55TH ANNUAL NORTH AMERICAN POWER SYMPOSIUM

Broadening Participation in Sustainable Power Engineering, Technology, and Education

ABOUT NAPS:

The North American Power Symposium (NAPS) is a student-centric technical conference in the power and energy systems field. Since its inception in 1969, NAPS has been bringing together students, faculty, and industrial partners from premier institutions and organizations involved in power engineering and research. The conference is held annually at a university in the United States or Canada. In addition to the traditional technical sessions, NAPS 2023 will focus on broadening undergraduate student participation through a dedicated track for undergraduate research.

ABOUT WCU:

WCU was founded in 1889 and provides more than 115 undergraduate majors and concentrations and more than 40 graduate programs. WCU is located in the beautiful mountains of North Carolina.

TOPICS:

Power System Operation and Planning
Power System Economics
Analysis of Distribution Systems and Distributed Energy Resources
Renewable/Clean Energy Systems and Energy Storage
Power Electronics and Applications
Electric Machines and Drives
Emerging Topics in Modern Power Systems
Power Engineering Education

CONFERENCE LOCATION:

DoubleTree by Hilton Hotel
Asheville - Biltmore

CONFERENCE COMMITTEE:

Bora Karayaka
Randy Collins
Hugh Jack
Andy Ritenour
Tarek Hassan Kandil
Bobby Hensley

DEADLINES:

Submission site opens: March 1
Paper submission due: June 1
Notification of acceptance: July 1
Final submission due: August 30
Registration opens: July 1 (Early Bird rates apply until August 22)

NAPS will accept full paper and poster submissions up to 6 pages in standard double column IEEE format.
