Program Coordinator: Dr. Lisa Bloom — 828.227.3288 or bloom@wcu.edu

Advisor: Bridget Lopez — 828.227.2000 or blopez@wcu.edu

Additional Information

MAED K-12 Special Education: Gifted, Creative, and Innovative Education

Maintaining a 3.0 GPA

Students are required to maintain a WCU GPA of 3.0 or higher in the special education graduate program. A graduate student who accumulates three grades of C, or any grade of F, will be dismissed from the Graduate School. Students in the program must have a cumulative GPA of 3.0 or higher to be recommended for licensure by WCU.

MAED Comprehensive Portfolio

The Comprehensive Portfolio is an organized set of documents and artifacts illustrating the graduate teacher candidate's growth as a self-directed, reflective practitioner. The MAED programs use the Comprehensive Portfolio to provide evidence that the candidate has addressed each of the Professional Education Core Themes of the graduate Comprehensive Education program. The core themes are: assessment, differentiation/diversity, leadership, and research. The portfolio also acknowledges the North Carolina Standards for Graduate Teacher Candidates' advanced competencies required for licensure.

The Comprehensive Portfolio is due in the electronic portfolio system during the last semester of the MAED program (March 15 or October 15). All students in MAED programs are required to be enrolled in, and maintain a current subscription to, the electronic portfolio.

Subscription fees are required for the electronic portfolio. Faculty members from the Special Education program will review and assess your portfolio. For more information, visit edportfolio.wcu.edu.

Licensure

Successful completion of the MAED: Gifted, Creative, and Innovative Education leads to recommendation for an NC advanced degree license in K-12 Academically Gifted (88087). Candidates must first have an initial teaching license in this area before they may be recommended for an advanced degree license. If a candidate does not have an existing initial license in this area, in order to be recommended for the advanced license, the candidate must acquire, or add-on, the initial license. This is most often accomplished by meeting the state's requirements (including licensure testing) and applying for the initial license through NCDPI.
