

Construction Management Land Development Post Baccalaureate Certificate

Introduction:

The post baccalaureate graduate certificate in Construction Management with a Land Development concentration is designed for anyone interested in learning about the land development business and process.

Requirements:

Candidates for the post baccalaureate graduate certificate in Construction Management concentrating in Land Development must have completed a baccalaureate degree from a regionally accredited institution with an acceptable grade point average. The GMAT or GRE is not required for admission. The post baccalaureate graduate certificate in Construction Management with a concentration in land development will be awarded upon successful completion of the following courses. For students who are completing or have completed the MCM degree in a non-land development track, CM 500 and CM 530 should be or should have been completed as part of the degree program. For applicants who completed the MCM degree prior to fall 2011 and have credit for CM 659 are not required to take CM 530. In these cases, students would only be required to complete the remaining four to five courses for the certificate.

Required Courses:

- [CM 500 – Advanced Construction Finance](#) Credits: 3
- [CM 530 – Advanced Legal Issues in Construction](#) Credits: 3
- [CM 660 - Land Development I](#) Credits: 3
