

Acknowledgements

On behalf of the executive planning committee, we wish to thank all the people and organizations that made this 2024 Equity in Education Summit possible. It was no easy feat scaling up from one day to two; vetting over 50 presentation proposals for breakout sessions; finding ways to innovate with student engagement, participatory music, a world café, and an educator wellness space; bringing together educators from across the state; and designing an engaging learning space for over 300 educators! It definitely “took a village” to make this event happen and we DEEPLY appreciate all our contributors and supporters.
