

Earliest Registration Times

Time-Tickets & Priority Times

Undergraduate students' registration time-tickets will be set based on the minimum number of hours required to complete their degree program rather than the hours a student has earned. By example, students with 0 to 15 hours remaining to complete their degree will be given an earlier registration time-ticket than students with 16 to 30 hours remaining to complete their degree.

Priority registration is still allowed and requires Provost Council approval. Groups approved for priority registration will receive registration time-tickets that allow them to register with the group ahead of them unless they were approved for a specific time-ticket.

The Registrar's Office will notify enrolled students of their earliest registration time via email and registration times are shown in the table below. Earliest Registration Time emails will be distributed approximately ten calendar days before Advising Day.

All time-tickets begin at 9:00 p.m.

Registration Group / Category	Date & Time
<i>Advising Day (No Classes)</i>	Tuesday, February 22, 2022
Graduate students, and approved undergraduate students	Wednesday, February 23, 2022, 9:00 p.m.
