Break By The Lake
2013

Why it Works

Students are able to connect with their peers in ways adults cannot.

Students perceive peer mediation as a way to talk out problems without fear that authority will judge their behaviors, thoughts, or feelings.

When students come up with their own solutions, they feel in control of their behaviors committed to plans of action they have been able to address their problems.

Behavioral Package

- Based on behavioral principles
- Emphasis on what happens before and after a
- Focus on both antecedents and consequences
- Functional Behavior Analysis
- Step-up, Decrease, Trial Teaching, Token Economy model
