School System: Macon County Schools

Title- and Integrate Technology into the Physical Education Curriculum.

1. Who was/were your WCU project partner/s? Approximately how much time did they spend working on the project with you? Please describe how this partnership contributed to the goals of your project.

Mrs. Debby Singleton was our Western Carolina University project partner. She spent several days early on and then email and phone time. This partnership will continue to contribute to the...

2. Did you accomplish your project goals? Please explain how you evaluated the project’s success.

We underestimated our project goals. The good news is that we now have a better understanding of how to successfully implement the use of the GPS units, secure solid units, and were able to implement the initial phases.

3. How were the grant funds used? Please provide an itemized list of expenditures, and copies of purchase orders/receipts or other relevant documents that show that the funds were spent as specified in the grant proposal.

The grant funds were used to buy GPS units. We were very fortunate to have an expert volunteer help to train us in the use of the units.

* 1. goals of our project as a learning for the college students as well as our student learning.
