Hey Cats!!

It’s March and the semester is moving along quickly! A lot of things are happening this month and with Spring Break is around the corner you’ll be surprised that March went by so fast! But don’t let that trip you up! Now isn’t the time to burn out! Be sure to get plenty of rest over the break so you can come back at the top of your game! If you professor assigned homework over the break, try getting it done before you leave so you can relax for once! If you can’t do that, try planning days and times where you can get the work done! Also take a look at these safety tips before you hit the road!

HAVE AN AWESOME AND SAFE SPRING BREAK!

SPRING BREAK SAFETY TIPS

- Wear a seatbelt and stay alert when driving! Defensive driving is the best way to drive!
- Reserve hotel rooms above the 1st floor. Why? Because First floor rooms are easier to break into.
- Don’t go to the ATM at night. Same with gas stations. Get enough gas and money during daylight hours.
