“PIPELINE” PROGRAM

Attending this camp is the first step in a long-term relationship with the Statewide Health Careers and Workforce Diversity (HCWD) program. Once a camper participates in any North Carolina HCWD-sponsored program or activity, the student becomes part of the “pipeline” in the HCWD program infrastructure.

The “conceptual pipeline” is part of a program that tracks students in order to involve them in ongoing health career education, engagement and exposure opportunities, including academic enrichment, leadership, wellness and enrichment programs. MAHEC is continually searching for opportunities to give students a head start in this competitive market, and the Health Careers Summer Camp is a great beginning! Throughout the student’s academic years, MAHEC will continue to be in contact with the student and/or parent/guardian, either by phone or by mail, to provide information, guidance and mentoring, as well as to meet the student tracking and evaluation requirements for all Health Career and Workforce Diversity programs.

MAHEC
Health Careers Summer Camp 2017
June 18-24, 2017
Targeting Underrepresented Minority and Economically Disadvantaged Rising Seventh and Eighth Grade Students
On the campus of Western Carolina University
http://healthcamp.wcu.edu
PROGRAM INFORMATION

The Mountain Area Health Education Center (MAHEC) and Western Carolina University (WCU) are sponsoring a one-week summer residential program on the WCU campus. The camp is designed as an early intervention tool to help in the development of a diverse and culturally competent health professions workforce. The camp program is open to students of all racial and ethnic backgrounds. Special emphasis is made to encourage and inform minority, rural, and underserved students of educational and career opportunities about educational and career opportunities in healthcare.

The curriculum includes observations and interactions with a variety of health professionals, including first responders and technicians. Information is provided on the academic preparation required in middle and high school to enter a career in healthcare, as well as parts of the college planning process. The camp also exposes participants to a specially designed self-leadership and personal wellness curriculum and training that includes personal development and self-awareness activities. The camp creates an environment that fosters optimism about the value, rewards, and accessibility of careers in healthcare and overall, increases self-confidence and resiliency to life’s challenges.

The students begin their camp experience with team building and group dynamic exercises at in the beautiful mountains of WNC. Camp sessions cover a variety of topics including diversity, emergency medical services, healthy life styles, nursing, nutrition, peer influence, physical therapy, and pharmacotherapy. Students leave camp able to provide basic first aid and standard chest compressions on an adult. The week ends with a Friday night talent show and drumming class, and a Saturday morning family-style breakfast and certificate ceremony.

This is a unique experience for students to explore the exciting opportunities in health careers!

SELECTION CRITERIA

- Entering the seventh or eighth grade in the 2017 - 2018 school year
- Underrepresented minority
- Underserved/Economically disadvantaged
- Potential interest in health careers
- An overall C+ or above grade point average
- Enthusiastic recommendation from principal, counselor, or teacher
- Permission of parent or guardian
- Payment of $10 application fee
- Completion of ALL application materials
- Commitment from parent or guardian to attend the orientation meeting on Sunday, June 18 and the closing activities on Saturday, June 24 at Western Carolina University.

LOCATION

Campers will be housed in a residence hall on the WCU campus. Housing and food will be provided. The camp director, counselors, health professionals or representatives from the sponsoring organizations will be with the campers at all times.

COST

The Health Careers Summer Camp program is funded in part by a grant from the Department of Health Resources and Services Administration (HRSA) and administered through the North Carolina Area Health Education Centers (NC AHEC) Program.

The cost to attend the camp is $300 plus a $10 application fee. This fee is refundable if you are not selected to attend the camp. Students on free or reduced lunch may be eligible for a partial scholarship but are still required to send the $10 application fee. Make check or money order payable to MAHEC. No cash please.

APPLICATIONS

Contact the Office of Educational Outreach for additional information. Applications are available at http://healthcamp.wcu.edu or call (828) 227-7397 or (800) 928-4968.

DEADLINE TO APPLY:
Friday, March 31, 2017
