Personal Services

Expenditures incurred for services rendered by permanent and temporary employees and the related fringe benefits. Special employee awards and settlements, as well as compensation to board members, are also included in this expenditure group. For general government agencies, the funding source should dictate which category (Undesignated, Appropriated or Receipts) should be used to record these expenditures. 135050 Student Regular Wages 1450

This minor object includes hourly-rated regular wage payments to temporary student-employees for personal services rendered in non-teaching positions. The person must be a student who is enrolled and regularly attending classes (to the extent required by the program of study for which enrollment exists) at one of the constituent institutions of The University of North Carolina. The primary status of the person as a "student" as opposed to an "employee" is dependent on whether the services rendered for the employer are primarily for sustenance while engaging in academic pursuits (thus student status is presumed) or primarily to earn a livelihood (thus employee status is presumed). Where the primary status of the person is that of a student and the secondary status is that of an employee, the person is exempt from FICA withholdings on wage payments received from The University, and The University is exempt from FICA matching on the wage payments. These exemptions from the FICA tax apply only to employment concurrent with school attendance; however, compensation for services performed during holidays and weekends within the academic year and summer terms and between consecutive terms, when classes are not scheduled, is exempt. Thus, the exemptions do not apply to employment during the summer unless the student is attending a concurrent summer term, even if the student was enrolled and regularly attending classes during the previous year and expects to return the following year. Also, exemptions do not apply if employee status is the primary status.
