About CAPS
Counseling and Psychological Services (CAPS) offers individual and group counseling and related services to the campus community. CAPS works closely with Health Services and interdisciplinary clinicians to provide integrative care for our students. Our staff includes psychologists, counselors and social workers, which makes for a truly interdisciplinary training experience. Each year, CAPS offers 3 training positions for graduate students in Counseling, Psychology, and Social Work programs.

The mission of Counseling and Psychological Services (CAPS) is to empower students to engage in and be successful in a full range of academic, social, and cultural opportunities through fostering psychological wellness. This aim is achieved through promotion, facilitation, recommendation and provision of mental health services for the University community.

At CAPS, we value:

- Intentional responsiveness within ourselves and with others created by collaboration, communicated and conducted authentically
- Relationships that are rooted in trust and nurtured by open communication
- Knowledge obtained through lifelong learning and shared through mentoring
- Wellness modeled on an individual and organizational level fostered by respect and intentionality

The mission of the training program at CAPS is to promote the development of clinical skills and professional identity for the next generation of mental health professionals. This mission is accomplished through the provision of didactic training, clinical supervision, and direct practice experiences within an interdisciplinary, supportive, and collaborative team environment.

Other Considerations for Potential Applicants:
- If you are currently receiving services at CAPS and intend to apply to the master’s training program, you should discuss this with your counselor to avoid potential conflict of interest.
- For applicants who are accepted into the master’s training program, they cannot receive CAPS counseling services once they begin their training experience at CAPS. CAPS can provide community referral information in these situations. You can talk to your counselor more about these options.
