The following is a list of resources for youth and families. HELP, the Homeless Education Link Project, has two working case managers available during the school year. The goals of this project are to help identify and address the needs of homeless students and their families, develop enrollment procedures to ensure ongoing educational success for homeless students, and to serve as liaisons between public schools, qualifying students, and services within the community. HELP Case Managers serve as homeless liaisons for youth in each of the 21 public schools in Henderson County. For more information or to make a referral:
