have the new MAED core, and I pasted that in.

Do you think we (meaning me) could e-mail the committee about this one and ask if they will approve via email? I don't want to hold it up by not getting it to the PEC next week due to my error.

Thanks,

**Lee Nickles, PhD**
