

**Budget Advisory Committee (BAC)**  
**Membership & Charge**  
**2021-22 Academic Year for 2022-23 Requests**

**Charge**

The BAC is composed of faculty and staff representatives. The BAC charge includes:

- Learn about budgeting issues at campus and statewide levels.
- Attend unit and campus-wide budget hearings to learn about budget requests.
- Participate in joint budget discussion with the CLC to develop recommendations for budget priorities.

**Role in Budget Process**

The BAC is encouraged to attend the unit hearings to learn more about campus budget issues.

The BAC does not advocate for individual recurring budget requests (although there are times when the BAC can assist with allocation with non-recurring funding). The BAC does not have power to “approve” budget requests. The BAC attends hearings in order to learn about unit requests to enable a productive joint discussion with the CLC in developing recommended budget priorities.

**Budget Advisory Committee Members - 2021-22 Academic Year for 2022-23 Requests**
