

LEAD MINOR CURRICULUM

► LEADMINOR.WCU.EDU

The LEAD Minor consists of 18 credit hours of coursework. Of those credit hours, nine are required courses and nine may come from approved electives. Within the elective options there are three types of courses: LEAD Core Electives, LEAD Track Electives, Partner-Program Electives. Students from any major may elect to complete the LEAD Minor. LEAD Core Electives are leadership courses taught through the LEAD Minor and highlight leadership in specific contexts. LEAD Track Electives are, generally, living learning community classes for freshmen, as well as freshman leadership programming courses and job training classes specific to on-campus employment. Partner-Program Electives are non-LEAD courses that compliment the mission and goals of the LEAD Minor. These classes count for the minor and are taught by other majors.
