Service and Research Centers

Faculty members and students participate in a wide range of service and research activity. The university's service centers add impetus to the programs of the colleges and departments and provide significant assistance to the region in which the university is located.

Center for Rapid Product Realization. The mission of the Center for Rapid Product Realization is to match the Kimmel School of Construction Management and Technology's resources of laboratories, faculty and students with the needs of Western North Carolina. The goal of this engagement is to grow and transform the region's economy, to enhance student learning through real project experience, and to improve the quality of life. The RAPID Center has special expertise in four areas: rapid prototyping, adaptive technology, intelligent sensors and optoelectronics. The Center in collaboration with the SBTDC and Center for Entrepreneurship and Innovation serves as the US Economic Development Administration University Center for North Carolina. Faculty/student projects, particularly the two semester senior capstone projects, are one of the principal avenues for interacting with the WNC community. Projects include improvements to wheelchairs, sensors to help persons with dementia, new products for the Christmas tree industry, rehabilitation devices for children and the elderly and devices to help men and women of U.S. Army Special Forces. Commercialization of technology is the central theme of these regional and
The Center for Service Learning helps WCU students, faculty, and staff find service opportunities in the region. The office plans and promotes volunteer opportunities, facilitates course-based service learning projects, and helps arrange mandated community service for students who violate the University's code of conduct. Service opportunities are available at over 120 community agencies, and include many types of projects. Through service learning, students can improve their understanding of course content, meet community needs, develop career-related skills, and become responsible citizens. Each year, there are more than 100 courses with service learning components, spread across every college and school of the University.

Center for the Support of Beginning Teachers (CSBT). Housed in the College of Education and Allied Professions, the Center addresses the need for an adequate supply of highly-qualified teachers by supporting the professional development of beginning teachers and their transition to the classroom. CSBT builds upon established partnerships, programs, and past grant-funded initiatives by consolidating and formalizing new teacher support. For more information, please visit: http://www.wcu.edu/academics/departments-schools-colleges/CEAP/welcome-to-tracs/csbt/csbt-research/.

Department of Veterans Affairs (VA) Educational Benefits. Western Carolina University is approved under the provisions of Title 38 United States Code, Chapter 36, to receive and process VA education benefits. Persons eligible and entitled under provisions of Chapters 30, 31, 33, 35 and Sections 901 and 903, and Title 10 United States Code, Chapters 1606 and 1607 may enroll in programs approved by the North Carolina State Approving Agency. All inquiries concerning Veterans Affairs educational benefits should be addressed to the VA Certifying Official, Military Student Services, 138 Camp Building, Western Carolina University, Cullowhee, North Carolina 28723, telephone 828-227-3022/2135.

Disability Services. The Office of Disability Services facilitates the determination of appropriate accommodations for students with disabilities. Accommodations are determined on an individual basis and may include but are not limited to testing accommodations, sign-language interpreters, note takers, books in alternate formats, adaptive equipment and software, and priority registration. To receive services, students must submit current documentation of a disability. Self-advocacy training, career advisement, awareness activities, and accessibility monitoring are also features of the office. Dr. Wesley J. Satterwhite, Director, 828-227-2716. http://disability.wcu.edu.

Highlands Biological Station. The Highlands Biological Station (HBS) is a field station for biological research and education focused on southern Appalachian ecosystems and organisms. Founded in 1927, HBS has been an Inter-institutional Center of the University of North Carolina since 1976. Western Carolina University has provided UNC administrative services for the Station since 1981. Thirty regional colleges and universities also participate in the Station's programs as member institutions.

HBS is located on the Blue Ridge Escarpment about 30 miles south of Cullowhee in the town of Highlands, North Carolina. The topography, latitude, and high rainfall of the area combine to yield extremely rich biotic and environmental diversity, making the Station an ideal locale for field studies in environmental biology, conservation, aquatic ecology, population biology, community and ecosystem ecology, and systematics. Its facilities are open to students and senior investigators engaged in research on the organisms and environments of the southern Appalachian region. Station facilities include housing (38 beds in several residences), a dining hall, well-equipped research space, and teaching classrooms and laboratories. The campus also includes the Highlands Nature Center, which offers educational exhibits and K-12 and public programs, and the Highlands Botanical Garden, which features hundreds of native plant species in a variety of southern Appalachian habitats.

Each summer HBS offers up to a dozen one- to two-week courses and workshops, taught at the advanced undergraduate and introductory graduate levels. Academic credit through WCU or UNC-Chapel Hill is available for most courses and workshops. Limited financial aid is available for courses, and a grant-in-aid program also provides financial assistance to graduate students conducting thesis research on the biota of the region. Since 2001 the Station has hosted a fall semester-in-residence undergraduate program in environmental biology in cooperation with the Carolina Environmental Program at UNC-Chapel Hill. WCU students majoring in biology or environmental sciences are encouraged to apply to this unique program.

To learn more about the programs, courses, and research opportunities at the Highlands Biological Station, see the HBS website (http://www.wcu.edu/hbs) or write to Dr. James T. Costa, Executive Director, Highlands Biological Station, 265 N. Sixth Street, Highlands, NC 28741.

Information Technology. The Division of Information Technology is responsible for providing technology assistance, information and services in support of Western's mission and aspirations. These services include providing information resources to students, faculty, staff and administration to support teaching, learning, research, administrative and regional engagement efforts. Information Technology provides advice, planning and
technical guidance for the appropriate use of technology in support of the university's educational endeavor. Information Technology is located in various campus buildings with assistance available at many of Western's facilities beyond the Cullowhee campus. The university is an active member of EDUCAUSE, a nonprofit association whose mission is to advance higher education by promoting the intelligent use of information technology.

Information Technology has over 70 staff and is comprised of the following units: The Office of the Chief Information Officer, IT Administration, Academic Engagement & IT Governance, Applications & Systems, Chief Technologist & IT Security Office, Coulter Faculty Commons, Networking & Communications, Project Management, and IT Finance, HR, & Procurement.

The university uses a state-of-the-art administrative system that allows students and faculty to do virtually all of their business with the university, such as register for courses or post grades, online. All students receive a WCU email account that allows them to communicate with their peers, faculty members, and university offices. The My Cat portal is the primary tool used by students to access email and other campus and course-related information. Blackboard is the primary instructional delivery system in support of traditional classroom and online courses.

There are over 3,000 microcomputers in offices, classrooms, and lab facilities, all with connections to high-speed broadband networks. Students enjoy high-speed network connectivity from their residence hall rooms (with two ports per room) or from the wireless network available throughout the Cullowhee campus. There are three general student computer-lab facilities which are open at least fifty hours per week. The Technology Commons located in Hunter Library is open the same hours as the library, including 24 hours a day during the fall and spring final exam weeks. Users may call the Information Technology Help Desk locally at 227-7487 or 866-928-7487, email ithelp@wcu.edu, or use the Online Help Desk/Self-Service Log-In: http://ithelp.wcu.edu for assistance with any Information Technology service or resource. Users may also visit the Technology Commons for in-person help. Visit the Help Desk web site online at http://www.wcu.edu/academics/campus-academic-resources/it/get-help/ and the Technology Commons web site online at http://www.wcu.edu/academics/campus-academic-resources/it/get-help/technology-commons/index.asp to learn more about services available. Faculty routinely work with the Coulter Faculty Commons to integrate technology into their teaching activities. Visit their web site online at http://www.wcu.edu/academics/faculty/coulter-faculty-commons/index.asp

Information Technology supports both Windows and Macintosh operating systems along with various software applications including a focus on Microsoft Office products. Office products are provided for faculty, staff and students along with upgrades for the Windows operating system. Information Technology also provides computer virus protection software to all students, faculty, and staff and is committed to keeping computers safe, secure and current in a highly-networked campus computing environment. Many software packages are centrally licensed with a limited number of licenses available in labs and classrooms. Statistical packages include SPSS and SAS which is provided by a grant by the SAS Institute. Other specialized software found in labs include digital media editing, geographical information system, and engineering design programs.

Home-Schooled Applicants
This policy deals with those students who are applying for admission as freshmen or transfer applicants, who are required to submit secondary school records, and who are participating (or have participated) in a secondary home-school program.

Home-schooled students will have their records considered ONLY under the following conditions:

1. The student provides an official transcript of all work completed (high school and college if dually enrolled). This should include course names, descriptions, grades, and the amount of credit awarded.
2. The student provides official score reports of the SAT or ACT tests.
3. All home-schooled applicants must meet standards equivalent to those used for applicants from approved secondary schools. This includes indication of the successful completion of work equivalent to high school units listed under Secondary School Preparation. Each applicant will be reviewed individually for academic strengths and weaknesses.

Categories of Admission
There are three categories of freshman admission to Western: standard, provisional, and honors admission.

Standard Admission
Each applicant is evaluated on the basis of individual strengths and weaknesses for placement into the regular course sequence. Priority is given to those applicants who have demonstrated a strong potential for success in the academic programs at WCU. Factors which are used in the evaluation process include the following:

- Courses selected by the student in high school and the grades achieved in those courses. A strong college-preparatory curriculum is recommended. All students who are admitted must meet the Minimum Course Requirements (MCR) of The University of North Carolina system. Special attention may be given to work completed during the senior year.
- Scores achieved on either the SAT or the American College Test (ACT).
- Academic performance in college dual-enrollment courses or on placement examinations. Applicants should submit official college records and examination results as soon as they are available.

Priority consideration for admission will be given to applications completed by March 1 for the fall term.

Admission to the Academic Success Program
Students whose high school records and test scores do not qualify them for standard admission but who show some potential for successful college work may be considered for admission to the university's Academic Success Program (ASP). Students admitted into the ASP still must meet all Minimum Course Requirements (MCR) prior to enrollment into the regular fall term. An applicant's high school records and ACT or SAT scores will be the primary information used to determine admission. The applicant must demonstrate the aptitude and motivation necessary to be able to successfully complete summer coursework and between twelve and sixteen semester hours of college course work in the first semester of enrollment.

The ASP program features additional tutoring and small, clustered classes that are designed to ease the transition from high school to college. Freshmen admitted to the ASP program are required to begin their program during the summer term when they will be provided with special assistance.

Admission to the Spring Entry Program
Students whose academic records do not qualify them for standard or ASP admission but who show some potential for successful college work may be considered for admission to the university's Spring Entry Program (SEP). Students admitted into the SEP still must meet all Minimum Course Requirements (MCR) prior to enrollment into
the spring term. An applicant's academic record, including any college coursework attempted prior to enrollment at WCU in the SEP will be the primary information used to determine eligibility to enroll.

Minimum Course Requirements (MCR) at the Sixteen Institutions of The University of North Carolina

The following courses are required for admission, in addition to an institution's own specific requirements: in English, four course units emphasizing grammar, composition, and literature; in mathematics, four course units including algebra I, algebra II, and geometry, and a higher level mathematics course for which algebra II is a prerequisite; in science, three course units including one unit in a life or biological science (for example, biology), one unit in a physical science (for example, physical science, chemistry, or physics), and one laboratory course; in social studies, two course units including one unit in U.S. history; and in foreign language, two units of one language other than English. An applicant who does not have the unit in U.S. history may be admitted on the condition that at least three semester hours in that subject will be passed by the end of the sophomore year.

Course units, as defined in these requirements, may include those high school-level courses taken and passed by an applicant after graduating from high school, as well as those taken while enrolled as a high school student.

Pre-University Program

This program enables high school students who have completed their junior year with superior academic records to begin work toward a university degree. Students who qualify may enroll in and earn credit for selected freshman courses. Full information is available from the Office of Admission.

Transfer Students

Applicants must have official transcripts, with statements of honorable dismissal, submitted by all institutions formerly attended. The applicant must meet first-year admission requirements and submit an official high school transcript with SAT or ACT test results, unless the application meets exception criteria. Transfer applications and required documentation should be submitted by June 1 for fall admission, and by April 15 for summer terms. The deadline for spring is Nov. 15.

Admission decisions primarily will be based upon a transfer student's academic performance in college. Applicants should have earned a minimum higher education grade point average (GPA) of 2.00 (C average) on all work attempted; however, a minimum 2.00 does not ensure admission to the university or to a specific program of study. Applicants who are ineligible to return to the last institution attended for any reason cannot qualify for admission.

Students transferring from any unaccredited institution, if admitted, may be placed on academic probation and may be permitted to validate transfer credits by attaining satisfactory grades at Western Carolina University or successfully completing validation examinations.

The academic records of transfer students will be evaluated by the Office of the Registrar, the Advising Center and the department head of the student's major. University policies on transfer of undergraduate credit are explained in the section of this catalog on academic regulations.

Cooperative Transfer Agreements with Community Colleges

Cooperative agreements exist between WCU and the community colleges across North Carolina. For additional information, contact the Advising Center or a local community college.

All Former Students

A student who has not been enrolled at WCU for three or more consecutive terms is considered a former student. Any other student resuming enrollment should contact the Advising Center at 828-227-7753 for information about course registration.

Readmission of former students is not automatic. Students are required to reapply and be admitted whenever:

- they cease WCU enrollment for three or more consecutive terms (summer included), or
- they wish to change levels or change classifications (i.e. change from non-degree seeking to degree seeking or from undergraduate to graduate level).

A student may obtain from the university a second bachelor's degree provided the degree is in a different major. Students may not earn a second degree in the same major. The general requirements for second degrees are stated in the section of this catalog on degree programs and requirements. Students seeking to pursue advanced degrees should refer to the Graduate School section.

**International Students**

International students are welcome at the university. International Students are granted regular, provisional, special, non-degree, or guest matriculant admission to Western Carolina University as appropriate in each case. Western Carolina University is authorized under Federal law to enroll non-immigrant students. International students should submit an application form, application processing fee (waived for exchange students), SAT and/or TOEFL test scores and transcripts evaluated by an approved evaluation company if necessary. International applicants from countries where English is not the primary language, must submit a minimum score of 550 (paper-based), or 79 (internet-based) on the Test of English as a Foreign Language (TOEFL). In order to receive a visa, students need to provide a statement of financial responsibility. It is expected that international students will not begin study until the admission process is completed and the student has met all admission conditions.

Since several months may be required to receive and process applications from abroad, international students are urged to submit complete information as early as possible but no later than stated deadlines.

Application deadlines for international students are as follows: April 1 for Fall Term and September 1 for Spring Term. Contact International Programs and Services at: http://www.wcu.edu/academics/office-of-international-programs-and-services/ and click on "international students."

**Other Eligible Persons**

**Non-degree-seeking Students**

Persons not seeking degrees may apply as Non-degree-seeking students by completing an application and paying the application fee. Non-degree seeking students are not admitted to any degree program, are not eligible for financial assistance, and are not assigned to advisers. Non-degree seeking students applying to live in university housing should indicate their status on the housing contract. Admission categories for special students are:

**Special Students**

Upon approval persons not seeking degrees, but wishing to take courses for personal enrichment or advancement may take up to eighteen semester hours as a non-degree student. Academic credentials may be required to validate a student's eligibility for admission. Non-degree students who wish to take more than eighteen semester hours will have to meet regular admission criteria.

**Alternative Teacher Licensure Students**

Persons who have earned a previous four-year degree and are returning to complete those requirements necessary for teacher licensure and are not pursuing a degree may apply as an alternative teacher licensure student (http://alternativelicensure.wcu.edu). Persons interested in Middle Grades Education may apply to the Graduate Certificate Program that leads to an initial license in Middle Grades. Persons interested in Elementary Education may apply as second-degree seeking students and must complete all requirements for the initial license and major in elementary education. Persons who plan to meet alternative teacher licensure requirements must provide transcripts of all college work to the Office of Alternative Teacher Licensure, 223 Killian Building, Western Carolina University, Cullowhee, North Carolina 28723.

**Dual Enrollment Students**
Dual enrollment students are those students who plan to take courses at Western while currently enrolled in a local high school. Applicants must submit a letter of parental consent, a letter of permission from their high school principal or guidance counselor, SAT or ACT scores, and an official high school transcript. Dual enrollment students may not live in campus housing.

**Extension Students**

Individuals may enroll in extension courses with the approval of the coordinators of the courses. An extension student who later desires to enroll in courses for degree credit must meet regular admission requirements.

**Transient Students**

A student interested in enrolling for a semester or a summer session before returning to another institution may be admitted as a transient. A statement of good standing at the former institution is required.

**Special Consideration**

Persons of above-average ability who do not meet admission requirements in any category may request special consideration by submitting a letter of explanation and supporting information. However, regular admission guidelines are regarded as sound for the student and the university. Few exceptions are made.

**Appeals of Admission Decisions**

Admission decisions may be appealed by presenting a written request for reconsideration to the director of student recruitment and transitions, who reviews any appeal related to academic preparation or credentials. Appeals of decisions which are related to criminal, disciplinary, or behavioral factors are referred to the director of student judicial affairs. The request should indicate the reasons for reconsideration and any factors the applicant feels were not given adequate consideration in the admission process. Applicants will be notified in writing of the final decision by the Office of Admission.

All charges are due and payable on or before the payment deadline for each semester. Payment may be made by mailing a check, cashier's check or money order, to the Student Accounts Office, in-person at the One Stop in the Killian Annex, or on-line by credit card or check through MyCat. In accordance with state policy, a processing fee of $25 is assessed for returned checks. A processing fee of $5.00 will be assessed for ACH payments with incorrect account information.

Any fees or fines not paid will cause the university to withhold the issuing of transcripts and block registration for classes until all debts are cleared.

Students who preregister will be required to remit full payment of tuition and fees by August 1 or next business day for fall semester (December 15 for spring semester or next business day) in order to retain their preregistered class schedules. After this deadline, schedules of undergraduate students who have preregistered and not paid will be canceled. The class seats made available thereby will be offered to these and all other students who register in the regular registration and drop-add periods at the beginning of the semester.

Tuition and Housing Deposits

Tuition and Fees

New students who are admitted to Western Carolina University for the fall semester are required to remit a $150 nonrefundable tuition deposit as soon as possible but no later than May 1st. By doing so, the student reserves a place in the entering class and establishes eligibility to preregister for courses to be taken in the first term of enrollment. This amount is due and payable upon notification of acceptance for admission and must be paid prior to participation in course preregistration. The payment is fully creditable to charges for the first semester of enrollment.

Housing

New students who intend to live on the University campus must remit a $150 nonrefundable housing deposit as soon as possible but no later than May 1st. Freshmen students are required to live on campus. Freshmen living in Jackson, Macon, Haywood, and Swain Counties may apply for a Housing Waiver to live at home. This amount is due and payable upon notification of admission and is fully creditable to housing charges for the first semester of enrollment. Returning students are required to remit a $150 nonrefundable housing deposit by June 1 of each year to secure residence hall spaces for the next academic year. This payment is fully creditable to first semester housing charges.

After June 1, requests and payments for campus housing will be accepted on a space-available basis.

Resident and Distance Learning Tuition and Fee Charges

The university classifies its programs and courses into two categories: resident and distance learning (DL). Students should become familiar with the classification of their programs, because each has a different tuition and fee structure. Resident programs are located on campus in Cullowhee or at resident centers in Asheville/Buncombe County and Cherokee. Degree or certificate programs that are approved for DL serve students away from the Cullowhee campus and its resident centers. Course sections are classified as resident or distance based on the intended population to be served. Although course section classifications as resident or distance typically follow program designations, there are exceptions. So, during the on-line registration process, students should look at the CAMPUS designation to determine whether the course section is a resident or distance course for tuition purposes.

Tuition and fees are based on program and/or course section campus classification and are applied to all academic terms. Typically, resident and distance students enroll in course sections in the same classification as their program (e.g. distance students enroll in distance courses). Occasionally, students may find it necessary to enroll in a course section whose designation is different from the classification of their approved programs. When this occurs, distance and part-time resident students will be charged the tuition and fees associated with the classification of each individual course section (resident or distance). Full-time resident students will be charged their full-time rate regardless of the combination of resident and distance course sections. Since there is no full-time rate for DL students, they will be charged the part-time rate for resident courses in which they enroll unless their program has a
special provision to be charged otherwise. Special provisions may be approved for specific programs (e.g. Military and Jamaican programs).
**Fees Per Semester**

Tuition rates are reviewed and set annually by the North Carolina Legislature. The University reserves the right to alter any charges without prior notice.

Fees for Distance Education include Education and Technology, Association of Student Government and Administrative Computing.

**Late Registration and Payment**

A Student who registers after the last regular registration date will be charged a late fee of $10 for each course. Delinquent accounts will be assessed a one-time 10% late payment penalty and monthly interest at an interest rate established by the North Carolina Department of Revenue.

Western Carolina University is a publicly supported institution. Tuition payments and other required fees meet only a part of the total cost of the education of students enrolled. Tuition and fee rates included are waiting for approval by the University System of North Carolina Board of Governors, not inconsistent with actions of the General Assembly.
Students and parents can also find additional information on Western Carolina University's Use of Tuition Statement at: tuitionstatement.wcu.edu. This statement provides detail on an annual basis for the UNC Board of Governors approved tuition and fees only. For a list and description of both UNC Board of Governors and WCU's fees, go to tuition.wcu.edu and choose "More about 2015-2016 Required Fees".

**Dining Services**

**Meal Plan Requirement**

University policy requires students who live in a residence hall to purchase a meal plan from the residential plans each semester. Unused declining balance points at the end of fall semester will transfer to spring semester for continuing students. Unused declining balance points are forfeited at the end of spring semester. Block Plan meals must be used in the semester for which they were purchased. Unused Block Plan meals do not transfer to the following semester and will be forfeited at the end of the semester. The balance remaining at the end of fall term does not change the requirement to purchase a meal plan for spring semester. No refunds will be issued for unused block meals or declining balance points.

**Meal Plan Changes**

Deadline for students to change their meal plan is the last day of course drop/add each semester.

**Block Plan Meals**

Block Meals are prepaid all-you-care-to-eat meals that can be used at Courtyard Dining Hall for any meal served. Block Plan meals are available to use throughout the semester. There is no limit on the number of meals that may be used during a specific day or week, but meals must be used in the semester for which they are purchased. Block Meals do not transfer from semester to semester. Block Meals may only be used at Courtyard Dining Hall.

**Declining Balance Points**

Declining Balance Points work on the same principle as bank debit cards. Each time you make a food purchase, the total cost of your purchase is subtracted from the point balance in your account. Declining balance points may be used at any campus dining location including the convenience stores and snack vending machines. Unused declining balance points at the end of fall semester will transfer to spring semester. Unused declining balance points at the end of spring semester are forfeited. No refunds will be issued for unspent declining balance points.

**ID Card**

A valid WCU Cat Card is required to use your meal plan. You must personally present your Cat Card to access your meal plan. You may not loan your card to another student. Cards presented in dining locations by someone other than the card owner will be confiscated. Cards and replacements may be obtained in the Killian Annex at One Stop Student Service Center. Cards that are damaged or the picture is impaired may be confiscated. Lost or stolen cards must be reported immediately to the Cat Card office or to University Police in order to have the card declared invalid. The University and Dining Services are not liable for purchases made with lost or stolen cards.

**Serving Dates**

Your meal plan can be used during scheduled service times from lunch on the day residence halls open until residence halls close at the end of the semester except during these University holidays: Thanksgiving Break (Wednesday - Sunday lunch), Winter Break, and Spring Break. Serving dates and hours of operation at individual dining locations are described on our website at http://wcudining.wcu.edu. Holiday hours will also be posted several days in advance at each location and will be available on the website.

****The all-you-care-to-eat meal plans combine an All-You-Care-To-Eat program located at Courtyard Dining Hall and a declining balance account that can be used at the other food-service locations on campus. "All You Care to Eat" plans include block meals that can be used any time during the semester, within normal facilities operating hours. Declining balance meal purchases are deducted throughout the term from a student's available balance of declining balance points. During the semester, any student with a declining balance account may make additional prepayments in minimum increments of $50 to increase the balance.

***** The student fee supports the high tech laboratories and computer software utilized by these majors.

**Refund Policies**

**Academic Year Tuition and Fees**

During a fall or spring semester, a full-time or part-time student who withdraws from the university before the first day of classes will be refunded 100 percent of tuition and fees. Students who withdraw from the university beginning the first day of classes are entitled to refunds of tuition and fees in accordance with the following schedule (with the exception of the non-refundable health insurance fee):

Students who withdraw from the university as a result of involuntary recall to military service, pursuant to a Presidential order authorizing the call-up of reservists, and who are thereby prevented from receiving credit for the courses in which they are enrolled will be entitled to a full refund of tuition and fees. Refunds of room and board charges will be prorated based on the number of days the dormitory room was occupied and the meal ticket was used. Students having the declining balance meal plan will be refunded the actual account balance at the time of withdrawal. Students who reduce their course loads during the registration period for the semester as defined in this catalog but who continue to be enrolled in the university will have their tuition and fees adjusted fully to reflect only the number of semester hours in which they remain enrolled. Part-time students are eligible for a refund based on the semester-hour tuition rate. Full-time students are eligible for a refund only when course loads are reduced below the minimum hours required to qualify as full-time. No adjustment will be made for reduced loads after the close of the registration period. However, students who drop all courses must withdraw from the university. They are, therefore, eligible only for the partial refunds that apply to university withdrawals.

Summer School Tuition and Fees
A student who withdraws from summer school before the first day of classes will be refunded 100 percent of tuition and fees. Students who withdraw from the University beginning the first day of classes are eligible for refunds through the first fifty percent of the summer session. The refund prorations for summer school are available from the Student Accounts Office. Summer school students who reduce their course loads by one or more semester hours within three days following regular registration or on or before the date of the second class meeting, whichever is later, will have tuition and fees adjusted to reflect the number of semester hours in which they remain enrolled.

Room and Board
Refunds of room fees for any semester or summer term will be calculated at the same rate as tuition and fees. Meal plan refunds for standard meal plans will be calculated based on a prorated daily balance. Meal plan refunds for declining balance plans will be based on the actual balance remaining on the student account at the time of withdrawal. All-you-care-to-eat meal plans have a standard declining balance component. Refunds for all-you-care-to-eat plans will be based on the policy applicable to each component. Refunds will not be made for the last two weeks of a semester or for the last week of a summer session.

Exceptions
Exceptions to these policies may be made if a student withdraws from the university for reasons of hardship. These reasons are defined as: (1) death of the student, (2) death in the student's immediate family, (3) a medical condition that compels withdrawal upon recommendation of the director of Student Health Services, or (4) a mental health condition that compels withdrawal upon recommendation of the director of Counseling and Psychological Services. Requests for exceptions should be submitted to the Refund Appeals Committee, Academic Advising Center. Approved exceptions for refunds or account adjustments will be forwarded to the Student Accounts Office to make final settlement of the student's account. All refunds, regardless of the source of payment, will be made by a check payable to the student.

Tuition Surcharge Policy
Effective Fall 2010, undergraduate students seeking a baccalaureate degree at Western Carolina University will be subject to a 50 percent tuition surcharge as required by the North Carolina General Statute Section 9.10.(b) § 116-143.7. Session Law 2009-451. No surcharge will be imposed on any student who exceeds the degree credit hour limits within the equivalent of four academic years of regular term enrollment, or within five years of regular term enrollment in a degree program officially designated by the Board of Governors as a five-year program. As of Fall 2009, Western Carolina has no five-year programs approved by the Board of Governors. Additional details can be found on the university's website; keyword search "surcharge."

Book Rental Plan
The WCU Bookstore Book Rental Department offers textbook rentals to on-campus undergraduate students for courses numbered 100-499. Students pay a flat fee of $140.00 each semester and are entitled to the adopted textbook used in each course for which they are registered. Part-time students pay a pro-rated amount equal to the number of semester hours for which the student is registered times the established hourly rate. This plan does not provide notebooks, workbooks, paperbacks, manuals, or supplemental books and materials; these are available for purchase at the Bookstore. Students may purchase Book Rental textbooks at replacement cost (list price less 20 percent), but this does not exempt them from paying the rental fee. Book Rental fees are included with tuition and can be paid in the One-Stop Office. Further information about the Book Rental Plan can be found at wcubookstore.wcu.edu/.

BOOK RENTAL POLICY EFFECTIVE FALL 2004
Rental books must be returned no later than five working days after the last day of final exams each term (including minimester and Summer School). Unreturned books will be charged to your student account at replacement cost. Books returned after this five-day period will be credited to your student account at 1/2 the charged amount. Grossly mistreated books must be purchased. There are no exceptions to the above policy. Textbooks may be returned by mail. Include your full name and student ID number to:

WCU Bookstore
Attention Book Rental
Western Carolina University
Cullowhee, NC 28723

Graduate students must purchase all required texts, regardless of course level. Textbooks for courses numbered 500 and above are available at the Bookstore. Textbooks for courses numbered below 500 are available for purchase at the Book Rental Department.

Resident Status for Tuition Purposes

Consistent with North Carolina's public policy of providing the benefits of higher education as free as practicable to the people of our state, the General Assembly has placed stringent criteria on who qualifies as a bona fide resident of this state for tuition purposes. Residence status for tuition purposes in North Carolina is governed by general statute, and the North Carolina State Residency Committee maintains a manual to assist students and their families in understanding both the legal and procedural requirements of resident classification for tuition purposes.

Section 1.C (page 5) from the North Carolina Resident Classification Manual is reprinted below:

Three broad points may be helpful in understanding and implementing state law governing the determination of residency for tuition purposes at institutions of higher education:

First, to appreciate the difference between residence and domicile. Residence is a place of abode, and may be either permanent or temporary. By contrast, domicile is never temporary; rather, it is one's permanent, established home. To be domiciled in a particular place, one must intend to remain there for an indefinite period of time (permanently), and it is the place where one intends to return if absent. A person may have many residences, but may only have one domicile. For purposes of this Manual, "domicile" is synonymous with "legal residence."

Second, generally speaking, state law mandates that only those who can demonstrate 12 months of uninterrupted domicile in North Carolina are eligible for in-state tuition. State law also places on applicants the burden of establishing, by a preponderance of evidence, that they are domiciled, rather than merely residing, in North Carolina. The 12-month (365 days) qualifying period begins at the time that a cluster of domiciliary acts is established as confirmed by valid evidence.

"To be eligible for classification as a resident for tuition purposes [in-state tuition], a person must establish that his or her presence in the State currently is, and during the requisite 12-month qualifying period was, for purposes of maintaining a bona fide domicile rather than of maintaining a mere temporary residence or abode incident to enrollment in an institution of higher education." G.S. 116-143.1(c)

In short, a 12-month presence in North Carolina, even when coupled with a declaration of intent to remain permanently, does not, in and of itself, entitle an applicant to in-state tuition. Campuses still must evaluate evidence of domiciliary acts and make an independent determination of whether a bona fide domicile has been established.

Third, state law also makes the legal residence of an individual's living parents or legal guardian prima facie evidence of the individual's legal residence. This means that, at first view without further investigation or presentation of evidence, the legal residence of the applicant is the same as that of his or her living parent(s) or legal guardian. That prima facie evidence may be rebutted or reinforced by other evidence relative to the applicant's age and general circumstances. Generally speaking, for an applicant with out-of-state parents, the older the applicant and more independent the applicant is from his or her parents, the more likely it is for the applicant to be able to demonstrate domicile in North Carolina.

Additional Resources. The North Carolina State Residency Classification Manual and additional information (including information on the effect of marriage to a North Carolina resident, special treatment for certain members of the military and their dependents, statutory grace period following the loss of domicile and other specific exemptions written into general statute) are available on the University's website at http://residency.wcu.edu. This website also includes deadline information as well as links to the State Residency Committee's website and the North Carolina General Statute governing residency. The burden of proof of in-state residency status rests on the student.
Financial Aid

The Financial Aid Office administers programs that assist students in meeting educational costs while attending Western Carolina University. Awards are offered on the basis of both need and academic eligibility. Applications for consideration of eligibility are filed annually at no cost to the student and family. Students interested in applying for financial aid must complete the Free Application for Federal Student Aid (FAFSA). This must be submitted as soon as possible after January 1 of each year the student will attend. The FAFSA can be accessed online at www.fafsa.gov. Western Carolina University should be listed as a recipient of the information by using school code 002981. The application should be completed as accurately as possible and conform to income tax information, since discrepancies require resubmission of information and consequent delay. The receipt of FAFSA information generally completes the application process, provided applicants are not selected for verification, which requires additional documents. Since the most attractive sources of financial assistance are very limited, applicants are encouraged to complete the FAFSA by the institutional priority date of March 1. Failure to complete the application may result in the loss of institutional grants or scholarships. Federal guidelines regarding student financial aid require that a recipient be making "satisfactory academic progress" toward a degree. A student must be progressing both qualitatively and quantitatively toward graduation within a prescribed time frame. To comply with these guidelines, Western Carolina University has defined minimum satisfactory academic progress for a full-time undergraduate student to remain eligible for financial aid according to the following criteria:

- All undergraduate students must complete at least 67 percent of all semester hours attempted at Western Carolina University
- Students must maintain a cumulative GPA of 2.0

Maximum Time Frame

A student cannot receive any financial aid funding after he or she has attempted 150% of the hours required to earn a degree. For example, students in programs requiring 120 hours earned for graduation will be eligible for financial aid during the first 180 attempted hours as an undergraduate. All attempted hours are counted, including transfer hours, whether or not financial aid was received or the coursework was successfully completed. This allows for double majors or change of majors.

Notification of Awards

Notification of awards, beginning with completed applications for aid received prior to April 1, will begin April 1 and will continue thereafter.

Types of Aid

Three principal types of aid are available: (1) grants and scholarships, which do not have to be repaid, (2) loans, usually long-term and low-interest, to be repaid after the student leaves college; (3) work-study, which is often related to the student's field of study.

Grants and Scholarships

Grants

Eligibility for federal, state and institutional grants is based on financial need as determined by a formula of the U.S. Department of Education that is applied uniformly to all applicants. Students who complete the Free Application for Federal Student Aid (FAFSA) are considered for grant eligibility.

UNC Campus Scholarship

The UNC Campus Scholarship awards grant funds in support of advancing the academic benefits of a diverse student body. These limited funds are awarded to North Carolina residents who demonstrate financial need and who would bring an element of diversity to Western Carolina University's campus environment. All applicants must apply for financial assistance by completing the Free Application for Federal Student Aid (FAFSA).

UNC Campus Scholarships for Native Americans

Under this Board of Governors program, North Carolina residents demonstrating need who are Native Americans enrolled in a tribe recognized by North Carolina are eligible. All applicants must apply for financial assistance by completing the Free Application for Federal Student Aid (FAFSA). Students must demonstrate financial need and be enrolled as a full-time student. Awards are for $700 per academic year.

Federal Supplemental Educational Opportunity Grants

This program provides funds through participating educational institutions to undergraduate students with exceptional financial need who would be unable to enter or remain in an institution of higher education without such assistance. This grant is generally awarded only to students who are eligible for Pell Grants.

North Carolina Tuition Grants
Established by the General Assembly of North Carolina, these grants are awarded to North Carolina residents who are eligible for Pell Grants. The value of the grant is determined by the Pell Grant eligibility.

**University of North Carolina Need-Based Grant**

Students must be North Carolina residents for tuition purposes and enrolled in at least six credit hours at one of the UNC system universities. Eligibility is based on a calculation of need, using income data from the Free Application for Federal Student Aid (FAFSA). Award amounts may vary, based on legislative appropriations.

**North Carolina Education Lottery Scholarship**

Students must be North Carolina residents for tuition purposes and enrolled in at least six credit hours at one of the UNC system universities. Eligibility is based on a calculation of need, using income data from the Free Application for Federal Student Aid (FAFSA). Award amounts vary, based on an estimated family contribution of $5,000 or less.

**Applying for Scholarships**

Western Carolina University is proud to recognize many of the generous contributors who have funded endowed scholarships for deserving students. These scholarships have a wide variety of criteria including: academic merit, financial need, program of study, county of residence, demonstrated leadership, community service, talent, or campus involvement. For a full scholarship listing, please visit scholarships.wcu.edu.

In order to be considered for these scholarships, new and continuing students must submit the online scholarship application each year. The University Scholarship Committee works in conjunction with departmental scholarship committees to select scholarship recipients in the spring for the following academic year. In order to be considered for need-based scholarships, students must also submit the Free Application for Federal Student Aid (FAFSA) by the priority filing deadline and demonstrate financial need as determined by Federal Methodology.

**Academic Scholarships**

Each year, WCU awards hundreds of thousands of dollars in scholarships recognizing academic achievement. These scholarships are awarded based on academic credentials presented during the admission process and a separate application is not required. These scholarships are highly competitive and students should apply for admission by November 15 in order to ensure consideration.

**Performance Scholarships**

Scholarships are also available to students with demonstrated talent in the performing arts or athletics. For more information about athletic scholarships, please contact the WCU Athletics Department. Scholarships for the performing arts are awarded by audition.

**Loans**

**Federal Student Loans**

Eligibility for federal loans is determined by a formula of the U.S. Department of Education that is applied uniformly to all applicants. Students who complete the Free Application for Federal Student Aid (FAFSA) are considered for loan eligibility. For a full federal student loan listing, please visit http://studentaid.ed.gov/sa/types/loans/#types.

**Private Student Loans**

These loans are non-federal loans, made by a lender such as a bank. For more information on private student loans, please visit: http://studentaid.ed.gov/sa/types/loans/federal-vs-private.

**Direct PLUS Loan for Parents**

These loans provide funds to parents to help meet the cost of education. They may borrow up to the cost of education per child minus other financial aid. Borrowers may not have an adverse credit history to be determined eligible. There is an origination fee with a variable interest rate. Interest starts upon disbursement of funds. The repayment period begins at the time the PLUS loan is fully disbursed, and the first payment is due within 60 days after the final disbursement.

**Employment**

**Federal Work-Study Program**

Eligibility for Federal Work-Study is based on financial need as determined by a formula of the U.S. Department of Education that is applied uniformly to all applicants. The Federal Work-Study Program provides funds for part-time employment to help students finance costs associated with postsecondary education. Students must complete the Free Application for Federal Student Aid prior to March 1 to determine eligibility.

**Resident Assistants**
Positions as assistants in the residence halls are available to qualified undergraduate students. Contact the Department of Residential Living.

**Other Part-time Work Opportunities**

A part-time job service for students is operated through the Career Services/Cooperative Education Office. All non-work-study job opportunities on the campus and some off-campus jobs are posted with Career Services/Cooperative Education. Students should check the on-line posted vacancies at [http://careers.wcu.edu](http://careers.wcu.edu).

**Special Assistance**

**Veterans Administration Programs**

Most veterans who served on active duty for more than 180 days, any part of which occurred after January 31, 1955, are generally eligible for financial support. For more information, please visit [http://www.benefits.va.gov/gibill/](http://www.benefits.va.gov/gibill/).

**Vocational Rehabilitation Assistance**

Assistance covering fees, books, and supplies is provided. To be eligible, an individual must have a disability that interferes with employment; show reasonable promise of becoming suitably employed within an acceptable period of time; and be of, or close to, working age. Further information can be obtained from local Vocational Rehabilitation offices.

Academic Regulations

Each annual undergraduate catalog issue of The Record becomes effective at the opening of the fall term. To receive a degree, a student must satisfactorily complete all requirements of the catalog in effect when a major is declared. A student who leaves the university for a period of one calendar year or longer and then returns is required to meet the major requirements in effect at the time of return. A student who changes to another major is required to meet the requirements in effect at the time of the change. A student who takes longer than seven years to graduate may become subject to current catalog requirements. Exceptions to these policies may be necessitated by changes in course offerings, degree programs, or by action of authorities higher than the university; but every effort will be made to avoid penalizing the student.

By exercising a written option, a student may choose to graduate under the terms of a catalog in effect at a time of graduation. Students should discuss this option with their academic advisor, who will notify the Registrar's Office of the desired change.

Courses listed in the catalog are offered at times appropriate for maximum availability to students; listings for each term are prepared well in advance. The university reserves the right to withdraw a course if enrollment is insufficient to justify offering it at the time planned.

Every effort has been made to assure the accuracy of this catalog to the extent possible at press time. Changes in or elimination of provisions contained herein on any and all matters may be made and applied before the next published catalog. However, the latest information is maintained on line under the Office of the Provost and the Registrar's Office.

Scholastic Status Check. Each student is expected to know the information in the catalog and to verify that qualitative and quantitative requirements for a particular class rank and for proper progress toward graduation are being met. All students should check official records, degree audit and transcript periodically to confirm their status. The university does not assume responsibility for the student's unexpected failure at the last minute to meet all requirements for graduation, whether failure is due to misunderstanding or negligence concerning those requirements or to an inability to meet them.

Registration

Registration occurs prior to the beginning of each semester at dates/times announced by the University Registrar. As a general rule, registration will be permitted at the same level and classification provided:

- academic standing permits registration,
- the student's graduation (or intended term of graduation) does not precede the term for which the student is attempting to register,
- the student is currently enrolled or has been enrolled in one or more of the last three semesters including summer (see Interruptions in Enrollment below), and
- the student has been advised and given a registration PIN if this is required for the student's program or status.

Late Registration. Except under special conditions, no student is permitted to register or add courses after the schedule adjustment period (add/drop) ends. There is a per course late fee for all registration performed after add/drop ends. No late registration is permitted after the tenth day of the term which coincides with when the institution submits census enrollment to the State. Late registration is announced in the academic calendar and strictly enforced. A late registration fee will be charged.

Post-Graduation Registration. Students who complete an undergraduate degree and graduate who wish to continue their enrollment at the undergraduate level following graduation will be permitted to do so provided their resumed enrollment is not interrupted for more than three consecutive semesters. See Stop-outs below. Students seeking to continue must notify the Registrar's Office. Students who wish to take graduate level classes after completing their baccalaureate degree must apply for admission to the Graduate School. Graduate students who wish to continue their enrollment upon graduation must reapply.

Interruptions in Enrollment. Interruption of enrollment of one or more terms may: (1) jeopardize a student's ability to return to or complete a specific program of study, (2) disrupt course sequence toward program completion, (3) necessitate submission of additional documentation prior to registration, (4) delay graduation, or (5) negatively impact scholarship or financial aid eligibility. Some programs require or recommend continuous enrollment. Performance at another institution during a student's absence has bearing upon a student's ability to continue enrollment at WCU. Before interrupting enrollments, students should become familiar with potential ramifications that an absence in enrollment may have in terms of their ability to return or to complete a specific
program. Stop-Outs. Students whose enrollment is interrupted for three consecutive semesters (any combination of fall, spring summer) are required to seek readmission.

Course Information
All courses offered by the university are listed in the Course Descriptions section of this catalog. For the full description of graduate courses, refer to the graduate catalog. If the entry for an undergraduate course does not carry the full description, refer to the listing for the field of study designated by the parenthetical course prefix and number.

Guide to Course Numbers
Numbering System. Each course is identified by means of a course prefix and a three-digit number. The first digit of the number designates the level of the course and indicates the minimum class rank a student should have achieved to enroll in the course. Some course numbers within the numbering system are reserved for special use.

Reserved Course Numbers. Numbers 293, 294, 393, 394, 493, 494, 593, 594, 693 or 694 are reserved for special topics. The number 389 is reserved for cooperative education undergraduate courses, and the number 589 is reserved for cooperative education graduate courses. Within the sequences 480-499, 580-599, 680-699, and 780-799, the second and third digits of the numbers are assigned to special types of courses:

80-82 Independent study and directed-readings courses
83-89 Internships, practicum, and special applied field projects
90-92 Student teaching
93-94 Special topics courses
95-98 Seminars
Credits and Class Meetings. Unless otherwise indicated at the end of the course description, the number of hours a class meets each week is the same as the credit-hour value of the course. The credit-hour value of each course is indicated in parentheses immediately following its title. For example, if 3 hours of credit may be earned, the credit is indicated as follows: (3). In variable credit courses, the minimum and maximum hours are shown as follows: (1-3). Unless repeat credit is specified in the course description, a course may be applied only once toward the hours required for graduation. The availability of a course for repeat credit and the maximum hours that may be earned are indicated within the parentheses and immediately following the credit-hour value of the course as follows: (3, R3). In this example, the course carries 3 hours of credit and may be repeated once for a total maximum of 6 hours applicable toward a degree.

Prerequisites and Co-requisites. A prerequisite (PREQ) is any special requirement, usually one or more background courses or requirements other than class rank, that must be met before enrolling in a course specifying the prerequisite. A co-requisite (COREQ) is any course which must be taken during the same term as the course that specifies the co-requisite.

Experiential Courses. The maximum credit in experiential courses that may be applied toward a degree within the minimum of 120 or 128 hours required in all bachelor's programs is 26 semester hours (20 percent). The maximum credit that may be earned in cooperative education or applied field project courses/internships or in any combination of the two is 15 hours.

Credit is awarded in experiential courses on the basis of a minimum of three contact hours per credit hour.

Cooperative Education Courses. Students participating in a cooperative education work term are registered for a 389 course in the major department, or the department most closely related to the work experience. To be eligible, a student must be at least a sophomore and have a GPA of 2.0 or above. Exceptions must be approved by the departmental co-op placement adviser. A full statement of the requirements for academic credit is available from the Cooperative Education Office in the Career Services Office. Academic assignments and work performance are used to evaluate the student on an S/U basis.

Special Topics Course Policy. Courses numbered 293, 294, 393, 394, 493, 494, 593, 594, 693 or 694 are for special topics that reflect a student's or faculty member's special interest not covered by regular departmental curriculum offerings. Credit in these courses varies from one to four credit hours, to be determined by the department for each offering. Students may take up to 12 hours of special topic credit in a single department/program. A particular topic course can be taught at most two times in a five-year period. If a department/program wishes to teach a particular topic course more than twice in a five year period, it must propose the course as a regular course, subject to the curriculum review process.

Guide to Course Prefixes

Course Prefixes. The prefixes used to designate courses, except in the case of very short names such as art, are abbreviations of the names of departments or of fields of study within the departments.

Credits, Grades, and Quality Points

The basic unit of credit is the semester hour. A semester hour represents one lecture recitation hour or a minimum of one, two, or three laboratory hours a week for a semester. In experiential courses, a minimum of three hours is required per hour of credit.

Course Load for Undergraduates

The minimum full-time course load during a fall or spring semester is twelve hours. A normal load is sixteen hours; however, a student may take up to eighteen hours. Any schedule that exceeds eighteen hours constitutes an overload and must be approved by the student's adviser and the appropriate administrators as indicated on the request and approval form. Twelve hours is the maximum that may be earned in experiential courses during a semester. Course load regulations for the mini or summer session are published on the Registrar's website at www.wcu.edu/registrar.
Classification

Regular degree-seeking undergraduates are classified based upon cumulative hours earned:

- **Freshman**: 0-29 hours
- **Sophomore**: 30-59 hours
- **Junior**: 60-89 hours
- **Senior**: 90 or more hours

*See Graduate Catalog for the graduate level grading system.

The grades of A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D- and F indicate gradations in quality from Excellent to Failure. Please note that a C- grade is less than satisfactory and may not meet particular program and/or course requirements.

Students must be familiar with the class attendance, withdrawal, and drop-add policies and procedures.

**Incomplete.** The instructor may grant a student an I grade for work not completed if there is a reasonable prospect that the student can pass the course by making up the work missed if the incompleteness is unavoidable and not caused by the student's negligence. All incomplete grades must be removed and a grade of A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D- and F must be submitted to the registrar. The work must be made up and a grade received by the registrar by the last day of classes of the next regular semester (excluding summer), or the grade will become an F. A student may not re-register for the course until the I is removed or changed to an F. The instructor is required to list the conditions to remove the I and send them to the department head. If the instructor is no longer employed by the university, the department head will remove the I upon completion of the stated requirements. In extenuating circumstances, students should refer to the "Academic Appeals Procedure" section in The Record.

**In Progress.** An IP (In-Progress) is assigned only in courses that have been approved for IP grading. An IP grade indicates that a grade is pending until the sequence of courses is completed. A grade of IP is appropriate as long as work remains in-progress. Once work is complete the IP grade will be replaced with an evaluative grade appropriate for the course. If a student changes programs, or changes options within a program such that credit is no longer needed to complete program requirements; or if the student ceases enrollment and the work is not completed within a year an evaluative grade will not be issued and the IP grade will be administratively replaced with NG (No-Grade) to indicate that work is no longer in-progress.
Satisfactory-Unsatisfactory. S/U grading is limited to courses in which standard or traditional grading is rendered difficult by the nature and purpose of the courses. There is no limit on the credit hours a student may earn in S/U grades except that imposed by the types of courses approved for such grading. S/U grades may not be awarded in courses unless specified in the course descriptions in this catalog and in the master class schedule. S and U are the only grades assigned in these courses. Neither grade is used in calculating the GPA, but an S allows hours of credit while a U does not.

Audit. When space is available, a registered student may audit a course with the approval of the adviser, the instructor, and the head of the department offering the course. A completed course audit form must be submitted in order to enroll. Change from audit to credit, or the reverse, is permitted only during the regular schedule adjustment period. No credit is earned for auditing, but the audited course must not add hours in excess of the student's maximum load. An audited class will be noted on the student's transcript. Audit courses do not count toward the twelve hours required for full-time enrollment. Participation in class activities is optional with the instructor. Tuition and fees for audited courses are determined by the hour value of the courses.

Final Grade Changes. When a grade other than incomplete is reported officially by an instructor at the end of a term, the grade is recorded and can be changed only if an error was made in estimating or reporting it. The instructor will, with the approval of the department head, report the error in writing to the dean with a recommendation about the action to be taken. Only the instructor can change the grade in a course except as provided in the incomplete grade policy. In case of student appeal, or academic integrity violation the final grade may be determined by the appropriate appeal body as part of sanctions (see Academic Integrity Policy). Any request by a student for a change in a final grade must be submitted to the instructor within thirty-five days after the end of final exams.

Transcripts. Transcripts are furnished, either to the student or by mail, only after accounts are cleared and only upon the student's written request, which must include the student's signature and student identification number. There is no charge for transcripts issued.

The forgery of transcripts and diplomas or the use of such documents with intent to defraud is illegal under North Carolina law. Appropriate action will be taken.

Withdrawal Policies and Procedures
A student may find it necessary or advisable to withdraw from one or more courses during a term. In some cases, he/she may find it necessary to withdraw from the university.

Course Withdrawals
After consultation with their academic advisor and the instructor of the course, a student may withdraw from any course prior to the expiration of one-half of the term. Course withdrawals must be completed in MyCat. Students are not permitted to withdraw from courses after one half the expiration of the term. Course withdrawals affect satisfactory academic progress which also affects academic standing. (See academic standing.) Course withdrawals do not count toward the twelve hours required for full-time enrollment and no refund is given.

Students may withdraw from a maximum of 16 hours of courses during their career at Western Carolina University and receive a grade of W. Any withdrawal beyond the limit will result in a Withdrawn-Failing (WF) which will affect the semester and cumulative GPA as if it were an F.

University Withdrawals
During the fall and spring semesters, a student may withdraw from the University through the last withdrawal date, as indicated by the Registrar's Office. During summer sessions, a University withdrawal occurs only if the student withdraws from all summer sessions. University withdrawals will affect satisfactory academic progress and course completion rates but will not count towards the student's 16-hour course withdrawal limit.

The University withdrawal process is initiated in the Advising Center, located in 214 Killian Annex. In the event of a University withdrawal, the student will receive a grade of "W" ("Withdrawn") for all courses in which the student was enrolled. The "Fees, Expenses and Financial Aid" section of this catalog provides information regarding the effects of University withdrawal upon tuition and fee payments and financial aid.

A student may not use this policy for courses in which penalty grades were assigned as a result of academic misconduct. In all cases, the withdrawal date is noted on the student's permanent record.

After the Withdrawal Deadline. There are three exceptions to the University withdrawal policy that will allow a student to withdraw from all courses. The exceptions are medical withdrawals, withdrawals for deployment or other military contingency and withdrawals for extenuating circumstances.

Medical Withdrawals
Withdrawal for Medical Reasons:
Western Carolina University is under no obligation to grant a medical withdrawal after the withdrawal deadline if a grade has been issued or if final examinations have been taken. W's entered on the permanent record as a result of a withdrawal from all classes for medical reasons will affect satisfactory academic progress and course completion rates but will not count toward student's 16-hour course withdrawal limit. A designated physician or her or his designee at Western Carolina University Student Health Services reviews all medical withdrawals and evaluates the medical documentation. Medical withdrawals are of two types:

Regular medical withdrawal (withdrawal for current semester):
- Requires medical documentation from a private physician, psychiatrist, psychologist, or therapist. If the student has not been seen at Western Carolina University Student Health Services or Western Carolina University Counseling and Psychological Services, appropriate medical records from an outside provider are required.
- Requires documentation from outside providers to a designated Western Carolina University physician or counselor. Documentation may be by mail, by fax, or hand-delivered, but it must be in writing. This documentation must specifically recommend withdrawal and must give a specific date of withdrawal.
- Will not be granted if any final examinations for the current semester have been taken.

Retroactive medical withdrawal (withdrawal for a previous semester):
- Requires medical documentation from a private physician, psychiatrist, psychologist, or therapist. If the student has not been seen at Western Carolina University Student Health Services or Western Carolina University Counseling and Psychological Services documentation for the previous term from a physician, psychologist, or counselor who treated the student is required.
- Requires documentation from outside providers to a designated Western Carolina University physician or counselor. Documentation may be by mail, by fax, or hand-delivered, but it must be in writing. This documentation must specifically recommend withdrawal and it must give a specific date.
- Students who attempt the final exam in a class will not be allowed to medically withdraw.
- Retroactive withdrawals must be completed by the end of the next regular semester (fall or spring).

Medical Withdrawal from One Course:
- A student may not typically withdraw from individual courses for medical reasons. This includes courses in which penalty grades were assigned as a result of academic misconduct. A request to withdraw from a course or to reduce your academic load is not a University medical withdrawal.
- Students who wish to withdraw from fewer than all of their current classes for medical reasons may appeal to the dean of the division in which the course/s is/are being offered. In these cases, the student must provide documentation to the dean regarding the medical problem treated at Western Carolina University Student Health Services or Counseling and Psychological Services. If treatment has not occurred at the Western Carolina University Student Health Center, documentation from the outside provider will be required.

Military Deployment or Other Withdrawals
Contingency: When a student is called to active military service during an academic term, he or she may choose one of the following two options:
- The student may request retroactive withdrawal to the beginning of the semester, with a full refund of tuition and fees.
- If at least 75 percent of the term has been completed, the student may request that the faculty member assign a grade for the course based on the work completed. The final decision about grading is left to the faculty member.
If the faculty member assigns a grade of "I," the student must complete course requirements within one semester or make alternative arrangements with the faculty member (see "Incompletes under Credits, Grades, and Quality Points").

If a student decides to enlist in the military, he/she will be subject to the regular withdrawal process.

**Extenuating Circumstance Withdrawals**

**Withdrawals from the University for Extenuating Circumstances:**

Students can petition the Office of the Provost to withdraw from the University for extenuating circumstances. Extenuating circumstances may include: death or serious illness within the immediate family, major life event in the family (e.g. loss of home, incarceration), financial hardship, pregnancy, and others as deemed appropriate by a member of the Office of the Provost. Withdrawal for extenuating circumstances will affect satisfactory academic progress and course completion rates but will not count towards the student's 16-hour withdrawal limit.

**Class Attendance Policy**

**I. General Attendance Policy:**

All students are expected to attend and participate in all meetings of the courses in which they are enrolled; any absence is incurred at the student's own risk.

Each instructor will establish the attendance requirements, make-up procedures, and guidelines for absences in each course and the effect that irregular attendance, lack of participation, and inadequate preparation will have upon a student's grade. Attendance requirements and their relationships to grades shall reflect the norms of the department and college and should not conflict with university policy herein. The instructor will distribute written attendance policies to students at the beginning of each term. An instructor may establish special and more demanding attendance requirements for students who are performing less than satisfactorily. Each student is responsible for complying with the announced procedures for making up missed work.

Students with more unexcused absences than the semester hours given for a course can expect the instructor to lower their final grade, especially in a 100-(freshman) or 200-(sophomore) level course. Missing approximately 10% of class meeting times (e.g. 4-5 MWF classes, 3 TR classes, or 1 laboratory or night class) or more constitutes a significant amount of class materials and experience and is very difficult, if not impossible, to make up. Class attendance may be required of undergraduate students as a condition of admission or readmission to the university or of eligibility to continue enrollment.

**II. University Excused Absences:**

In addition to a documented and bona fide medical emergency, the death of an immediate family member, or pre-arranged absence for religious observance, excused absences are granted for university events that include performances and events sanctioned by the Chancellor to promote the image of the university, regularly scheduled university team competitions (athletic and otherwise) including postseason play (practices and training sessions are excluded) and, in addition, student engagement sponsored by the institution and approved by the Provost (e.g. research presentations and performances at national conferences or events).

According to North Carolina General Statue 116-11(3a) a student may request absences for required religious observances required by faith. To obtain permission to be absent for religious reasons, a student must complete the Absent Due to Required Religious Observance Form, obtain all necessary signatures, submit it to each instructor for review and approval, and submit to the Senior Academic Vice Chancellor for Academic Affairs for final approval at least two weeks prior to the proposed absence. Students are encouraged to discuss these absences with the faculty member prior to the end of drop/add in case the absence will unavoidably keep the student from completing the requirements of the course. However, if the student completes the form and submits it to the instructor prior to the two-week time frame, he/she shall be given the opportunity to make up any tests or other work missed due to an excused absence for a required religious activity.

Individual class requirements such as field trips, field research or service learning activities are not considered institutional events. Faculty who schedule outside activities may request other faculty to excuse students from their classes so they may attend the outside event. However, individual faculty will determine whether the absence is excused or not. Should students be unable to attend the outside class event because of required attendance in other classes, they will not be penalized by the professor offering the outside activity.

An instructor is expected to honor a valid university excuse for an absence and to provide reasonable make-up work if the student notifies him or her of the approved absence at least one class period prior to the date of absence.
A student who misses class work because of a university excused absence is responsible for contacting the instructor within one class meeting after returning to make satisfactory arrangements that the instructor deems appropriate for a make-up. Excused absences should not lower a course grade if the student is maintaining satisfactory progress in the class and has followed the instructor's make-up procedures. Class experiences that are impossible to make up should be discussed during the first week of classes when there is sufficient time for a student to drop the course.

A student who anticipates missing a high number of classes (i.e. 10% or more of class time) for excused absences is required to discuss this issue with the instructor during the first week of classes to determine the possible solutions or consequences. Courses in professional programs with Accreditation or licensure requirements should not be taken in a semester where a student anticipates a high number of absences.

The trip or activity sponsor must obtain written permission to travel as soon as possible and give each student a copy of the approved request. Each student must give the request to the instructor as soon as possible but ideally at least one week prior to the day of the absence. The request should contain the name of the sponsor and group, the purpose, date(s), location of the event, and time and the names of the participating students.

The forms for University Sponsored Absence and Class Absence due to Required Religious Observance are found on the Registrar's webpage at http://www.wcu.edu/registrar/pdf/REQUEST%20FOR%20CLASS%20ABSENCE%20DUE%20TO%20REQUIRE
ED%20RELIGIOUS%20OBSERVANCE.pdf..

III. Drop for Non-Attendance:

An instructor will have the discretion to cancel a student's registration for a course if the previously registered student fails to attend the first class meeting and fails to notify the instructor prior to the end of the first day of class. Students may re-register for the course on a seats-available basis up through the end of drop/add (5th day of semester).

Although instructors may drop students for non-attendance, students should not assume that this will occur. Students are responsible for dropping a course, if that is their intent, to avoid a grade of W or F.

Student appeals resulting from emergencies or other extenuating circumstances will be considered on a case-by-case basis by the department head or in the appropriate dean's office. Re-registration will not be permitted for any reason after census day (10th day of semester).

IV. Religious-Holiday Observance Policy:

WCU allows two days of absence each academic year for religious observances required by faith. To obtain permission to be absent for religious reasons, a student must complete the Absent due to Required Religious Observance form, obtain all necessary signatures, submit it to each instructor for review and approval, and submit it to the Senior Associate Vice Chancellor for Academic Affairs for final approval at least two weeks prior to the proposed absence. Students are encouraged to discuss these absences with the faculty member prior to the end of the drop/add in case the absence will unavoidably keep the student from completing the requirements of the course. However, if the student completes the form and submits it to the instructor prior to the two week time frame, he/she shall be given the opportunity to make up any tests or other work missed due to an excused absence for a required religious observance.

Final Examination Schedules

An end-of-course evaluation of student work is required in every credit course. End-of-course evaluation may take the form of final exams, reports, projects, performances, portfolios, research papers, conferences, etc.

Many end-of-course evaluations are written final exams. In order to reduce conflicts and final evaluation overloads for both students and faculty, a final examination schedule is developed by the registrar for the entire university. All final exams are to be administered at their designated times and places during final exam week. Change in time of an examination for an entire class for any reason must be approved by the head of the department, by the dean of the college, the vice chancellor for academic affairs, and the Chancellor.

No student is required to take more than two final exams on any one day. Any student who has three final exams scheduled on one day has the option of taking all three or submitting to the professors a written request for rescheduling. However, a request to have an examination rescheduled must be made in writing at least five days before the examination is scheduled.

To reschedule, the following steps should be taken:
1. The student should request in writing a change in date from the instructors of the courses that present the conflict.
2. If the conflict is not resolved, the student should work with his/her academic adviser to have one of the exams rescheduled.
3. If the conflict still cannot be resolved, the student should work with the Office for Academic Affairs to have one of the exams rescheduled.

Other end-of-course evaluations, whatever form they take, must also be administered and completed during final exam week.

**Graduation and Certification**

**Application for Graduation.** Students must apply to graduate to have a degree conferred. The application for graduation can be found online in MyCat. Students should apply to graduate during the semester prior to the semester in which they will complete degree requirements. Students should pre-register for their final courses and review their degree audit to verify all requirements have been met before they apply to graduate. A graduation fee ($60) will be charged. Students who wait until their final semester to apply to graduate may be assessed a late fee.

Specific deadlines for filing degree applications are listed in the Academic Calendar.

**Certification and Licensure.** Completion of a bachelor's degree in teacher education, nursing, or health sciences qualifies a student to seek the appropriate certification or licensure. Information about the policies and procedures is available from the dean of the appropriate college. Procedures for teacher licensure are found in the College of Education and Allied Professions section of the catalog.

**Academic Integrity Policy**

This policy addresses academic integrity violations of undergraduate and graduate students. Graduate students should read inside the parenthesis below to identify the appropriate entities in charge of that step of the process.

Students, faculty, staff, and administrators of Western Carolina University (WCU) strive to achieve the highest standards of scholarship and integrity. Any violation of the Academic Integrity Policy is a serious offense because it threatens the quality of scholarship and undermines the integrity of the community. While academic in scope, any violation of this policy is by nature, a violation of the Code of Student Conduct and will follow the same conduct process (see Article VII.B.1.a.). If the charge occurs close to the end of an academic semester or term or in the event of the reasonable need of either party for additional time to gather information timelines may be extended at the discretion of the Department of Student Community Ethics (DSCE).

Violations of the Academic Integrity Policy include:

**Cheating** - Using or attempting to use unauthorized materials, information, or study aids in any academic exercise.

**Fabrication** - Creating and/or falsifying information or citation in any academic exercise.

**Plagiarism** - Representing the words or ideas of someone else as one's own in any academic exercise.

**Facilitation** - Helping or attempting to help someone to commit a violation of the Academic Integrity Policy in any academic exercise (e.g. allowing another to copy information during an examination)

The procedures for cases involving allegations of academic dishonesty are:

**Undergraduate (Graduate) Process**

Graduate students should read inside the parenthesis to identify the appropriate entities in charge of that step of the process.

1. Faculty members have the right to determine the appropriate sanction(s) for violations of the Academic Integrity Policy within their courses, up to and including a final grade of "F" in the course. Within five (5) days of the instructor's knowledge of the alleged violation of the Academic Integrity Policy, the instructor will inform his/her department head (Associate Dean of the Graduate School) in writing of the allegation and proposed sanction(s).

2. The Faculty member will meet with the student to inform him/her orally and in writing of the allegation and the sanction(s) imposed within ten (10) days of knowledge of the alleged violation. If the student is part of a distance learning program and does not have face-to-face interaction with the faculty member, the meeting may take place over the phone. Should either the student or faculty member feel uncomfortable about this meeting, either party may bring an advisor to this meeting. Prior to this meeting, the faculty member will contact the DSCE (227-7234) to establish if the student has any record of previous academic integrity violations. If a previous academic integrity violation exists, the matter must be referred directly to the DSCE.
3. If the case is a first offense, the student can choose to accept the allegation and proposed sanction(s) from the faculty member by signing a Mutual Resolution or can choose to have a hearing with the Academic Integrity Board (Graduate Academic Integrity Board). Prior to the meeting with the student, the faculty member will complete the Academic Integrity Violation Form (dsce.wcu.edu). Once complete, the faculty member will present it to the student, who must choose to either accept the proposal or go to a hearing. After the student has made a decision the faculty member is responsible for submitting copies to the student, the faculty member's department head, and the DSCE. The DSCE should also receive any supporting documentation such as the assignment in question, the course syllabus, etc. Mutual Resolutions are final and are not subject to further review or appeal. The DSCE will maintain these files and provide the faculty member and department head confirmation of receipt.

4. In instances of second offenses, or when the student chooses a hearing, the DSCE and student will schedule a hearing orientation meeting to discuss the hearing process and schedule a hearing. The date of the hearing will not be fewer than ten (10) days after receipt of written notice. The student can waive minimum notice of a hearing; however, extensions are at the sole discretion of the DSCE. Should the student choose not to attend his/her hearing orientation meeting, the DSCE will assign a hearing date.

5. Hearings shall be conducted by the Academic Integrity Board (Graduate Academic Integrity Board) according to the following guidelines:

   (a) Hearings shall be conducted in private.
   (b) Admission of any person to the hearing shall be at the discretion of the chair of the Academic Integrity Board (Graduate Academic Integrity Board) and/or the DSCE.
   (c) Charges against multiple students involved in the same incident may be heard in a single hearing only if the accused student(s), complainant(s), and the DSCE consent to such a proceeding.
   (d) The complainant (faculty member) and the accused each have the right to be assisted by any adviser they choose, at their own expense. The complainant and the accused are both responsible for presenting their own cases. Advisers are not permitted to speak or to participate directly in any hearing before the Academic Integrity Board (Graduate Academic Integrity Board).
   (e) The DSCE and the Academic Integrity Board (Graduate Academic Integrity Board) must assure that the accused student has the capability to present his/her information and defense at the hearing. The method for assuring this capability may vary depending on the nature of the case. Upon a determination of incapability, the DSCE must advise the accused to seek assistance or may assign an adviser to the accused.
   (f) Prior to the hearing, the complainant, and the accused have the right to review any written information that will be used at the hearing and to obtain a list of witnesses intended to be called.
   (g) Pertinent records, exhibits, and written statements may be accepted as information for consideration by a hearing body to the extent that the information is relevant, credible, not prejudicial to the fairness of the proceedings, and does not otherwise infringe upon the rights of other students.
   (h) All procedural questions are subject to the final decision of the chair of the Academic Integrity Board (Graduate Academic Integrity Board).
   (i) During the closed deliberations of the hearing, the Academic Integrity Board (Graduate Academic Integrity Board) shall determine by majority vote whether the student has violated each section of the code with which the student has been charged.
   (j) The Academic Integrity Board's (Graduate Academic Integrity Board's) determination shall be made on the basis of whether it is more likely than not (a preponderance of the information) that the accused student violated the code.
   (k) The following order of presentation is recommended for use in formal hearings. The order may be changed at the discretion of the chair of the Academic Integrity Board (Graduate Academic Integrity Board).

1. Presentation of formal charges.
2. Opening statements by the complainant and by the accused.
3. Presentation of information and witnesses, and cross-examination by the complainant and by the accused.
4. Closing statements by the complainant and then by the accused.
5. The Academic Integrity Board (Graduate Academic Integrity Board) will then go into closed deliberations. The accused student, complainant, and all witnesses,
unless released by the chair, are required to remain in close proximity to the
hearing, should the Academic Integrity Board (Graduate Academic Integrity
Board) need to recall.
6. When deliberations are complete, the accused student and complainant are
recalled and the chairperson verbally delivers the finding of the hearing body. If
the student is found not-responsible the hearing is then complete. If the student is
found responsible for the violation(s) the board will once again go into closed
deliberations to determine sanctioning.

7. There shall be a single verbatim record, such as a recording, of all hearings before the Academic
Integrity Board (Graduate Academic Integrity Board). The record shall be the property of the university.

8. In all cases, the information in support of the charges shall be presented and considered. Thus, if the
accused student chooses not to be present at his/her hearing, the hearing will continue in absentia. A
student's absence at his/her hearing is not a violation of the code; however it prevents that student's voice
from being heard.

9. During the closed deliberations of the hearing, the Academic Integrity Board (Graduate Academic
Integrity Board) shall deliberate to determine if the accused is responsible for violations of the code. If
responsibility for a violation is found, the hearing body will impose appropriate sanction(s) as outlined
in Article VIII of the Code of Student Conduct. After a finding of responsibility and before
determination of sanction(s), the hearing body may review the disciplinary history of the accused
student and/or victim-impact statements. If the hearing body determines that expulsion is an appropriate
sanction, that finding must be in the form of a recommendation to the Vice Chancellor for Student
Affairs, who makes the final administrative decision in all expulsion cases. Final administrative decision
must be reached within forty-five (45) days and transmitted in writing to the student within ten (10) days
of the decision.

10. In cases other than those which result in a recommendation of expulsion, the final administrative
decision must be transmitted to the student in writing within ten (10) days of the date the decision is
made, and it must contain a brief summary of the information upon which the decision is based and
appeal rights must be specified by the DSCE.

11. The Academic Integrity Board (Graduate Academic Integrity Board) will consist of two (2) students
from the DSCE Student Hearing Board (Graduate Student Representatives) and three (3) faculty
members (Graduate Faculty Representatives). The DSCE faculty fellow may be one of the faculty
members and may serve as the chair. The other two (2) faculty members will be chosen by the DSCE
from a pool of twelve (12) faculty hearing officers. Each academic year, each college dean will appoint
two (2) faculty members from his/her college to comprise the pool of twelve (12) faculty hearing
officers. In the event that there is no DSCE faculty fellow the third faculty member on any Academic
Integrity Board (Graduate Academic Integrity Board) will be chosen from the pool. The Academic
Integrity Board (Graduate Academic Integrity Board) may impose any sanction(s) as outlined in Article
VIII in the Code of Student Conduct. Students given a sanction of probation for a violation of the
Academic Integrity Policy will remain on probation at WCU until graduation. In the event the Academic
Integrity Board (Graduate Academic Integrity Board) assigns a sanction which requires review, the
faculty member bringing the charges and the chair of the Academic Integrity Board (Graduate Academic
Integrity Board) will determine if the sanction is satisfactory. These educational sanctions are
independent from course work and do not have any bearing on a student's evaluative grade.

12. Following a decision from the Academic Integrity Board (Graduate Academic Integrity Board), the
DSCE will inform the student of the outcome of the hearing in writing. If a student is found responsible,
the DSCE will inform him/her of the sanction(s) to be imposed and of his/her right to file an appeal with
the University College Academic Action Committee. If the student does not file an appeal within five (5)
days of the hearing, the sanction(s) from the hearing body will be imposed. The appeal is limited to the
following rules, procedures, and existing verbatim record.

13. Upon final resolution of a case involving suspension or expulsion, the DSCE will inform the
appropriate dean, department head (Graduate Program Director), and the administrator in the One Stop
Office who is responsible for University Withdrawals of the sanction(s).

Any violation of the Academic Integrity policy, including a first offense, may place the student in jeopardy of
suspension from the university. A repeated violation or more serious first offense may result in expulsion.
Disciplinary records for any act of academic dishonesty are retained by the DSCE for at least eight (8) years from
the date of final adjudication. These records are available to prospective employers and other educational
institutions in accordance with federal regulations. Students may inspect their conduct files in accordance with University Policy #72 - Student Records.

**Grounds for Appeal:**

An appeal shall be limited to review of the verbatim record of the initial hearing and supporting documents for one or more of the following purposes to be included in the letter of appeal:

- A violation of due process
- A material deviation from Substantive and Procedural standards adopted by the Board of Governors.

**Process for Appeal:**

- Based on the grounds listed above, any decision reached or sanction(s) imposed by the Academic Integrity Board (Graduate Academic Integrity Board) shall be afforded at least one level of appeal. In cases that do not result in University suspension/expulsion the decision made by the College Academic Action Committee is final and there will be no further appeals.
- Cases that result in a sanction(s) of university suspension/expulsion can be appealed to the College Academic Action Committee, and then to the Vice Chancellor of Student Affairs, and then to the Chancellor.
- Cases can be appealed by the accused student or the complainant.
- A formal notice of appeal shall be in writing and shall be delivered to the appellate body within five (5) calendar days of the decision.

**Timeline for Appeal:**

- A formal written appeal is due to the College Academic Action Committee within five (5) days of the hearing, or receipt of the hearing findings letter, whichever is first.
- Upon receipt of the appeal, the College Academic Action Committee must render a decision within five (5) days, and notice of the appellate decision must be communicated within ten (10) days of the decision.
- Should the student have the ability and wish to appeal that decision, a formal written appeal is due to the Vice Chancellor of Student Affairs within five (5) days of the receipt of the hearing findings letter.
- Should the student have the ability and wish to appeal that decision, a formal written appeal is due to the Chancellor within five (5) days of the receipt of the hearing findings letter.
- At all times the DSCE reserves the authority to make exceptions to timelines on a case-by-case basis (e.g. university closures, holidays, ends of semester, etc.)

**Outcomes for Appeal:**

- If an appellate body upholds the findings of the hearing body, the review of the case may result in reduced or adjusted sanctions, but may not increase the sanction(s) imposed by the original hearing body.
- Procedures for appeals are determined by the appellate body and shall be communicated to the appealing student in advance of the appeal.
- If the appeal is denied, the student must comply with the original sanction(s).
- Students are not expected to complete any assigned sanctions during this process until they have exhausted their appellate process and the case is completed.

**Note:** Resolution of academic honesty complaints will be handled according to the provisions of the Academic Honesty Policy. Records of academic dishonesty cases are maintained in the Office of Student Judicial Affairs. For specific information on procedures for cases involving allegations of academic dishonesty, see relevant sections in the Student Handbook.

**Family Educational Rights and Privacy Act**
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the registrar's office written requests that identify the record(s) they wish to inspect. The registrar's office will make arrangements for access and notify the student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading. Students who believe that their education records contain information that is inaccurate or misleading, or is otherwise in violation of their privacy or other rights, may discuss their problems informally with the university director of Equal Opportunity Programs. If the decision is in agreement with the students' requests, the appropriate records will be amended. If not, the students will be notified within a reasonable period of time that the records will not be amended, and they will be informed by the director of Equal Opportunity Programs of their right to a formal hearing.

3. The right to consent to disclosures of personally-identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the university has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

4. The right to file a complaint with the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202-4605 concerning alleged failures by Western Carolina University to comply with the requirements of FERPA.

5. Western Carolina University hereby designates the following categories of student information as public or "Directory Information." Such information may be disclosed by the institution for any purpose, at its discretion.

- Student name
- Local and home address
- Telephone numbers
- Classification
- Parent/guardian
- County
- Major field of study
- Photograph
- Dates of attendance
- Degrees
- Honors and awards received
- The most recent previous educational agency or institution attended by the student
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Electronic mail (E-mail) address.

Students may withhold directory information by notifying the One Stop Student Service Center in writing within five working days from the first day of classes for the fall term, or by the first day of classes for subsequent terms. Students are warned, however, prior to making a decision to withhold personally-identifiable data, that undesirable consequences frequently occur, such as names of students on the Deans' List are not published, names are not listed in commencement bulletins, and requests from prospective employers are denied. Forms are available at the One Stop Student Service Center and on the web at registrar.wcu.edu/forms.

Western Carolina University's complete FERPA policy may be obtained from the One Stop Student Service Center.

Students' Education Records at General Administration of the University of North Carolina: Annual Notification of Rights

Certain personally-identifiable information about students (education records) may be maintained at The University of North Carolina General Administration, which serves the Board of Governors of The University system. This student information may be the same as, or derivative of, information maintained by a constituent institution of The University, or it may be additional information. Whatever their origins, education records maintained at General Administration are subject to the federal Family Educational Rights and Privacy Act of 1974 (FERPA).
FERPA provides that a student may inspect his or her education records. If the student finds the records to be inaccurate, misleading, or otherwise in violation of the student's privacy rights, the student may request amendment to the record. FERPA also provides that a student's personally-identifiable information may not be released to someone else unless (1) the student has given a proper consent for disclosure or (2) provisions of FERPA or federal regulations issued pursuant to FERPA permit the information to be released without the student's consent.

A student may file with the U.S. Department of Education a complaint concerning failure of General Administration or an institution to comply with FERPA.

The policies of the University of North Carolina General Administration concerning FERPA may be inspected in the office at each constituent institution designated to maintain the FERPA policies of the institution. Student Health Insurance Requirement

In 2009, the UNC Board of Governors approved the implementation of a hard waiver student health insurance plans on all sixteen 4-year campuses beginning in the Fall of 2010. Students must show evidence of an existing creditable coverage health insurance policy or enroll in the UNC system-wide plan.

Additional information about student health insurance can be found on the university's website at studenthealthins.wcu.edu.

Academic Honors

The GPA for honors is computed only on work completed at Western Carolina University.

The Dean's List

To be on the Deans' List each semester, a student must have a GPA of 3.50 or higher on a regular semester's work of not less than twelve hours, excluding remedial courses, with no grade of D+, D, D-, F, or an I.

The Chancellor's List

To be on the Chancellor's List each semester, a student must have a GPA of 3.80 or higher on a regular semester's work of not less than twelve hours, excluding remedial courses, with no grade of D+, D, D-, F, or an I.

Graduation with Honors

To graduate summa cum laude, a student must have earned a minimum GPA of 3.90 on quality hours attempted at Western Carolina University for the degree; to graduate magna cum laude, a GPA of 3.70; and to graduate cum laude, a GPA of 3.50. In case of transfer hours from other institutions, a student must earn the appropriate GPA in all courses taken at Western Carolina University in order to graduate with honors.

To be designated University Scholars, students must have enrolled as freshmen and completed their entire undergraduate careers at Western Carolina University with a GPA of 4.00. Students who meet this requirement, except for courses taken with permission at other institutions as transients, are eligible for designation as University Scholars. Students who wish to be part of the Honors College Scholar Program should contact the Honors College at 828-227-7383.

To be awarded an honors degree, a student must have successfully completed the Honors Program. With the appropriate GPA, a student receiving an honors degree will also receive the designation cum laude, magna cum laude, or summa cum laude.

The names of students graduating with honors must be jointly passed upon by the Provost, Senior Vice Chancellor for Academic Affairs and the Registrar.

Academic Standing

Student Academic Standing is defined as either: Good Academic Standing, Academic Warning, Academic Suspension, or Academic Dismissal. Academic Standing considers both qualitative (GPA) and quantitative (percent completion) measures.

Good Academic Standing

Good Academic Standing and Satisfactory Academic Progress (SAP). All students are expected to earn and maintain a grade-point average (GPA) of at least 2.0 each semester and to successfully complete (earn) at least 67% of their attempted hours. Successful completion of a course means that a student must have credit pending
(i.e. incomplete) or must earn credit for the course with a grade other than F, U, NC or W. Students in Good Standing will receive a notification if their semester completion rate falls below 67%.

**Academic Warning**

**Academic Warning for Continuing Students** Continuing students are placed on academic warning if the student's cumulative Western Carolina University grade point average (GPA) falls below 2.0 or if the student fails to complete 67% of their attempted hours. Course completion rate is checked at the end of each semester and students who fail to complete 67% of their attempted hours in their two most recently completed terms of enrollment regardless of cumulative GPA will be placed on academic warning.

At the end of the term of academic warning, students must achieve the following to regain good academic standing:

- Earn a 67% completion rate on the hours attempted for the semester, and
- Raise the cumulative GPA to good standing (2.0), or
- Earn a 67% completion rate on the hours attempted for the semester, and
- Earn a minimum 2.30 term GPA during the warning term.

Failure to achieve one of the above academic criteria will result in academic suspension.

**Academic Warning for First-Semester Freshmen and New Transfers** See Academic Suspension below.

**Academic Suspension**

**Academic Suspension for Continuing Students** Students who are on Academic Warning and who fail to meet the criteria necessary for continued enrollment will be suspended. Students who earn all F grades or a combination of all F, U, or W grades will be suspended. All students have the right to appeal prior to the published appeals deadline. (See appeals below.) Students who are granted an appeal will be required to participate in an Academic Action Plan. Students who are suspended are not eligible to enroll at the University during the next regular (fall or spring) semester but may apply for readmission after they have served one semester of suspension.

When students return from suspension, they are placed on academic warning and must have an Academic Action Plan. Failure to meet the terms of the Academic Action Plan will result in Dismissal from the University (see Academic Dismissal below).

**Academic Suspension and Learning Contract Option for First-Semester Freshmen and New Transfers** First-semester freshmen and new transfers who earn a cumulative GPA within the range of 1.0 to 1.999 at the end of their first semester will be suspended unless they choose to participate in a Learning Contract. Students will receive information about the Learning Contract option with their notice of suspension and must respond by the contract's deadline to continue for a second semester. This option is not available to first-semester freshmen and new transfer students who earn a cumulative GPA below a 1.0.

**Learning Contract Program** Students who are given a Learning Contract option and who choose not to participate in the Learning Contract program are not eligible to continue enrollment in the University for one term. If readmitted after a lapse in enrollment, students are reminded that they will return to Western Carolina University under the general guidelines for academic warning.

The Learning Contract Program specifies that these students work closely with an academic advisor. The student and advisor will discuss academic performance issues, set realistic goals, and make plans to reach those goals, including linking students with the campus resources that can help them succeed. Follow-up contacts will occur throughout the semester.

When appropriate, students should use the University's grade replacement policy to improve their academic standing (excluding the First Year Seminar). Additionally, these students must successfully complete all the conditions of their Learning Contract Failure to meet these criteria will result in academic suspension.

**Option for Students Suspended at End of Spring Semester** Students who are suspended at the end of spring semester have two options to continue enrollment in the fall. 1) successfully appeal their suspension, or 2) enroll in summer courses under the terms of a summer contract (academic action plan). Students who elect to enter into a summer contract must successfully complete the terms of the contract to be eligible to continue in the fall. Contracts must be negotiated and signed ten days prior to the start of the regular summer session.

**Academic Dismissal**

Students who have served a semester of suspension and who, upon return fail to meet the terms of their Academic Action Plan, or who fail to meet the 2.00 cumulative GPA and 67% successful completion rate will be dismissed.
from the university. Students who are dismissed must sit out for two years before they will be eligible to reapply for future enrollment at Western Carolina University.

**Appeal Process for Academic Suspension and Academic Dismissal**

Appeals for reinstatement without having to serve a specified period of suspension are approved or denied by the Academic and Admission Appeals Board (referred to here as "Board"). The Board's decision is final and is based upon the student's letter of appeal, which should include the following:

- The reason for the student's poor academic performance,
- Documentation of extenuating circumstances, and
- A plan for rectifying the academic performance and raising the GPA to acceptable standards.

Requests for reinstatement must be submitted to the Advising Center by the deadline stated in the academic suspension notification letter, which also includes instructions for completing the request for reinstatement. A student whose appeal for reinstatement is approved will be designated as "Suspended/Reinstated" on his or her academic record and allowed to continue their enrollment under the Learning Contract program.

**Readmission after Suspension** Students who have been out the required amount of time may apply for readmission in the same manner as other former students. See the "Admission of Former Students" in this catalog.

**Academic Action Appeal Policy**

A student (undergraduate or graduate) has the right to appeal a final assigned grade or dismissal from a program level. A student may only appeal a final grade or program dismissal if he/she can show the grade or program dismissal was assigned *arbitrarily or im perceptibly*. A student who wishes to appeal a grade on a particular assignment or exam can do so if it affects their final assigned grade or dismissal from a program.

A final grade or program dismissal is deemed to have been assigned arbitrarily or impermissibly if, by a preponderance of the evidence, a student establishes that:

1. The final grade or dismissal was impermissible based in whole or in part upon the student's race, color, religion, national origin, age, sex, disability, sexual orientation, or for some other arbitrary or personal reason unrelated to the instructor's reasonable exercise of his or her professional academic judgment in the evaluation of the academic performance of the student; or
2. The final grade or program dismissal was assigned in a manner not consistent with the standards and procedures for evaluation established by the instructor, the program, or the University in the Catalog, in the course syllabus, or during the class/program in written or oral communications directed to the class/program as a whole; or
3. The final grade or program dismissal was the result of a clear and material mistake in calculating or recording grades or other evaluation.

4. Individual elements (e.g., assignments, tests, activities, projects) which contribute to a final grade are generally NOT subject to appeal or subsequent review during a final grade appeals procedure. However, individual elements may be appealed under these procedures providing all of the following conditions are met: a) The student presents compelling evidence that one or more individual elements were graded on arbitrary or impermissible grounds; b) Grounds can be established for determining a professionally sound grade for the appealed element(s); and c) The ensuing grade for each appealed element would have resulted in a different course grade than that assigned by the faculty member.

If dismissal from the Graduate School is a result of grades (3 C's or an F), the student may appeal the grade causing the dismissal. If the appeal is unsuccessful, the dismissal stands; the student cannot appeal the dismissal as well as the grade because dismissal is based upon the grades. If the appeal is successful, the dismissal will be rescinded.

If a student is appealing dismissal from a program, or a final assigned grade that results in dismissal, the student shall be allowed to continue taking courses until the appeal is resolved (with the approval of the program in which the classes are taken), with the exception of clinical placements or internships, or when the students' continued participation is deemed by the program director or department head to be harmful or disruptive to other students and/or the program.

If the appeal is unsuccessful and the dismissal stands, the student will be removed from any classes in which he or she is registered and will be responsible for any tuition and fees accrued as a result of registration during the appeals process.

**Academic Action Appeal Procedure Overview:**

Students who wish to appeal a final assigned grade or dismissal from an academic program for any reason other than academic dishonesty should follow, in order, the academic appeal procedure outlined below. (For these procedures, a "working day" = a day classes are held on campus)
Final Grade Appeal Procedures

The following procedures detail the steps for appealing a final assigned grade (whether or not that grade results in dismissal from the Graduate School). The student is encouraged to meet/talk with the instructor prior to filing a formal appeal.

The student must demonstrate that the grade was impermissibly or arbitrarily assigned (see Academic Action Policy). That the student simply disagrees with the assigned grade does not constitute a basis for a review.

(Step 1) Appeal to Instructor: Within 35 calendar days after the student receives notification of the academic action (grade) the student should submit a formal written appeal to the instructor. This appeal must include: a) a statement of the reason(s) why the student believes the grade was impermissibly or arbitrarily assigned (see policy Academic Action Appeal Policy) b) the resolution sought.

If the grade being appealed is leading to dismissal from the Graduate School, the Dean of the Graduate School should be copied on the student's initial appeal. All correspondence should include contact information.

The instructor must respond to the student's request in writing as soon as possible (no later than ten working days after receiving the student's written appeal). This response should detail whether or not the instructor is approving or denying the appeal.

(Step 2) Appeal to Department Head: If the student is unable to resolve the grievance through the appeal to the instructor, the student should submit a written appeal to the department head within 10 working days of receiving the instructor's written response (from Step 1). If the department head is the instructor for the grade assigned, the associate dean of the department's college will serve this function. Students appealing to the department head assume the burden of proof. Therefore, the appeal must include: a) a statement of the reason(s) the student believes the grade was impermissibly or arbitrarily assigned; b) the steps taken to resolve the disagreement over the assigned course grade; and c) the resolution sought.

The appeal must be accompanied by evidence the student believes supports the conclusion that the grade was impermissibly or arbitrarily assigned. Evidence might include papers, tests, syllabi, or written documentation.

Within ten working days of receiving this appeal, the department head will attempt to resolve the appeal. If the department head is unable to resolve the appeal within ten working days, the department head will notify the student of the decision, and the student has 10 days to appeal to the associate dean of the academic college.

(Step 3) Appeal to the Academic College (Associate Dean Review): If appealing to the academic college, the student should forward (to the associate dean of the academic college) his/her initial Appeal to the Instructor and response from the instructor (from Step 1), the subsequent Appeal to the Department Head, and the department head's written notification (from Step 2). Upon receipt of the appeal and aforementioned materials the associate dean may request further information from the student, the instructor, and/or the department head.

If the associate dean concludes that the facts alleged by the student do not constitute permissible grounds for appeal as set forth in this Academic Action Appeal Policy or Procedures, the associate dean may, in consultation with the Dean and Graduate Dean if applicable, dismiss the review. The student will not be allowed any further appeal.

If the associate dean determines that the facts alleged in the student's written appeals could, if true, constitute a violation of the Academic Action Appeal Policy or Procedures, the associate dean, within ten working days of receiving all information, shall refer the case to the College's Academic Action Committee.

(Step 4) Academic Action Committee Review: The College Academic Action Committee (CAAC) will consist of faculty members (who do not teach in the program from which the appeal originated) and students as designated by the academic college (graduate or undergraduate based upon appeal) appointed by the appropriate Academic Dean or Associate Dean. At least two of the faculty members shall be selected from "allied" disciplines or programs. The Associate Dean will serve as ex officio (non-voting) chair of this committee. The purpose of the CAAC is to determine whether the facts support the student's contention that the grade was impermissibly or arbitrarily assigned, or there was material procedural deviation, as defined in the policy. It is not the function of the Committee to re-evaluate the student's work to determine whether the CAAC agrees with the professional judgment of the faculty member who assigned the grade.
The CAAC Chair shall convene the Committee not later than ten working days from the request by the associate dean to examine the student's appeals to the instructor and department head. The CAAC will also take into consideration any written statements received by the associate dean from either the student or the instructor, and any additional relevant documentation. Additionally, the CAAC may request oral presentations from both parties. Other relevant parties may be questioned.

Neither the student nor the faculty member may be accompanied or represented in the hearing by legal counsel or other advisor. The CAAC may consider only such evidence as is offered by the parties and at the hearing(s) and need consider only the evidence offered that it considers fair and reliable. The burden of proof shall be on the student to satisfy the Committee that a preponderance of the evidence supports a conclusion that the grade was awarded arbitrarily or impermissibly as defined. All recommendations of the CAAC shall be made by a simple majority vote.

Within ten working days from the conclusion of its hearing(s) on the matter, the CAAC Chair will provide a written report to the academic dean and to the graduate dean (for graduate-level grade appeals). The Committee report must include the Committee's finding as to whether or not the grade assigned was awarded arbitrarily or impermissibly as defined in the policy. If such a determination is made, the CAAC shall recommend a course of action which could include recommending assignment of a specific grade to replace the one originally assigned or implementation of some process to re-evaluate the student's work.

(Step 5) Review by the Dean: Within ten working days after receiving the CAAC's report, recommendations and other documentation assembled in the review, the academic Dean will, in consultation with the faculty member and department head, determine a final course of action. She/He will then communicate the final action in writing to the student, faculty member, department head, and (for graduate-level grade appeals) the dean of the Graduate School.

Appeal to the Provost: An appeal to the Provost is only allowed if the student can establish a reasonable basis that the appeal procedures were not followed, discrimination of a protected class has occurred, and/or a student's exercise of rights guaranteed by the First Amendment has been violated. If the student feels one of these conditions applies, s/he must file a written appeal to the Provost explaining the situation that warrants this level of appeal. The Provost shall provide his/her written decision to the student within ten calendar days of receipt of the appeal. No appeal is available beyond the Provost.

Substitution Provisions: In the event that the faculty member whose grade is being reviewed is also a department head/school director, the associate dean shall do those things required by the head or director. In the event that the faculty member whose grade is being reviewed is also an associate dean, the academic dean or Provost can name an appropriate substitute to perform the functions of the associate dean as required by this policy.

Program Dismissal Appeal Procedures

The following procedures detail the steps for appealing a dismissal from a program for any reason other than final assigned grade(s), including failure to adhere to technical standards.

Dismissal from the Graduate School (and therefore dismissal from the program) based on insufficient grades may not be appealed. In this case, the affected student must appeal the final grade(s) resulting in the dismissal from the Graduate School. The student is encouraged to meet/talk with the program director prior to filing a formal appeal.

The student must demonstrate that dismissal was impermissibly or arbitrarily assigned (see Academic Action Policy). That the student simply disagrees with the dismissal does not constitute a basis for a review.

(Step 1) Appeal to Program Director: Within 35 calendar days after the student receives notification of the academic action (cause for program dismissal) the student should submit a formal written appeal to the instructor. This appeal must include: a) a statement of the reason(s) why the student believes the dismissal was impermissibly or arbitrarily assigned (see policy Academic Action Appeal Policy); b) the resolution sought.

When appealing a dismissal from a graduate program, the student must copy the Dean of the Graduate School on this initial appeal. All correspondence should include contact information.

The program director must respond to the student's request in writing as soon as possible (no later than ten working days after receiving the student's written appeal). This response should detail whether or not the program is approving or denying the appeal.

(Step 2) Appeal to Department Head: If the student is unable to resolve the grievance through the appeal to the program director, the student should submit a written appeal to the department head within 10 working days of receiving the program director's written response (from Step 1). If the department head is the instructor for the grade assigned, the associate dean of the department's college will serve this function. Students appealing to the department head assume the burden of proof. Therefore, the appeal must include: a) a statement of the reason(s) the student believes the dismissal was impermissibly or arbitrarily assigned; b) the steps taken to resolve the
disagreement over the dismissal; and c) the resolution sought. The appeal must be accompanied by evidence the
student believes supports the conclusion that the dismissal was impermissibly or arbitrarily assigned. Evidence
might include papers, tests, syllabi, or written documentation.

Within ten working days of receiving this appeal, the department head will attempt to resolve the appeal. If the
department head is unable to resolve the appeal within ten working days, the department head will notify the
student of the decision and copy the Dean of the Graduate School, and the student has 10 days to appeal to the
Associate Dean of the academic college.

(Step 3) Appeal to the Academic College (Associate Dean Review): If appealing to the academic college, the
student should forward (to the associate dean of the academic college) his/her initial Appeal to the Program
Director and the program director's response (from Step 1), the subsequent Appeal to the Department Head, and the
department head's written notification (from Step 2). Upon receipt of the appeal and these materials the associate
dean may request further information from the student, the program director, and/or the department head.

If the associate dean concludes that the facts alleged by the student do not constitute permissible grounds for appeal
as set forth in this Academic Action Appeal Policy or Procedures, the associate dean may, in consultation with the
academic Dean and Graduate Dean if applicable, dismiss the review. The student will not be allowed any further
appeal.

If the associate dean determines that the facts alleged in the student's written appeals could, if true, constitute a
violation of the Academic Action Appeal Policy or Procedures, the associate dean, within ten working days of
receiving all information, shall refer the case to the College's Academic Action Committee.

(Step 4) Academic Action Committee Review: The College Academic Action Committee (CAAC) will consist of
faculty members (who do not teach in the program from which the appeal originated) and students as designated by
the academic college (graduate or undergraduate based upon appeal) appointed by the appropriate academic Dean
or Associate Dean. At least two of the faculty members shall be selected from "allied" disciplines or programs. The
Associate Dean will serve as ex officio (non-voting) chair of this committee. The purpose of this Committee is to
determine whether the facts support the student's contention that the dismissal was impermissibly or arbitrarily
assigned, or there was a material procedural deviation, as defined in the policy. It is not the function of the CAAC
to re-evaluate the student's work to determine whether the Committee agrees with the professional judgment of the
program director or faculty member(s).

The CAAC Chair shall convene the Committee not later than ten working days from the request by the associate
dean to examine the student's appeals to the program director and department head. The committee will also take
into consideration any written statements received by the associate dean from either the student or the program
director, and any additional relevant documentation. Additionally, the Committee may request oral presentations
from both parties. Other relevant parties may be questioned.

Neither the student nor the program director may be accompanied or represented in the hearing by legal counsel or
other advisor. The CAAC may consider only such evidence as is offered by the parties and at the hearing(s) and
need consider only the evidence offered that it considers fair and reliable. The burden of proof shall be on the
student to satisfy the Committee that a preponderance of the evidence supports a conclusion that the dismissal was
awarded arbitrarily or impermissibly as defined. All recommendations of the CAAC shall be made by a simple
majority vote.

Within ten working days from the conclusion of its hearing(s) on the matter, the CAAC Chair will provide a
written report to the academic dean and to the graduate dean (for graduate-level grade appeals). The Committee
report must include the Committee's finding as to whether or not the dismissal assigned was awarded arbitrarily or
impermissibly as defined in the policy. If such a determination is made, the CAAC shall recommend a course of
action which could include recommending readmission or implementation of some process to re-evaluate the
student's actions/work that lead to the program dismissal.

(Step 5) Review by the Dean: Within ten working days after receiving the CAAC's report, recommendations, and
other documentation assembled in the review, the academic Dean will, in consultation with the program director
and department head, determine a final course of action. S/he will then communicate the final action in writing to
the student, faculty member, department head, and the dean of the Graduate School.

Appeal to the Provost: An appeal to the Provost is only allowed if the student can establish a reasonable basis that
the appeal procedures were not followed, discrimination of a protected class has occurred, and/or a student's
exercise of rights guaranteed by the First Amendment has been violated. If the student feels one of these conditions
applies, she/he must file a written appeal to the Provost explaining the situation that warrants this level of appeal.
The Provost shall provide his/her written decision to the student within ten calendar days of receipt of the
appeal. No right of appeal is available beyond the Provost.
Substitution Provisions: In the event that the faculty member whose grade is being reviewed is also a department head/school director, the associate dean shall do those things required by the head or director. In the event that the faculty member whose grade is being reviewed is also an associate dean, the academic dean or Provost can name an appropriate substitute to perform the functions of the associate dean as required by this policy.

Grade Replacement and Course Repeat Policy
Students may repeat a maximum of 16 credit hours. When a student repeats a course, only the most recent grade will be used in calculation of the student's grade point average and counted in the hours toward graduation. However, all grades shall remain on the student's transcript.

Exceptions:
1. The First Year Seminar may not be repeated.
2. Courses available for re-enrollment for additional credit are not counted as repeats unless the student declares a repeat or exceeds the number of times for which credit can be earned in the course.
3. Some academic programs may have policies that further regulate the number of repeats. Students should check with their advisor about additional regulations.

The 16 credit hour limit of the repeat/grade replacement policy may be appealed by the student in writing to the student's advisor, department head or program director, and Dean.

Note:
• Any courses elected for repeat must be taken and repeated at WCU. Grades earned elsewhere cannot be used to replace grades earned at WCU.
• Students may not repeat courses for which they have already earned credit without permission from their advisor. A permit is required to enable registration. If a faculty advisor approves the repeat permit, he/she can call or email the department head to have the permit processed so the student can enroll.
• All repeats, except for re-enrollment for additional credit courses, result in a mandatory grade replacement. (Regardless of the grade earned, the grade earned in the last course taken will replace the grade of the previous course.)
• After degree conferral grades may not be replaced or forgiven.

Note: Pursuant to actions of the North Carolina General Assembly and policy adopted by the Board of Governors of the University of North Carolina, a fifty percent tuition surcharge applies to students who take more than 140 semester hours and more than eight regular semesters (i.e., fall and spring) to complete a baccalaureate degree. The semester hours used to calculate the total of 140 hours include repeated, failed, and transferred credit courses.

Academic Re-evaluation Policy
To be eligible to elect an academic re-evaluation, a student must have a cumulative GPA below 2.0 and must have made a GPA of 2.30 or better on twelve or more hours of work for each of two successive semesters, one of which may be summer school. At least eighteen hours of the work taken in the two semesters must apply to liberal studies requirements or the requirements in the major, if these have not been met already. A written request for re-evaluation is required.

To be eligible to graduate after re-evaluation, a student must complete at least two semesters in residence. No course passed with a C- or less prior to these two semesters will count toward the 120, 122, or 128 hours required for a degree. Such courses may be used to waive liberal studies requirements but not to fulfill major requirements. The student's GPA for retention and graduation will be computed only on work taken during and after the two semesters on which re-evaluation is based. However, the number of hours previously passed with a grade of C (2.0) or higher will be counted as earned hours.

This policy does not alter the administration of the two-year rule policy.

Two-Year Rule Policy
An undergraduate with a GPA below 2.0 who has not attended the university for two or more calendar years and who is eligible for readmission is given the option of having the two-year rule applied or not applied.

If the two-year rule is applied, all courses completed before the interruption are treated as if they were transferred from another institution. No hours of credit will be allowed for courses in which C- or less grades were earned, although, at the discretion of the student's major department, they may be used to waive appropriate course requirements. The student's cumulative GPA will be based on courses attempted after readmission. The earned
hours will include all credits (1) transferred from other institutions, (2) completed with a grade of C (2.0) or higher before the two-year rule was applied, and (3) earned after the last two-year rule was applied.

If the two-year rule is not applied, the student will return with a cumulative GPA, credit hours, and grades as if the interruption had not occurred. The quality point deficit of some students may be of such a magnitude that the application for readmission from a student who has chosen not to apply the two-year rule may be rejected.

A student, having elected to have the two-year rule applied or not applied, may not reverse the option later. Applications for the two-year rule may be obtained from the Advising Center and submitted to that office prior to the initial term of re-enrollment.

**Transfer Credit and Placement Policy**

Evaluation of transfer, CLEP, and advanced placement credits are coordinated through the Office of the Registrar. The university will accept or transfer appropriate undergraduate credits earned through credit by examination, advanced placement, CLEP, correspondence courses, extension courses, armed forces service schools, and college-level courses completed prior to graduation from high school. With the approval of the appropriate academic departments, the amount of such credit which may be applied toward a degree is subject to limitation only by the university's general residence requirement and the prescribed courses in the major field of study; the degree program may not exceed 45 semester hours of CLEP credit. Credit toward a degree is not awarded for Continuing Education Units or for General Education Development tests (GED).

Transfer of Credit. An evaluation of credits offered in transfer is completed after admission and after all official records are received directly from each institution previously attended. The applicability of transferred credits toward degree requirements is determined by the registrar's office and the department head of the student's major. In some cases, due to Accreditation standards, validation of a course by successful completion of more advanced work in the same discipline or by examination may be required.

Only work passed with a grade of C (2.0) or better may be transferred. Courses with other grading systems that are equivalent to a C or better may be transferred. Except for consortium agreements, no credit will be allowed toward graduation or toward fulfillment of major requirements for a course passed with a C- or less at another institution. Credit will not be awarded for courses determined to be below the collegiate level at Western Carolina University nor from an institution not accredited by a nationally recognized regional accrediting agency. Undergraduate credit will not be awarded for graduate-level courses.

A Comprehensive Articulation Agreement (CAA) has been developed by the North Carolina Community College (NCCC) system and the University of North Carolina (UNC) General Administration providing for the transferability of a student's first two years of collegiate work to a senior UNC institution. This agreement provides that a student who enrolls at a NCCC institution fall 1997 or later, and completes his/her home institution's 44 semester hours of general education requirements with a grade of C or better in each course, is guaranteed that those hours will be applied toward a baccalaureate degree at any UNC institution. These 44 hours must be used to satisfy the receiving institution's liberal studies requirements. In addition, the CAA also guarantees that upon completion of the Associate of Arts or Associate of Science degree, 20-21 hours of pre major work with a grade of C or better will be transferred and applied toward the student's baccalaureate degree at a UNC institution provided that the student remains within his/her major.

Credit may be transferred from a technical program of a two-year institution and applied toward an appropriate bachelor's degree if the institution is regionally accredited. A minimum of twenty-five percent of semester hours applied toward a bachelor's degree must be earned through regular enrollment in Western Carolina University junior-senior level courses, including a minimum of twelve hours in junior-senior courses in the major field.

In addition to those credits accepted as equivalents of the university's freshman and sophomore courses, a maximum of thirty hours of credit may be allowed toward graduation for freshman and sophomore courses completed at other institutions which are normally offered above the sophomore level at Western Carolina University.

There is no time limit on the course work accepted for undergraduate transfer credit. However, students who plan to schedule courses with stated prerequisites should consider auditing the prerequisite courses if no work has been attempted in the field within the past five years.

Regularly enrolled students who desire to take any course at another institution on a transient basis for transfer to WCU must secure the appropriate department head's and the registrar's approval before enrollment at the other institution. Transient Permission Forms are available from the One Stop Student Service Center and the departments. Students must be in good standing and eligible to re-enroll at Western Carolina University to secure transient permission. Course work taken at an institution which has a consortium agreement with Western Carolina University will be given credit on the same basis as course work taken at WCU.
Grades made in transferred courses are not considered in computing the GPA at Western Carolina University, but transferred hours are added to earned hours and will affect the student's overall academic standing. A student may not expect to have the repeat course policy applied on the basis of courses completed at other institutions. Currently enrolled and former students (those not enrolled for one or more of the immediately preceding semesters, excluding summer terms) who attempt courses at other institutions must earn a cumulative 2.0 GPA and submit official transcripts of all work attempted to the Office of Admissions in order to be eligible to return to Western Carolina University.

Transfer Students with Two or More Years Away From Their Previous Academic Institution

Transfer Students. Applicants must have official transcripts with statements of honorable dismissal by all institutions formally attended. The applicant must meet freshman admission requirements and submit an official high school transcript with SAT or ACT test results. Transfer applications should be submitted by July 1 for all fall admissions and at least thirty days prior to the beginning of spring semester.

Generally, transfer students must have earned a minimum GPA of 2.0 (C average) on all work attempted. Applicants who are ineligible to return to the last institution attended for any reason may be ineligible for admission to Western Carolina University. However, transfer students who have not attended any institution for a period of two or more years prior to the intended semester of enrollment will be considered for admission subject to review of specific circumstances by the director of admissions.

The academic records of transfer students will be evaluated by the Office of the Registrar and the department head/program director of the student's major. University policies on transfer of undergraduate credit are explained in the section of this catalog on academic regulations.

Placement in First-Year Composition. Students with Advanced Placement credit or high school credit for English 101 and/or English 202 will be given credit for these courses. All other students will be placed in English 101. Members of the Honors College may be placed in English 101-H, and enrollment in these honors sections will be reserved for members of the Honors College. Students placed in English 101 or 101-H must complete the six-hour First-Year Composition sequence of English 101 or 101-H, followed by English 202 or 202-H.

Mathematics Placement Policy. A mathematics skills assessment is administered to students who wish to take Math 140 (Introductory Calculus), Math 145 (Trigonometry), Math 146 (Algebra and Analytic Geometry), or Math 153 (Calculus I) without first completing the prerequisite course(s). Students planning to major in mathematics, computer science, chemistry, biology, electronics engineering technology, industrial technology, and manufacturing engineering technology should plan to take this skills assessment. Students who have a strong mathematics background and would like to take the highest level course for which they are qualified should take the skills assessment. The skills assessment will be administered to entering freshmen in the fall when classes begin and to continuing students during early registration when they plan to register for one of the courses listed above in the next semester. Transfer students may take the skills assessment by arrangement with the director of mathematics placement. The assessment does not generate course credit for course requirements that are waived as a result of placement. A scientific or graphics calculator is recommended for taking the assessment. Transfer credit for college-equivalent courses can be used to meet prerequisites. Any student may take the liberal studies math course, Math 101 (Mathematical Concepts). There is no placement requirement for this course, but it does not satisfy the prerequisites for college algebra or any other algebra-based course.

Advanced Placement. Students may become eligible to enter intermediate or advanced courses in a field, bypassing one or more lower-level courses, if they qualify on the basis of their performance on advanced placement tests.

Placement in Modern Foreign Languages. Students will be placed at the appropriate level in a language based on the number of years of high school and/or college-level language study. Any student placed in the second or higher course in French, German, or Spanish who passes that course with a grade of C (2.0) or better will receive three or six hours of credit for the courses bypassed. This may include the liberal studies course 101. Additional information can be obtained from the department or from the Advising Center.

Chemistry. Freshmen with above-average ability in chemistry are encouraged to take a chemistry placement examination. Satisfactory performance allows a student credit in either CHEM 132 or 140. Additional tests may be taken for a maximum of eight hours of credit.

Advanced Placement Program. Students who earn a grade of three or above on the College Board advanced placement courses are eligible to receive credit based upon the evaluations of the appropriate department heads. Currently, credit may be earned in American and European history, art history, biology, calculus, chemistry, computer science, economics, English, environmental science, French language and literature, German language, Latin, music, Physics, political science, psychology, and Spanish language and literature and statistics.
Assessment Program. As part of Western Carolina University's continuing effort to maintain the quality of academic programs and university services, the university conducts student learning outcomes assessment. Measuring student intellectual growth, attitudes, perceptions, and skills provides the university with essential information in evaluating its effectiveness. Students are required to participate in these assessments throughout their enrollment at the university. The assessment information is not part of the student's official record, and individual scores may be reported only to the student. Other uses of assessment data include reporting data only in aggregate form to the university community and required external sources.

Noncredit Courses. Credit earned in MATH 100 will not count toward the 120-128 hours required for graduation.

Credit by Examination
A student may apply to be examined in any course identified by a department head as available for credit by examination. The student must present an approved permission form after the examination has been completed. Students making an A (4.0) or B (3.0) will receive credit. Those making C (2.0) do not receive credit, but are eligible for a waiver of a course requirement. With a D or F, credit may be earned only by regular enrollment during a subsequent semester. The GPA will not be affected by the grade made on the examination. All credit by examination attempts must be completed prior to the semester of graduation.

The examination procedure may be attempted only once for any one course. Students who have completed more than two collegiate courses in the field of study concerned may earn credit by examination only after securing written approval of the head of the department in which the course is offered. However, they may take the examination and secure a waiver of a curricular requirement by scoring a C (2.0) or higher.

The fee for scheduling a course on a credit by examination basis is $15. No fee will be assessed if the examination is being used to validate transfer credits or when the student is enrolled full-time during a fall or spring semester.

The College Level Examination Program. The university cooperates with the College Board in this program, through which credit may be awarded for the CLEP subject examinations that have been approved by the academic departments as appropriate measures of academic achievement in their courses. Elective credit may be granted for examinations covering material which is not the substantial equivalent of any specific Western Carolina University course. These elective credits may be applied toward graduation requirements if the student fulfills certain liberal studies requirements or complies with other conditions prescribed by the appropriate deans and department heads. The subject examinations also may be used to validate credits earned at unaccredited institutions and to earn credit for courses failed at the university or other institutions. A current list of approved examinations and the credit that may be awarded is available via the Registrar's Office website (registrar.wcu.edu).

The American Council on Education has endorsed a uniform credit granting score of 50 for all 34 exams. Percentile scores are no longer used as a basis for granting credit. Departments also may require demonstration of achievement by satisfactory completion of an essay or by provision of other evidence of the competencies to be mastered in a course or course sequence. The general examinations of CLEP are not accepted for credit. Subject examinations that are repeated within less than one year from the date of previous testing will not be considered for credit.

Credits earned through CLEP will be posted on the transcript, but no grades are recorded. The student's GPA will not be affected. Duplicate credit is not awarded in any case. CLEP credits earned at other institutions will be evaluated in the same manner as the equivalent courses at those institutions. The same policies and procedures used in evaluating the applicability of other advanced-standing and transfer credits toward a degree will be applied.

Credit for Experiential Learning
Western Carolina University endorses the concept of undergraduate credit for experiential learning in recognition of valid learning experiences. Departments awarding credit for experiential learning do so on the basis of detailed departmental guidelines and procedures as approved by the Council on Instruction and Curriculum. However, credit is awarded by a department only for those competencies which are related to areas of instruction in that department and which are applicable to the degree program being completed. Credit is not extended automatically or in blanket fashion.

To receive credit for experiential learning, a student must submit a request to the appropriate department head. A faculty committee named by the department head will review the request. If the request seems appropriate, the student will be provided with guidelines for preparing a portfolio which the committee will review to determine the conditions and amount of credit to be awarded.

Credit for all or part of a course(s) may be awarded. If partial credit is awarded, the student will pay the full cost of the course, but will be required to attend only those classes and do additional work as designated. There is no charge for courses for which full credit is awarded. Committee actions, when endorsed by the department head and
dean, must be reported to the registrar. The credit awarded is not applicable to the university's residency requirement.

**Credit for Military Personnel and Veterans of Military Service**

To the greatest extent possible, the university will grant credit for military service schools and occupational experience that have been evaluated by the Office of Military Programs of the American Council on Education (ACE) and for which ACE has recommended the granting of college credit. Students will not be awarded credit for formal schools or occupational experience that carry only one hour of recommended credit. Applicants to, or current students in, the university who have served in the military in any capacity (active duty, National Guard, or Reserve) should have official military ACE transcripts sent from one or more of the sources listed below to the Office of Undergraduate Admissions or to the Graduate School.

The Army, Coast Guard, Marine Corps and Navy issue a joint services transcript (JST). Information on the JST can be found at: https://jst.doded.mil/smart/welcome.do.

The Community College of the Air Force (Air University) is a regionally accredited institution. Information about Community College of the Air Force transcripts can be found at: http://www.au.af.mil/au/barnes/ccaf/index.asp.

In addition, university policy states that students who have served on the active duty for at least one continuous year are eligible to be granted seven (7) hours of general electives credit. In order to receive this credit, the student must have received an honorable discharge for the year of continual active service. Proof of eligibility for this credit will be the student's DD Form 214 (Certificate of Release or Discharge from Active Duty) or similar official document.

**Academic Services**

**Academic Advising Center**

The Advising Center works with all newly admitted students in academic advisement, course scheduling, and selection of a major. Upon the declaration of a major, students are advised in their academic department; however, their academic adviser in the Advising Center will continue to work with them in areas of university policy and personal advisement. Additionally, the Advising Center offers career planning as well as programs for students in academic difficulty.

**Academic Success Centers**

The academic success centers at the university consist of the University Writing Center, the Mathematics Tutoring Center, the Student Technology Assistance Center, and the Catamount Academic Tutoring (CAT) Center. Services are available during fall, spring, and summer semesters and are offered to students without charge.

**University Writing Center**

Graduate assistants collaborate with students of all class levels and majors on their writing assignments, including but not limited to annotated bibliographies, abstracts, essays, critiques, research papers, creative writing projects, political science portfolio writing samples, and business management portfolios. Always beginning with writers' ideas, graduate tutors help writers with brainstorming, prewriting, drafting, and revising. By offering writers workable strategies, tutors move clients toward increased competence and confidence. In addition to one-on-one collaborative help, the center offers numerous handouts, called mini-courses, tailored to specific academic writing needs. Visit the Web site at www.wcu.edu/writingcenter for hours, writing resources, distance education resources, staff information, and helpful links. To make an appointment, call 828-227-7197. Visit the center in Hunter 161.

**Mathematics Tutoring Center**

The Mathematics Tutoring Center provides tutoring in all lower-division mathematics courses and computer science classes, and can assist with mathematical content in courses outside the Mathematics and Computer Science Department. Student peer tutors and graduate assistants are available on a drop-in basis to provide assistance with homework, review concepts, help with math study skills and exam preparation, and answer questions about math courses. Individual, regularly scheduled tutoring appointments can be arranged. The Center offers workshops on strategies for success in the study of mathematics, use of graphing calculators, and has a library of supplementary textbooks for student use. Visit the center web site at http://www.wcu.edu/mathlab/ or call 828-227-2300 for information.

**Student Technology Assistance Center**
The Student Technology Assistance Center offers assistance to students based on their individual needs. Students needing help with word processing, spread sheets, databases, electronic presentations, campus network tools (such as WIN, MyCat, VAX/VMS, etc.), or the Internet (such as web browsers, web page design assistance, newsgroups, e-mail, chat, etc.), can stop by or call for an appointment. Although appointments are not required, they can be beneficial for the student by ensuring one-on-one appointment time. Check the Web site at http://www.wcu.edu/techassist/ for more information and for dates and times of workshops.

Catamount Academic Tutoring Center

The Catamount Academic Tutoring Center is designed to ensure the academic success of all Western Carolina University students by offering free peer tutoring, workshops, and other resources to improve learning. Trained peer tutors facilitate small-group sessions for most 100 and 200-level classes. Tutors offer strategies for effective study and efficient time management, and they facilitate collaborative groups in which each student is involved with actively exploring and learning the material. Visit the CAT Center website (http://www.wcu.edu/catcenter) or call 828-227-2274 to schedule a tutoring session or to learn more about workshop offerings in areas such as Time Management, Note Taking, Goal Setting, and Exam Preparation.

New Student Orientation

To make the transition to college life easier, Western offers orientation programs for new students and their families. Students attending orientation have a chance to meet other new students, talk to their professional academic adviser, and register for their classes. Orientation is the time for students and family members to become familiar with the academic demands of the university, to meet the faculty, and to learn more about the concerns that accompany campus life. For more information, call 828-227-7087.

The Office of Teaching Fellows

The Office of Teaching Fellows in the College of Education and Allied Professions assists in organizing special events in the college (e.g., student recruitment activities, scholarship awards) and coordinates the North Carolina Teaching Fellows Program for the university.

Testing Services

The Testing Center

The Testing Center oversees administrations of the Graduate Record Examination (subject tests only), the Praxis Series, Scholastic Aptitude Test, ACT, Law School Admission Test, and the National Counselor Examination. Visit the website at http://testing.wcu.edu for registration and exam-preparation information.

For information about the Miller Analogies Test, College Level Examination Program (CLEP), Institutional SAT, or the verbal portion of the SAT (for pre-nursing students), call 227-3264.

**General University Degree Requirements**

To be awarded a bachelor's degree, the student must meet the following general requirements:

1. Completion of a minimum of 120 semester hours to a maximum of 128 semester hours under requirements outlined for one of the degree programs.

2. A minimum GPA of 2.0 on all work attempted at Western Carolina University and on all courses in the major. **

3. A minimum of 25 percent of semester hours applied toward a bachelor's degree must be earned through regular enrollment in Western Carolina University junior-senior level courses, including a minimum of twelve hours in junior-senior courses in the major field.

4. Fifty percent or more of the credits in the major presented for graduation on the junior-senior level unless the degree program being completed by the student is specifically exempted from the requirement.

5. Be enrolled at Western the intended graduation semester or complete the form *Intend to Complete Degree Requirements at Another Institution* (http://www.wcu.edu/Grad_Other_Inst.PDF)

6. To participate in a commencement ceremony, a student must be eligible for degree completion at the conclusion of that semester.

7. *: See graduate catalog for graduate degree requirements.

In addition to the minimum number of hours specified, all bachelor's degree programs require the completion of: (1) the liberal studies program; (2) a major as prescribed by each of the departments; and (3) elective courses. Unless specifically provided for in the catalog description, credit for any course may be applied only once toward the required hours for graduation.
College/Department Degree Requirements

**Majors.** A major consists of a group of prescribed and elective courses (totaling at least 27 hours) providing breadth and depth in an academic discipline, in two or more closely related disciplines, or in an interdisciplinary field of study. The requirements for a major in one discipline may include supporting courses selected from other disciplines.

In degree programs that include a major of 27-45 hours, a minor, second major, or other approved program also is required.

In degree programs that do not require a minor or second major, 46-64 hours are required in a major, including any concentrations, emphases, or specialization options that may be a part of the major.

**Concentrations.** A concentration is a student option within a major that consists of a group of prescribed courses designed to provide preparation in a specific professional specialty within the major discipline. Ordinarily, degree programs in which the major includes a concentration do not require a minor or second major. Concentrations are required in some majors and cannot exceed 26 hours.

**Minors.** A minor consists of a group of prescribed and elective courses in an academic discipline, two or more closely related disciplines, an interdisciplinary field of study, or a specially designed individual program. It differs from a major principally in requiring fewer courses (16-24 semester hours) and providing less depth.

A student may not major and minor in the same field.

**Second Academic Concentration.** A second academic concentration is an eighteen hour course of study in an academic discipline required of education students enrolled in a B.S.Ed. program in elementary, middle grades, or physical education. The concentration areas available are the following: anthropology, art, biology, Cherokee, communication training and development, English, health promotion and wellness, history, mathematics, natural science, philosophy, political science, psychology, social sciences, sociology, Spanish, and theatre.

**Second Majors.** A second major, often called a double major, is completed at the student's option by taking the course requirements specified in the major component of the applicable degree program. The hours earned in completing a second major apply to the minimum 120-128 hours required for any bachelor's degree and do not lead to the award of a second degree. Students interested in earning a second bachelor's degree must meet the additional requirements stated below for second degrees.

**General Electives.** Unless a program has been specifically exempted, each degree plan includes a minimum of twelve hours of general (free) electives. These electives are exclusive of (1) hours earned in meeting the requirements of the other components of a degree program, (2) any remedial or developmental work a student may take, and (3) elective hours that may become available to a student through application of the liberal studies waiver policy.

**Waivers and Substitutions.** Waivers and substitutions of courses, other degree requirements, and academic regulations may be made only with adequate cause. Exemption from, or substitutions in, requirements established by an academic department must be approved by the department head. Liberal studies requirements may be waived or altered only with the approval of the Director of Undergraduate Advising (or designee) or the associate vice chancellor for academic affairs for liberal studies. College wide requirements may be waived or altered only with the approval of the dean of the college. Waivers of, and substitutions in, university-wide regulations and requirements must be approved by the Office for Academic Affairs. All requests must be submitted to the registrar on the Waiver and Substitutions Form.

**Academic Advisers.** Students enter the university undeclared and are advised by a professional adviser. Upon declaring a major, students are advised by a faculty adviser in their major department.

**Students Undecided about a Major.** Through the Academic Advising Center, the university provides a specific program of academic advising to assist the undecided student in course selections and career decisions. When an undeclared student does select a major, the declaration or change of major/adviser procedures should be observed.

**Policy on Declaring a Major.** Freshmen students are encouraged to declare a major at any time, but must declare a major prior to completion of forty-five (45) credit hours. Transfer students with forty-five (45) or more credit hours must declare a major prior to registration for their second semester. To encourage students to comply with the stated policy, a "hold" will be placed on registration until the student officially declares a major.

**Declaration or Change of Major/Adviser Procedure.** A student who decides to declare or change a major must complete the declaration process in order to be assigned a new adviser in the appropriate department and to change the official records of the university. The student secures the declaration form from the present adviser or department head and completes the procedure by following the instructions on the form. The new program of study should appear on the next transcript that is issued after the completed form has been submitted to the registrar.
Curricular Check Sheets. Departments maintain a supply of curricular check sheets on each of their degree programs. Students should secure copies of the sheets for their programs to use as a supplementary aid in complying with catalog requirements. However, in the event of a conflict between requirements as listed on a check sheet and as stated in the catalog, catalog requirements shall prevail.

Second Bachelor's Degree. Students already graduated from accredited four-year institutions who are admitted to work toward another bachelor's degree must meet the university's regular graduation requirements. The student must meet the requirements in liberal studies and in the major as specified by the department head and dean. A student may obtain from the university a second bachelor's degree provided the degree is in a different major (students may not earn a second degree in the same major).

Students enrolled at the university who wish to work toward two bachelor's degrees simultaneously may do so. Students must meet the university's regular graduation requirements for each degree.

In addition to the curricula offered by a department or jointly by two departments, the university provides a number of special-purpose programs in which students may participate either as a part of the regular degree programs of their choice or as alternatives to them. These opportunities include the following programs:

An Approved Program
An approved program is a selection of courses designed to take the place of a minor or second major in cases where a student has a secondary interest in an area not covered by a recognized second major or minor. The program must consist of 16-24 credit hours of courses, developed in consultation with the major adviser and appropriate faculty adviser(s) in the relevant department(s). The approved program must be approved by the department head of the major department, the head of the approved program department, and the dean(s) of all involved college(s), upon consultation with the head of the department(s) which offer(s) the courses in the approved program.

Special Studies Programs
A Special Studies Program is an interdisciplinary program to take the place of a recognized major program in cases in which a student wishes to earn a degree in a specialized area not covered by recognized majors, or an area that intersects two or more recognized majors and cannot be accommodated by a combination of a recognized major and minor, second major, or approved program.

A Special Studies Program is developed by the student in consultation with an academic adviser (referred to as the Special Studies Primary Advisor) in one of the primary departments and in consultation with advisors/faculty from all involved departments. The college to which the Primary Advisor belongs is designated as the college for which the College Curriculum Committee approves the plan of study.

The program should include completion of the liberal studies program, and any other applicable college and university requirements. It should include a distribution of courses to complete the Special Studies program, in place of a recognized major, plus a minor, second major, or approved program (as needed). It should include a plan for some kind of senior project, capstone course, or final assessment component.

The Special Studies Program will be approved by the primary's department's college curriculum committee and dean, with consultations attached from all departments involved in the program of study. The consultations/reviews should pay particular attention to the assessment component(s) of the proposed program and will approve or disapprove the special studies program. Once approved at the college level the plan is forwarded to the Office of the Provost for processing.

The Special Studies Proposal form can be obtained from the Office of the Provost.

Study Abroad
Undergraduate students can apply their financial aid to study in 37 countries worldwide through the following programs offered by the Office of International Programs and Services: the University of North Carolina Exchange Program (UNC-EP), the International Student Exchange Program (ISEP), and several Western Carolina University exchanges. Students with a 2.75 GPA and higher can study internationally for a semester or a year by paying the Western Carolina University rate for tuition and fees and comparable room and board charges. Students pay tuition and fees to WCU and comparable room and board charges to the host institution. Financial aid assists students with study abroad costs and scholarships are available through external grant agencies. Some summer programs include intensive language courses and internships are available through many of our overseas partners and financial aid, grants, and scholarships are available. For more information call (828) 227-7494.

For summer abroad programs sponsored by Western Carolina University faculty contact the Division of Educational Outreach at (828) 227-7397.

Cooperative Transfer Agreements with Community Colleges
Western Carolina University participates in the general transfer agreements developed by the University of North Carolina General Administration in cooperation with the North Carolina community colleges. The university is developing additional agreements and transfer guides with individual community colleges in all academic areas. For additional information, contact the transfer coordinator in the Western Carolina University admissions office or a local community college.

**Cooperative Program in Agriculture and Life Sciences**

Students who complete a two-year prescribed course of study at Western Carolina University have the opportunity to transfer to North Carolina State University in one of the following bachelor's degree programs in the School of Agriculture and Life Sciences.

Agricultural economics, agricultural business management, agronomy, animal science, biological and agricultural engineering, biochemistry, biological sciences, botany, conservation, fisheries and wildlife sciences, food science, horticultural science, medical technology, pest management, poultry science, applied sociology, zoology, and selected pre-professional programs. For further information, contact the department head in the geosciences and natural resources management department.

**Cooperative Program in Forestry**

By agreement between Western Carolina University and the School of Forest Resources at North Carolina State University, a student interested in the field of forest resources may take the first two years of the program at Western Carolina University and the remainder at North Carolina State University. For further information, contact the department head in the geosciences and natural resources management department.

During the freshman year, students should select one of four specialty areas of the program: (1) forestry; (2) wood science and technology; (3) pulp and paper science and technology; (4) recreation resources administration. The courses to be pursued for each area are available from the department head in the geosciences and natural resources management department.

Students with acceptable scholastic records in the first two years of the program may earn the professional degree in two additional years. Before transferring, students should check their credits with the requirements of North Carolina State University to determine the advisability of completing additional courses in summer school at one of the two institutions. A GPA of 2.5 is required for transfer.

**Experiential Programs**

Western Carolina University endorses the concept of education as a multidimensional process of learning that incorporates study and practice. To that end, its curricula are designed to provide for acquisition of knowledge and understanding of theory combined with opportunities for experience in practical applications in real settings. Many of the degree programs include required work in professional situations specific to the positions and career areas for which the students are preparing. At the student's option, a variety of other work opportunities deriving from and related to academic study are available. To further its commitment to the preparation of well-qualified graduates, the university provides various types of support to departmentally developed experiential activities. It also operates university-wide programs that make work opportunities directly related to their fields of study available to all students.

Western Carolina University has the following guidelines for enrolling students in external instruction courses/programs. External instruction programs are defined as instruction received at a site(s) to which the student is sent by the enrolling institution to participate in instructional activities. Encompassed in the scope of external instruction are programs referred to as cooperative education, practical training, independent study, and open-circuit televised instruction.

1. All courses are bona fide: approved by all required college, university, state, regional, and national regulatory agencies. Courses are also approved to meet all certification and licensing requirements.
2. All courses are an integral part of the student's program; credit will apply toward graduation and/or will be required for a particular degree program.
3. All courses are appropriately rigorous with credit assigned proportionate to the amount of instructor involvement and control (course credit is determined by university and state requirements).
4. The university/college has an agreement on file with specific work sites assuring that the experiences will provide opportunities for application of the knowledge, skills, and competencies gained from on-campus academic programs.
5. All courses have regularly-employed faculty members responsible for all students participating in external instruction courses.

**Cooperative Education Program.** Cooperative education is a program in which students combine academic study
with career-related work experience while pursuing a degree. Designed to be an integral part of the educational experience, the program offers experiential learning in both full-time and part-time positions in virtually all majors. Participants are primarily undergraduates, but some graduate programs offer co-op to their students. Information about eligibility for the program, work opportunities, and requirements for credit is available from the Career Services/Cooperative Education Office, Room 237, Killian Annex.

**Internships and Practicums.** A broad range of full-time and part-time learning opportunities are provided through internships, practica, field courses, and clinical affiliations for periods of one or more terms. The courses allow students to gain experience in the actual practice of a profession and to develop mastery of the tasks, skills, and theory applications in career fields pertinent to their majors. The experiences gained are well integrated into the curricula and are frequently included in the requirements for a degree.

**Independent Study.** Independent study courses are offered by several departments at Western Carolina University. The content and criteria for each course is determined by each academic department. Credit for these courses range from one to six semester hour’s credit as determined by the department. Students must be juniors or seniors in order to take an independent study course.

**UPPER-LEVEL PERSPECTIVES 300-400 COURSES**

*One course required in any perspective category outside the discipline of the major. Students should not enroll in courses numbered above their class rank without permission of the department offering the course.*

**NOTE:**

Courses used to meet Liberal Studies requirements may be used simultaneously to meet other requirements, including requirements in the major. Be reminded the Upper Level Perspective (ULP) requirement must be met by an approved ULP Liberal Studies course and be outside the discipline of the student's major.

**Rationale for Liberal Studies**

At Western Carolina University, all bachelor's degree programs include courses in Liberal Studies designed to provide each student with the knowledge, skills, and attitudes of an educated person. These include the ability to think critically, to communicate effectively, to identify and solve problems reflectively, to use information and technology responsibly, to appreciate the creative and performing arts, and to seek personal development and lifelong learning.

Through a First-Year Seminar in Liberal Studies, first-year students begin to experience intellectual life at the university level. Through participation in an Academic Learning Community, students begin to experience the integration of knowledge. The core provides students with the academic skills and intellectual habits needed throughout the undergraduate experience; therefore, it should be completed as soon as possible. The Perspectives component of the Liberal Studies program exposes students to important modes of inquiry, discovery, and interpretation through study of the concepts, principles, and theories of the Liberal Arts. Because all disciplines at the university can offer courses in the Liberal Studies program, the Perspectives provide a broadened worldview and knowledge base, with opportunities to take courses outside areas of familiarity or major interest. Students also take at least one three hour course at the upper level (300 or 400 level) in a Perspectives area outside their major. It is a primary goal of the Liberal Studies program to promote a lifelong love of learning.

**Perspectives Courses and the Major**

If a particular Liberal Studies Perspectives course (with the exception of the Upper Level Perspective) is required by a degree program or major, the Perspectives category requirement met by that course will be satisfied for students in that program.

**Liberal Studies and Transfer Students**

Courses transferred from other institutions to fulfill Liberal Studies requirements will be evaluated by the registrar in consultation with the appropriate department head, advising center designee, or the assistant vice chancellor for undergraduate studies, based on university guidelines. Credit earned by examination and advanced placement may be applied toward fulfillment of Liberal Studies requirements.

Students who have completed the general education core (44 hours) or the Associate of Arts degree or the Associate of Science Degree in the North Carolina Community College System will have the Liberal Studies requirements waived. However, if a student has completed the Associate of Applied Science Degree or other degree program in the North Carolina Community College System, the student's academic transcript will be evaluated for transfer credit on a course by course basis. When a transfer student has completed the General Education or Liberal Studies requirements of a public or private institution outside of the University of North Carolina system, the Associate Provost for undergraduate studies, in consultation with the Advising Center and the Liberal Studies Committee, will determine whether that institution's general education program is sufficiently
similar to Western Carolina University's Liberal Studies program to warrant a blanket waiver of the Liberal Studies requirements.
The role of the College of Arts and Sciences is to serve as a community of scholarship involving students and faculty in a broad range of intellectual and aesthetic activities.

The most significant of these activities is the teaching/learning process that takes place between students and faculty in classrooms, laboratories, studios, and field locations. The college provides a varied curriculum in the humanities, social sciences, and natural sciences. The curriculum includes general education courses that provide the basic intellectual skills and perspectives essential for preparing all university students for effective participation in modern life. In addition, specialized courses are offered that serve the baccalaureate and graduate degree programs of this college and its sister colleges. Many departments in the college are actively involved in teacher preparation.

The College of Arts and Sciences contains the following academic departments: Anthropology and Sociology; Biology; Chemistry and Physics; Communication; English; Geosciences and Natural Resources; History; Mathematics and Computer Science; World Languages; Philosophy and Religion; Political Science and Public Affairs. The College also offers baccalaureate degrees in the following interdisciplinary areas: Environmental Science; Forensic Science; International Studies.

Scholarly productivity through a variety of discipline-related activities is essential to the growth of the college and university. For this purpose, the faculty engage in research, creative activities, and publication. Students are often directly involved in these scholarly activities, which enhance the reputation of the college and university in the broader academic world.

The activities of the college also include service to the university, region, state, nation, and international community. Faculty members act as advisers for undergraduate and graduate students and support extracurricular activities. Faculty participate in university governance through membership on departmental, college, and university committees. College faculty also share intellectual, cultural, and problem-solving interests with audiences throughout Western North Carolina and beyond.

Forensic Science (Interdisciplinary), B.S.
Total number of hours for the program: 124.

Pre-Forensic Science Core Major: Declaration of major in Pre-Forensic Science does not guarantee entry into the Forensic Science Program. Admittance into the program is dependent on completion of program entry requirements. Students should apply to the Forensic Science Program by the end of their sophomore year. For the most up to date information regarding these requirements, please visit the Forensic Science Program website at http://forensicscience.wcu.edu.

Pre-Forensic Science Core Coursework: All students wishing to apply to the Forensic Science Program must have completed a core set of science courses. This coursework includes BIOL 140, 270, CHEM 139, 140 and 241, PHYS 130 and 131, and MATH 153 and 270.

Minimum GPA Requirement: All Forensic Science students must maintain a 2.75 GPA in the major coursework. Students who fail to meet this requirement may be denied entry into the Forensic Science Program. Students are also required to maintain a 2.75 GPA in all major coursework while enrolled as a Forensic Science student.

Statement of Goals: Each student applying for entry into the Forensic Science Program must submit an essay describing his/her career goals in Forensic Science or related area. The essay must be no longer than 2 pages, and should be included with the submitted application packet.

Comprehensive Examination: All students wishing to apply to the Forensic Science Program must register to take the Forensic Science Comprehensive Entrance Examination at the end of their sophomore year (or as soon as the core science coursework has been satisfied). This exam includes material from core science coursework including General Biology I & II, General Chemistry I & II, Organic Chemistry, Physics I & II, Statistics and Calculus I. A grade of 70% or better on this exam is considered passing. Students not earning a grade of 70% or better may be denied acceptance into the Forensic Science Program. Additional information and registration forms for the comprehensive examination can be found on the Forensic Science Program website.

Other Requirements: Students must sign a memorandum which states that they have been advised of the implications of having a criminal record of any kind, and of the potential to be subjected to a criminal background check should they be accepted into an internship position.

When do students apply? To be considered for admission, students must have satisfied (or be in the process of satisfying) all of the entry requirements stated above. The admission application packet can be found on the Forensic Science Program website. The completed applications must be received no later than April 1st for Fall Admission, and October 1st for Spring Admission. Notifications will be sent to WCU students email accounts in June for Fall Admission and in November for Spring Admission.

Waivers: Students with exceptional academic records may appeal one or more of the entry requirements to the Program Director. At the time the waivers are approved, the student will be admitted into the program. The student should note, however, that this type of waiver does not exempt them from completing the course requirement for degree completion.

4+1 Option
The Four plus One option in Chemistry allows an outstanding student to complete the requirements for both B.S. and M.S. degrees in a period of 5 years. Students are expected to meet all of the requirements of the M.S. program. These include a minimum of 30 semester hours of graduate study, including a thesis and an oral defense of the thesis. Once a student has completed the B.S. he/she formally applies to the graduate school. Students begin research while earning the B.S. degree. Up to 12 credit hours of 500+ course work taken in the undergraduate program can count toward M.S. degree requirements. All grades, even those below a B taken at the 500+ level will count toward both the graduate and undergraduate GPA.

Students applying for the 4+1 B.S. program in Chemistry must meet the following guidelines:

- a minimum cumulative GPA and GPA in the chemistry major of 3.00 at WCU.
- Completed a minimum of seventy-five (75) and a maximum of ninety-six (96) credit hours in their undergraduate programs, including graduate courses taken as an undergraduate.
- Completed at least two sections of CHEM 380-Research before completing the B.S. degree.

Applicants must be approved by the Graduate School, Department Head, Departmental Graduate Program Director and the Thesis advisor. After the student receives the B.S. degree, meets and completes admission requirements, he or she may be officially admitted into the M.S. degree program depending on GRE scores. After admission to the master's program, the 500+ courses in which the student completed (and made a grade of C or better) during the B.S. will be applied toward the requirements of the M.S. degree. These courses also count toward the 120 hours needed for the B.S. degree.

The College of Education and Allied Professions seeks to prepare professional personnel for the schools and colleges of the state and region and for other educational and service agencies. It coordinates all teacher education curricula at the university and provides services to individuals, schools, and regional educational and professional agencies. It undertakes continuous evaluation to assure curricula and professional services of high quality and coordinates the screening, selection, and counseling of students pursuing programs of study in the school.

The Bachelor of Science and Bachelor of Science in Education degrees are awarded upon completion of the undergraduate programs offered in the college. The Bachelor of Science degree is awarded in birth-kindergarten, psychology, and parks and recreation management. The Bachelor of Science in Education degree is normally awarded to those completing a teacher education program. Students may pursue programs leading to the Bachelor of Arts or Bachelor of Science degrees simultaneously with a program in teacher education but must fulfill all requirements of an approved teacher education program.

Admission to the Teacher Education Program

Acceptance and registration in a department do not guarantee admission to the teacher education program in that department. The applicant's fitness for teaching in the chosen area is determined on the basis of demonstrated academic ability and other personal characteristics conducive to effective teaching. A student may be considered suitable in one area and unsuitable in another. Students with speech defects that will interfere with successful teaching may be required to take corrective therapy.

Students who plan to receive a degree in education or a license through Western Carolina University must apply for and be officially admitted to a teacher education program. Admission to teacher education requires an application that should be completed during the semester in which the student is enrolled in EDCI 201 (BK 250 for BK majors) a prerequisite to all other courses in the professional education sequence that may be taken before being fully admitted to teacher education. Applications are available online in the Teacher Education Handbook http://thehandbook.wcu.

Admission Criteria

All requirements for admission to teacher education should be met by the end of the semester the student is enrolled in EDCI 201 (BK 250 for BK majors). The following criteria are minimum requirements for admission:

1. Completed at least 30 hours (which can also include transfer hours);
2. Earned a C (2.0) or higher grade in EDCI 201 (BK 250 for BK majors), ENGL 101. NOTE: Earning a C (2.0) or higher grade in ENGL 202 is required before beginning Internship 1 or student teaching);

(Applicants to the B-K program without a teaching license must have had a minimum cumulative GPA of 2.75 at the time of graduation. Applicants with non-teaching degrees from accredited institutions without cumulative GPA of at least 2.5 have two options:

2. The student is eligible to apply with passing scores on Praxis I tests and one of the following:
   - a GPA of 3.0 in the major field of study;
   - a GPA of 3.0 on all work completed in the senior year; or
   - a GPA of 3.0 on a minimum of 15 semester hours of course work (relative to licensure) completed during the preceding five years.

Students must have maintained satisfactory conduct and citizenship records which are in keeping with the ethics of the teaching profession. A student who is readmitted to the university after dismissal, suspension, or expulsion will not be readmitted to the teacher education program the first term after returning. Applicants with a record of legal offenses may not be eligible for admission to teacher education.

**Continuation in the Teacher Education Program**

An evaluation of each field experience assignment will become a part of the student's professional record.

If a student fails two courses or any one course in the professional education sequence twice, the student is withdrawn from teacher education.

**Clinical and Field Experience for Professional Education**
The teacher education program requires field experiences in conjunction with several courses in addition to the intern/student-teaching requirement. Students are expected to make their own arrangements for transportation and housing and absorb the costs related to field experiences and internship or student teaching. Each program has different requirements, and students should discuss costs with the program head prior to applying for admission to the teacher education program. The goal of professional education clinical and field experiences is to help teacher education students learn to teach all of their pupils to achieve at high levels of performance. Although each field experience requirement has its own specific purpose and placement procedures, the strategies to achieve this goal are stated below:

1. Field experience placements are made so that students have the opportunity to work with qualified educators in successful programs.
2. Field experience placements are made so that students have the opportunity to work with diverse learners. Teacher education students are required to complete one field experience in a diverse setting, as defined by the College of Education and Allied Professions. Students who do not complete one of the early field experience requirements in a diverse setting must be placed in a diverse setting for the internship or student teaching semester.
3. Field experiences placements are made in collaboration with B-12 school personnel.
4. Field experience placements are made to facilitate appropriate supervision of students.
5. There may be times where the student can combine early field experience placements to meet multiple course requirements. This is approved for no more than two classes.
Admission to Student Teaching/Internship

Students apply to the director of field experiences early in the semester prior to the semester in which student teaching/internship is to be done. The requirements for admission to student teaching/internship are: (1) completion of at least 39 of 42 hours required for Liberal Studies, (2) enrollment in the professional education sequence for at least two semesters, (3) completion of at least ninety hours in a teacher education curriculum, (4) a GPA of 2.5 or above, both at the beginning of the term immediately preceding the student teaching/internship term and at the time of enrollment in student teaching/internship (2.75 GPA required for birth-kindergarten, elementary education, health and physical education, and middle grades majors), (5) completion of at least two-thirds of the major, (6) completion of all records designated by the director of field experiences, (7) completion of the applicable professional education sequence except for student teaching/internship and the student teaching/internship seminar, (8) completion of an approved SBI background check, (9) completion of student teaching/internship application including recommendation by adviser and department head, and (10) all other requirements from the school placement as applicable.

Continuation in Student Teaching/Internship

To continue in student teaching/internship, students must maintain satisfactory professional conduct and adhere to the policies and regulations of the school to which they are assigned. When recommended by the director of field experiences and approved by the dean, students failing to perform at a satisfactory level may be removed from student teaching/internship. Removal from a school placement is considered a failed internship. The Office of Field Experiences under no obligation place the student in another setting. Removal from a school placement will result in a grade no higher than a D.

Probation and Dismissal:

Probation
a. If your overall GPA is below 2.5, you will be placed on probation. Such students will receive notification of probation in writing, a copy of which will be placed in your advising folder. During this one semester probationary period you must raise your overall G.P.A. to a minimum 2.5 or you will be dismissed from the program. If, after the probationary period, your overall G.P.A. is still below the required minimum of 2.5, you may appeal in writing for one additional semester in order to raise your G.P.A. Faculty will consider these requests, using the following criteria:

  • Likelihood of achieving a 2.5 in one semester.
  • Student’s demonstrated effort in current classes.
  • Student’s overall performance in the program.

b. Probation may be imposed for other infractions not deemed of the level for dismissal (see Student Code of Conduct).

c. Students offered probation must sign a probation agreement which will go in their record.
d. Probation is offered for one semester. If at the end of that period the issue is resolved, student will return to good standing. If the issue is not improved or resolved, student will face dismissal from the program. Student may request in writing an additional semester to resolve the issue. Faculty will determine if that request is granted, based on the criteria listed above.

e. Students should understand that artistic merit is an important attribute of any professional. Therefore, a student's artistic promise may be taken into consideration in any decision regarding probation and dismissal.

f. Dismissal

a. A history of academic probation (two semesters or more) is grounds for dismissal. Such students may request an opportunity to prove their academic commitment to the program.

b. Infractions of the Student Code of Conduct, in addition to any penalties imposed by the University, could lead to dismissal from the Theatre program.

c. Any other disciplinary actions during the academic year may be grounds for dismissal.

d. Appeal Process

a. Students will be informed in writing of dismissal within one week of their interview. Reasons must be stated in this document. Faculty will then advise the student and help facilitate enrollment in another major.

b. Students may submit a written statement to Program Director and Department Head stating reasons why they should remain in the program. Once an appeal has been submitted:

- Faculty must meet to consider the appeal
- If appeal is accepted, student may still be put on probation.
- If the appeal is denied, student may appeal to the Department Head.
- Department Head may ask the faculty to reconsider the appeal. Faculty shall then meet with Department Head to discuss the appeal. Faculty will then vote on appeal, and faculty's decision shall be final and binding.

The College of Health and Human Sciences is comprised of six academic units. These include the School of Health Sciences, the School of Nursing, and the departments of Communication Sciences and Disorders, Criminology and Criminal Justice, Physical Therapy, and Social Work.

College Mission Statement

The mission of the College of Health and Human Sciences is to provide a dynamic learning community that prepares individuals for professional life by providing quality educational experiences that promote scholarship, engagement and life-long learning in a global environment. This goal will be met with active, scholarly, collaborative faculty. The college will be recognized for graduates who are ethical, adaptive, technically capable and innovative professionals. In fulfilling this role, the college provides undergraduate and graduate educational programs in Cullowhee, Asheville, and online.

Introduction

Careers in both health professions and criminal justice are among the fastest growing segments of the job market. There is a rising demand for health care professionals to meet the current and projected health care needs of a growing and increasingly more diverse population. In addition, our nation's criminal justice system provides numerous career opportunities in both the public and private security areas.

Through its graduate and undergraduate educational programs, the College is committed to providing learning opportunities to students aspiring to careers in professions that serve the needs of our society. Service to disadvantaged segments of society most in need of care across age, cultural, and socioeconomic spectrum are central to the mission of the College's educational programs. To this end, the College is committed to fostering community-centered education and to educating and training future professionals who are knowledgeable, competent, ethical, and caring, with a strong commitment to human service.

Special Expenses

Due to the nature of the clinical, laboratory and studio experiences required in some of the college's programs, students will encounter special expenses beyond those listed in the fees section of this catalog. Liability insurance, uniforms, transportation to internships/clinical sites, criminal background checks required by internship/clinical education facilities, software programs, and special texts and class materials are examples of what might be expected. Each program has different requirements and students should discuss costs with the program director.

The following programs in the School of Health Sciences require students declaring a major or pre-major to have daily access to a laptop computer that meets the standard university networking and hardware configuration requirements: ATTR, EMC, ENVH, ND and RTH.

Clinical Education and Criminal Background Checks

Many health care facilities as well as educational and social services agencies require criminal background and/or drug screening on students who participate in internship/clinical education rotations. A student may be denied participation in an internship/clinical education rotation if he/she has a positive drug screen or a record of any felony or misdemeanor conviction. A conviction involving alcohol or drug use, possession or distribution offenses, violence-related offenses, or the abuse/neglect of children or disabled adults may be a significant obstacle to successful completion of the academic program.

If a student is denied participation in an internship/clinical education rotation based upon the results of a criminal background or drug screen, the student may be removed from the academic program; provided, however, that prior to removal the student is given the opportunity to appear before a review committee.

Undergraduate Programs

Electives

General electives (8 hours) are required from WCU at the upper-division level to satisfy degree requirements.

RN to MSN early-entry option:

Purpose: To assist selected RNs with good academic records to move smoothly through the RN to BSN curriculum directly into MSN study for advanced nursing roles. Normally, the student would take up to 8 semester hours of WCU undergraduate upper-division electives to complete the BSN. These electives could be replaced with up to 8 hours of WCU MSN graduate-level work, reducing the time needed to complete both degrees by one semester.

Students interested in this option should consult with both their RN to BSN advisor and the RN to MSN advisor.

Application requirements for the RN to MSN early-entry option:

• Admission to and enrollment in the WCU RN to BSN program.
• Completion of at least 12 of the required 24 hours of WCU RN to BSN NSG courses, with projected completion of the remaining hours before or during the semester of application to the WCU RN to MSN early-entry option.
• GRE or MAT submitted with acceptable scores
• Statistics course completed from any accredited institution in any discipline
• GPA of 3.00 on last 60 hours or cumulative post-secondary GPA of 2.85
• Professional statement and resume

Enrollment in the RN to MSN entry option does not guarantee admission to the MSN program. Admission of the RN to MSN applicant is provisional until the BSN is successfully completed.

If RN students are admitted provisionally to the early-entry option at WCU, this option replaces the WCU undergraduate upper-division electives needed for the RN to BSN with up to eight hours of MSN graduate credits. The BSN is then awarded by WCU.

If RN students are admitted provisionally to the early-entry option at WCU but elect not to finish it, they may apply any combination of WCU undergraduate upper-division electives with WCU MSN graduate credits for a total of eight hours to complete the BSN.

If RN students are not admitted provisionally to the early-entry option at WCU, they may still complete the BSN by taking eight hours of WCU undergraduate upper-division electives.

Nursing, B.S.N. Regionally Increasing Baccalaureate Nurses (RIBN) Program

Total number of hours for the program: 128.

The RIBN track provides a separate option for students desiring a career as a bachelor-of-science educated registered nurse. Students will be dual enrolled at WCU and a community college partner throughout the 4 year program and will have to meet both schools' programs and admissions requirements. Major prerequisites and nursing courses for first 3 years will be taken at a community college partner; students will take one liberal studies course per semester at WCU. Fourth year will be nursing courses at WCU.

Pre-Licensure Nursing

Declaration of a major in pre-nursing does not guarantee admission into the program. Students must formally apply and be admitted into the program before beginning the professional sequence of courses and/or proceeding into clinical placements. Admission to the upper-division nursing major is competitive, and priority is given to the best qualified students. Admission is based on cumulative GPA (3.00) minimum on all previous undergraduate college work and test scores. In addition to the academic requirements below, students are expected to adhere to the technical and professional standards and safe practice policies of the program. For the most up to date information regarding these standards, refer to the nursing website, http://nursing.wcu.edu.

Minimum GPA Requirement: 3.00

When do students apply? To be considered for admission all students must have completed, or be in the process of completing 60 semester hours of college work, including program requirements. Applications from non-RNs are accepted twice per year. Refer to the nursing website (http://nursing.wcu.edu) for application deadlines.

Required Pre-requisites: To be considered for admission, all students must have completed or be in the process of completing 60 semester hours of college work, including program requirements.

Retention in the Program: Students must take and pass with a grade of C (2.00) or better all required courses in sequence and demonstrate professional and safe nursing practice. In addition, courses which combine selected content areas require the student to demonstrate competency in each content area by achieving a minimum exam score average of C (77%). For more information on retention policies in the nursing program, refer to the nursing website, http://nursing.wcu.edu.

The College serves over 1,300 Honors students and manages programs that are open to all undergraduates at Western Carolina University. The Honors College is a student-centered enterprise that enhances the educational experience for high-achieving students, encourages innovative teaching, learning, and curriculum development, serves students and faculty across all disciplines, and encourages and supports undergraduate research. Of special emphasis is The Honors Path, an educational framework designed to help Honors students make the most of their abilities.

**Honors College Benefits.** Honors College students are invited to live in Balsam or Blue Ridge Halls. Honors students also benefit from a special diploma (see "Honors College Diploma" below), priority registration, the opportunity to customize their curriculum (see "Honors Curriculum" below), access to Honors courses and special library privileges. Social events put on by The Honors College Student Board of Directors, such as dances, lectures, parties, special trips, or tournaments, are open to all Western Carolina University students.

**Admission.** To be considered for the Honors College, incoming first-year students must have a high school record that meets at least one of these standards: weighted 4.0, 1875 SAT or 30 ACT, or top 10% of the high school class. First-year students who achieve a 3.50 GPA or above on at least 12 credit hours in the first semester at Western Carolina University will be invited to join The Honors College. After the first semester, students who have at least a cumulative 3.5 GPA are welcome to meet with the Dean to be considered for admission on a case-by-case basis. Transfer students who have a cumulative 3.5 GPA from an accredited college or university are encouraged to apply for admission to The Honors College.

**To Remain in The College.** Honors College students must maintain a 3.10 cumulative GPA at 1 to 29 credit hours, a 3.20 GPA at 30 to 59 hours, and must have a cumulative 3.33 GPA at 60 hours until graduation. Until completing the required 24 honors hours for the diploma, honors students must earn at least 3 hours of honors credit each semester; students lacking at least 3 honors hours will be put on probation after the first term, and then removed from the Honors College if 3 honors hours are not completed by the end of the second term. A student who is dropped from the Honors College may be reinstated if the cumulative GPA is brought up to an acceptable level. Students dropped from Honors due to a lack of Honors hours per term can meet with the Dean to be reinstated and may be allowed to register for Honors courses or do Honors contracts to return to good standing in the College.

**Advising.** Honors students who have not yet declared a major or are changing majors are advised by the Director of Honors Advising or the Associate Dean. Honors students who have declared a major are advised by a faculty member in the major department; for questions related to The Honors College or its programs, students are welcome to meet with an Honors advisor or the Dean.

**Honors College Curriculum.** Because of their academic achievement, Honors students are able to "customize" their Liberal Studies and degree programs. In Liberal Studies, an Honors student may elect to take a higher level course in place of the Liberal Studies course (this requires a completed approval form, available at the Honors Office). If the Honors student completes the higher level course with a B- or higher, the student will receive Honors credit for the course. Honors students may create their own degree program (Special Studies degree) with "fast track" approval. For more information on the Special Studies degree and the approval process, contact the Honors Dean.

**Honors College Special Studies Option.** Since 2004, Honors students have had the option to get "fast track" approval for Special Studies degrees. Of course, Special Studies Honors students can complete Honors requirements and graduate with The Honors College diploma.

To gain approval for a Special Studies degree, the Honors student must:

1. Begin the process by consulting with a primary advisor (check with the Honors College Dean to determine who this will be).
2. Work with the primary advisor to create a Special Studies degree proposal, which will include the completed Special Studies Program Form for Honors Students (PDF) and all required signatures, a list of all courses needed to reach at least 120 total hours for the degree (including Liberal Studies), and a statement (usually one page) from the student that explains how the proposed Special Studies degree will meet that student's professional plans after graduation (career or graduate school).

3. Once the Special Studies degree is approved, the student must follow the plan and all courses required in order to graduate.

For more information or to get started, contact the Honors College at 828-227-7383.

The Honors College Diploma. The diploma, available in any major at Western Carolina University, is a special honor-a signal of high achievement to employers and graduate school admissions officers. Honors College students must complete 24 Honors hours and have at least a 3.33 cumulative GPA upon graduation to receive the diploma. Graduation from The Honors College will be designated on the transcript. Honors graduates wear The Honors College Medallion at commencement.

Honors College Credits. Honors students do not take extra hours to earn the College diploma; they do enroll in special Honors courses, usually in the Liberal Studies Program, to earn the hours needed for the College diploma. At the major level, Honors students may arrange for an Honors contract with the instructor of the course (this is a one-on-one project worked out between the student and the instructor) to earn Honors credit. Contract forms are available at the Honors Office or at http://honors.wcu.edu, the Honors College website. Transfer students who have Honors credit from other institutions must meet with the Dean to determine howHonors credits will be accepted at Western Carolina University. Honors students who travel abroad may earn Honors hours for the experience by working out a special Honors contract with the Dean before they travel.

Honors College Scholar Program. This is designed for exceptional students who are interested in preparation and sponsorship for prestigious national or international scholarships (for example, the Goldwater, Truman, or Rhodes). To complete the program, Honors College Scholars must complete at least 12 Tutorial hours (these are not additional hours, however, but they do count as Honors credit). Incoming first-year students who have achieved a minimum weighted 4.0 high school GPA and at least a 1300/2000 SAT or 33 ACT score may be admitted. First-year students who make at least a 3.75 cumulative GPA on at least 12 hours may be admitted. Honors College Scholars must maintain at least a 3.75 cumulative GPA to remain in the program. Graduates of this program will receive special recognition on the diploma and transcript.

Pre-Professional Programs: Pre-Medicine, Pre-Pharmacy, Pre-Law, Pre-Veterinary Medicine, Pre-Physical Therapy, Pre-Dental, Pre-Optometry, Pre-Physician's Assistant, Pre-Occupational Therapy, Pre-Chiropractic. Students who attend the University to prepare for admission into a professional school are provided with a variety of options for the programs they may pursue. Students should make decisions early in their undergraduate career regarding preparation for professional school. The majority of professional school programs now require a bachelor's degree for admission, although there are still some exceptions. To make wise decisions regarding undergraduate prerequisite courses and selecting an undergraduate major, students should contact the Pre-Professional Advisor at The Honors College. Call (828) 227-3277, email easharpe@wcu.edu, come by Balsam Hall, or visit the website at http://www.wcu.edu/5502.asp.

Undergraduate Research. The Honors College sponsors Undergraduate Academic Project Grants, which are grants of up to $400 each, to support supplies or travel related to student research and creative/performance projects. Please contact the Dean for more information about these programs at (828) 227-7383 or check the Honors website under "Undergraduate Research."

History of the University of North Carolina

In North Carolina, all the public educational institutions that grant baccalaureate degrees are part of The University of North Carolina. Western Carolina University is one of the sixteen constituent institutions of the multi-campus state university.

The University of North Carolina, chartered by the North Carolina General Assembly in 1789, was the first public university in the United States to open its doors and the only one to graduate students in the eighteenth century. The first class was admitted in Chapel Hill in 1795. For the next 136 years, the only campus of The University of North Carolina was at Chapel Hill.

In 1877, the North Carolina General Assembly began sponsoring additional institutions of higher education, diverse in origin and purpose. Five were historically black institutions, and another was founded to educate Native Americans. Several were created to prepare teachers for the public schools. Others had a technological emphasis. One is a training school for performing artists.

In 1931, the North Carolina General Assembly redefined The University of North Carolina to include three state-supported institutions: the campus at Chapel Hill (now the University of North Carolina at Chapel Hill), North Carolina State College (now North Carolina State University at Raleigh), and Woman's College (now the University of North Carolina at Greensboro). The new multi-campus university operated with one board of trustees and one president. By 1969, three additional campuses had joined the university through legislative action: the University of North Carolina at Charlotte, the University of North Carolina at Asheville, and the University of North Carolina at Wilmington.

In 1971, the North Carolina General Assembly passed legislation bringing into the University of North Carolina the state's ten remaining public senior institutions, each of which had until then been legally separate: Appalachian State University, East Carolina University, Elizabeth City State University, Fayetteville State University, North Carolina Agricultural and Technical State University, North Carolina Central University, the North Carolina School of the Arts, Pembroke State University, Western Carolina University, and Winston-Salem State University. This action created the current sixteen-campus university. In 1985, the North Carolina School of Science and Mathematics, a residential high school for gifted students, was declared an affiliated school of the university; and in 1996, Pembroke State University was renamed The University of North Carolina at Pembroke through legislative action.

The UNC Board of Governors is the policy-making body legally charged with the general determination, control, supervision, management, and governance of all affairs of the constituent institutions. It elects the president, who administers the university. The thirty-two voting members of the Board of Governors are elected by the North Carolina General Assembly for four-year terms. Former board chairmen and board members who are former governors of North Carolina may continue to serve for limited periods as non-voting members emeriti. The president of the UNC Association of Student Governments, or that student's designee, is also a non-voting member.

Each of the sixteen constituent institutions is headed by a chancellor, who is chosen by the Board of Governors on the president's nomination and is responsible to the president. Each institution has a board of trustees, consisting of eight members elected by the Board of Governors, four appointed by the governor, and the president of the student body, who serves ex officio. The North Carolina School of the Arts has two additional ex officio members. Each board of trustees holds extensive powers over academic and other operations of its institution on delegation from the Board of Governors.

Western Carolina University

Western Carolina University was founded in August 1889 as a semi-public school. Chartered as Cullowhee High School in 1891, it served the Cullowhee community and boarding students from neighboring counties and other states.

For Professor Robert Lee Madison, the institution's founder, the aim of the school was teacher training. In 1893, with the first state appropriation of $1,500, a normal department was established. In 1905, the institution became Cullowhee Normal and Industrial School, a title it held for twenty years.

Beginning about 1912, the status of the school was gradually raised to that of a two-year normal school or junior college. With state support increasing and work at the secondary level discontinued, the name of the school was changed in 1925 to Cullowhee State Normal School.

In 1929, under a new charter authorizing the school to extend its work to the four-year level, the name Western Carolina Teachers College was adopted. Modifications in function and rapid growth climaxed in 1951 with the addition of the postgraduate year to the curriculum, and the granting of the Master of Arts in Education degree was authorized. Demands in the liberal arts, and for programs in other areas of learning, led to an expansion of its offerings and to a further change, in 1953, to the name Western Carolina College.

In 1967, the institution was designated a regional university by the North Carolina General Assembly and the name of the institution was changed to Western Carolina University.

In 1971, the state legislature reorganized higher education in North Carolina, and on July 1, 1972, Western Carolina University became a constituent institution of The University of North Carolina.

In 1996, Western Carolina University was approved by the University of North Carolina-General Administration and the Southern Association of Colleges and Schools to offer the Doctoral degree in education.
