SECTION 12: SATISFACTORY ACADEMIC PROGRESS

12.1 Process overview & Responsibilities

Resources: 668.16(e), 668.34, 668.32(f), 2019-20 FSA Handbook, Vol. 2, Ch. 3, 2020-21 FSA Handbook, Vol. 1, Ch. 1

Financial Aid is defined as all federally-funded aid programs, all state-funded student assistance programs, institutional, and outside aid. In order to receive financial aid, students must be making Satisfactory Academic Progress. Federal regulations require each educational institution define a uniform Satisfactory Academic Progress (SAP) policy for all financial aid applicants. This policy must have both quantitative (completion rate) and qualitative (grade point average) components and must be at least as restrictive as the institutional academic standing policy. The policy must measure a student’s performance in the following three areas: completion rate, cumulative grade point average (GPA), and maximum time frame.

The Financial Aid Office in conjunction with the Registrar's Office and Office of Student Retention runs SAP on all students, undergraduates and graduates, after each semester. If an undergraduate student is not making SAP, future financial aid is cancelled, and the student’s academic standing is updated accordingly. Students can view academic standing in myWCU. Students can appeal their academic standing. If a student submits an appeal and it is approved by the Academic Action Committee, the student must sign an Academic Action Plan. Completed Academic Action Plans are received by the Office of Student Retention, and appropriate departments (including Financial Aid) are notified of completion. An Assistant Director of Financial Aid receives a copy of the signed action plan. The copy is saved in OnBase, and the student's academic standing is updated in Banner to reflect that they’ve been approved for an Academic Action Plan. If a student's financial aid offer was cancelled, the offer is reinstated. If a student has outstanding requirements, those requirements will now display in myWCU. If a graduate student is not meeting SAP, future financial aid is cancelled, and the academic standing is updated in myWCU. If a student submits an appeal to the Financial Aid Office and it is approved, an Assistant Director adds the financial aid Academic Action Plan to myWCU for the student to complete. Once the action plan is complete, the student’s academic standing will be updated accordingly in Banner, and the financial aid offer will be reinstated.

Last Updated: June 25, 2021.
12.2 Same As or Stricter Than

The Satisfactory Academic Progress policy is the same as or stricter than the school’s standard for students enrolled in the same educational program who are not receiving Title IV aid. This policy must have both quantitative (completion rate) and qualitative (grade point average) components, and must be at least as restrictive as the institutional academic standing policy. The policy must measure a student’s performance in the following three areas: completion rate, cumulative grade point average (GPA), and maximum time frame. The SAP policy is reviewed each year. The university Academic Standing Policy for undergraduates can be on the Online Catalog. The university academic standing policy for graduate can be found on the Online Catalog.

The university Satisfactory Academic Progress Policy for undergraduates and graduates can be found on the Financial Aid Office website.

Last Updated: June 25, 2021

12.3 Categories of Students

The Financial Aid Office in conjunction with the Office of Student Retention and Registrar’s Office, runs Satisfactory Academic Progress on all financial aid recipients, undergraduate and graduate students, after each semester. The process measures each student’s performance in the following three areas: completion rate, cumulative grade point average (GPA), and maximum time frame.

Last Updated: June 25, 2021

12.4 Qualitative Measures

Resources: 668.34(a)(5), 668.34(a)(4), ED Program Integrity Q&A — Satisfactory Academic Progress, R-Q3/R-A2, 668.34(a)(11), 2020-21 FSA Handbook, Vol. 1, Ch. 1
Undergraduate

All undergraduate students are expected to earn and maintain a grade-point average of 2.0 each semester (and cumulatively) and to successfully complete (earn) at least 67% of their attempted WCU semester hours and attempted overall WCU hours. Successful completion of a course means that a student must earn credit for the course with a grade other than I, F, U, NC or W. A student’s academic standing is measured by comparing the number of attempted semester credit hours with the semester credit hours earned at Western Carolina University. This includes any course for which the student remained enrolled past the drop/add period.

The following are considered when evaluating a student’s academic standing:

- All transfer hours count when calculating maximum timeframe.
- Withdrawals, incompletes, and failures are considered attempted but not earned hours.
- Passing credits received for pass/fail courses are considered attempted and earned credits; failing grades in pass/fail courses are considered attempted but not earned.
- Audited courses are not considered credits attempted or earned.
- If financial aid is awarded under the basis of a consortium agreement, those transfer hours will be considered in the overall calculation of both attempted and earned hours.
- Students enrolled in eligible teacher certificate programs may receive financial aid only for those courses that are required to complete the program. These hours will be considered in the overall calculation of both attempted and earned hours.
- If financial aid is awarded for a study abroad program, those hours will be considered in the overall calculation of both attempted and earned hours.
- Repeated courses are counted in the overall calculation of both attempted and earned hours.

Graduate

All graduate students are expected to maintain a grade-point average of at least 3.0 each semester (and cumulatively) and to successfully complete (earn) at least 67% of their attempted hours WCU semester hours and attempted overall WCU hours, whether the hours are undergraduate or graduate level. Successful completion of a course means that a student must earn credit for the course with a grade other than I, F, U, NC or W. A student’s academic standing is measured by comparing the number of attempted semester
credit hours with the semester credit hours earned at Western Carolina University. This includes any course for which the student remained enrolled past the drop/add period.

The following are considered when evaluating a student’s SAP:

- All transfer hours count when calculating maximum time frame.
- Withdrawals, incompletes, and failures are considered attempted but not earned hours
- Passing credits received for pass/fail courses are considered attempted and earned credits; failing grades in pass/fail courses are considered attempted but not earned
- Audited courses are not considered credits attempted or earned
- If financial aid is awarded under the basis of a consortium agreement, those transfer hours will be considered in the overall calculation of both attempted and earned hours
- Students enrolled in eligible teach certificate programs may receive financial aid only for those courses that are required to complete the program. These hours will be considered in the overall calculation of both attempted and earned hours.
- If financial aid is awarded for a study abroad program, those hours will be considered in the overall calculation of both attempted and earned hours.
- Repeated courses are counted in the overall calculation of both attempted and earned hours.

If an undergraduate or graduate student is not meeting the qualitative standards their electronic record is updated with the appropriate SAP status and their Title IV aid is updated appropriately. Qualitative progress is measured at the end of each semester by the Financial Aid Office.

The Financial Aid Office in conjunction with the Office of Student Retention and Registrar’s Office, examine SAP on all financial aid recipients after each semester. If a student is not meeting SAP, their status is updated in ROASTAT and they are informed by the Office of Student Retention. The Office of Student Retention provides information regarding the appeal process.

Last Updated: June 25, 2021
12.5 Quantitative Measures

Resources: 668.34(a)(6), 668.34(a)(5), 668.34(b), Maximum timeframe 668.34(a)(11), 2020-21 FSA Handbook, Vol. 1, Ch. 1, Electronic Announcement, 5/15/20

All students must successfully complete (earn) at least 67% of all WCU attempted semester hours and overall hours, regardless of whether the hours attempted are the undergraduate or graduate level, to maintain SAP.

12.5.1 Maximum Time Frame

A student cannot receive any federal or state financial aid funding after they have attempted 150% of hours required to earn a degree. For example, students in programs requiring 120 hours earned for graduation will be eligible for financial aid during the first 180 attempted hours as an undergraduate. All attempted hours are counted, including transfer hours and part-time enrollment, whether or not financial aid was received, or the coursework was successfully completed. Occasionally, a student will complete all requirements for a degree but will continue taking courses without accepting the degree. Western Carolina will determine that the student has earned their degree at the point the student has met all requirements according to their degree audit, whether or not the student has applied for graduation. This allows for dual degrees, change of degree and minors, as long as the student has not exceeded their maximum time frame overall. Once a student has met all degree requirements for their first Bachelor's degree, any Pell Grant eligibility ends. The student will continue to be eligible for federal student loans and institution aid, however.

- Degree Audits
  - A degree audit will be used to determine whether or not a student has met degree requirements and is eligible to graduate based upon their declared program of study.

- Double majors
  - Students often have questions about the ability to receive federal financial aid for double/dual majors. A major consists of a group of prescribed and elective courses (27-64 hours) providing breadth and depth in an academic discipline. A double major, also referred to as a second major or dual major, is awarded when a student complete appropriate coursework specified in the major component of a degree program in addition to the work done for their primary major and degree. Some degree programs require double majors due to the number of hours in the primary major (If the major component of a
degree program is between 30-40 hours, a minor or second major is required). In determining whether or not a student is eligible for federal financial aid for double/dual majors, the following question must be answered.

**Does the degree program require a double major or minor?** If a student’s degree program requires a double major or minor, they cannot graduate until the double major or minor has been completed.

1. If the degree program **DOES** require a double major or minor, the student is allowed up to the 150% timeframe to complete both degrees. However, students can only be funded for the classes that are required for the double major or minor.

   *example: if both degrees require 120 hours, the student can be funded up to 180 hours to complete both programs: 120 hours x 150%=180 hours. If one degree requires 120 hours and the other requires 128 hours, the student can be funded up to 192 hours to complete both programs: 128 hours x 150%=192 hours.

2. If the degree program **DOES NOT** require a double major or minor, a student is allowed up to 150% timeframe to complete one degree. Student can only be funded for the classes that are required for one degree. If a student continues to take courses after one degree is completed, the student will only be eligible for federal student loans.

3. Current programs that require a double major, minor, or other approved program can be found [HERE](#).

**Transfer Student Maximum Time Frame**

A student with transfer hours cannot receive any financial aid after they have attempted 150% of the hours required to earn a degree. All transfer hours count when calculating maximum time frame. If transfer hours exceed 90, student may request a review of their status through the Financial Aid Office. In this case, the student must submit a Statement of Academic Intent and Financial Aid Appeal for 150% maximum time frame. The Satisfactory Academic Progress Appeals Committee will review the appeal along with a current degree audit to determine what courses a student still needs to degree completion.
Second Undergraduate Student Maximum Time Frame

A student pursuing a second undergraduate degree is eligible to receive financial aid for a maximum of 150% of the hours required for the second degree.

Graduate

A student pursuing a graduate or doctoral degree is eligible to receive financial aid for a maximum of 150% of the hours required for the graduate or doctoral degree.

12.5.2 Pace

Undergraduate

A student’s SAP is measured by comparing the number of attempted credit hours with the credit hours earned at Western Carolina University. This includes any course for which the student has remained enrolled past the drop/add period. An undergraduate student must successfully complete (earn) at least 67% of all WCU attempted semester hours and overall hours.

Graduate

A graduate student must successfully complete (earn) at least 67% of all WCU attempted semester hours and overall hours, regardless of whether the hours attempted are the undergraduate or graduate level, to maintain SAP.

Last Updated: June 25, 2021

12.6 Evaluation Periods

To ensure all financial aid recipients are progressing both quantitatively and qualitatively, the Financial Aid Office runs Satisfactory Academic Progress on all financial aid recipients, undergraduate and graduate students, after each semester.

12.6.1 Financial Aid Warning

Undergraduate

Academic Warning
Continuing students are placed on Academic Warning if the student’s cumulative Western Carolina University grade point average (GPA) falls below 2.0 or if the student failed to complete 67% of their overall WCU attempted credit hours at the end of the semester or fails to complete 67% of their WCU attempted hours for three consecutive semester, regardless of cumulative GPA will be placed on Academic Warning.

At the end of the term of academic warning, students must achieve the following:

- Earn a 67% completion rate on the hours attempted for the semester AND
- Raise the cumulative GPA to a good standing (2.0),

OR

- Earn a 67% completion rate on the hours attempted for the semester AND
- Earn a minimum 2.30 term GPA during the probationary term.

Failure to achieve one of the above criteria will result in academic suspension.

Graduate

Graduate students are not placed on Academic Warning. A graduate student must successfully complete (earn) at least 67% of all WCU attempted semester hours, regardless of whether the hours attempted are at the undergraduate or graduate level, to maintain Satisfactory Academic Progress. Graduate student must maintain a minimum GPA of 3.0 or as defined by the Graduate School.

12.6.2 Academic Suspension

Undergraduate

Student who are on Academic Warning and fail to meet the criteria necessary for continued enrollment will be suspended. Student who earn all F grades of a combination of all F, U, or W grades will be suspended without a period of Academic Warning. Students who are suspended are not eligible to enroll at the university during the next regular (fall or spring) semester unless they appeal or are approved. Otherwise, a student may apply for readmission after they have served one semester of suspension. If a student chooses to sit out at least a semester, they must appeal to return to WCU.

When students return from Suspension with a successful appeal, they are placed on an Academic Action Plan. Failure to meet the terms of the Academic Action Plan (see Section 4) will result in Academic Dismissal from the university.
In addition to the above criteria, first-semester freshmen and new transfer students who are placed on Academic Warning must meet specific guidelines in order to continue enrollment in the University. First-semester freshman and new transfers who earn a cumulative GPA within the range of 1.0 to 1.999 at the end of their first semester may return to the University for their second semester only if they choose to participate in the Learning Contract program and LC 101.

Graduate

Graduate students must maintain a minimum cumulative GPA of 3.0 or as defined by the Graduate School. The Graduate School notifies the Financial Aid Office by email if a student is suspended.

12.6.3 Academic Dismissal

Undergraduate

Student who have served a semester of suspension and who, while still on Academic Probation, fail to meet the 2.00 cumulative GPA and 67% successful completion rate or the terms of their academic plan will be dismissed from the university. Student who are academically dismissed have the option to appeal the determination. If approved, they can resume enrollment under an Academic Action Plan. Students who are dismissed and choose not to appeal must sit out for two years before they will be eligible to reapply for future enrollment at Western Carolina University.

Graduate

Graduate Students must maintain a minimum cumulative GPA of 3.0 or as defined by the Graduate School. The Graduate School notifies the Financial Aid Office by email if a student is dismissed.

12.6.4 Learning Contract

Undergraduate

Students who are given a Learning Contract option and who choose not to participate in the Learning Contract program are not eligible to continue enrollment in the University for one term. Once the student sits out at least one term, they must submit an appeal and be approved for an Academic Action Plan in order to resume enrollment at Western Carolina University.
The Learning Contract Program specifies that these students work closely with an academic advisor. The student and advisor will discuss academic performance issues, set realistic goals, and make plans to reach those goals, including linking students with the campus resources that can help them succeed. Follow-up contact will occur throughout the semester. These students must successfully complete all conditions of their Learning Contract. Failure to meet these criteria will result in Academic Suspension.

**Graduate**

Graduate students do not have a Learning Contract Program. Graduate students must maintain a minimum cumulative GPA of 3.0 or as defined by the Graduate School. The Graduate School notifies the Financial Aid Office by email if a student is suspended or dismissed.

**Last updated:** June 25, 2021

**COVID-19 Exceptions:** March 25, 2020

**Satisfactory Academic Progress (SAP) (**§668.34)**

The CARES Act provides additional flexibilities to institutions regarding the calculation of SAP. An institution of higher education may, as a result of a qualifying emergency, exclude from the quantitative component of the calculation any attempted credits that were not completed by such student without requiring an appeal by such student. The Department intends to provide additional guidance regarding how to implement these additional flexibilities.

Students would still need to carefully consider the effect(s) course withdrawals might have to full-time/part-time status and award levels, SAP, NCAA eligibility, international ramifications, honors, scholarships, etc., Just as the language development for Pass/Fail, Satisfactory/Unsatisfactory grading:

Students who choose to withdraw from a course or courses/withdraw from WCU would need to carefully consider academic standing and satisfactory academic progress impacts. Examples of repercussions include but are not limited to:

- Impact on Academic Standing and Satisfactory Academic Progress and students ability to improve with earned hours and GPA resulting in Academic Suspension or Dismissal
Completion percentage for the semester and overall. (67% by term attempted hours and 67% overall WCU attempted hours)

Term and cumulative GPA

- Courses that require a grade of C or better for major/program requirements
- Courses that require a grade of C or better to meet prerequisite requirements
- Programs participation that requires a minimum hours earned per term and term GPA (Honors)
- Scholarship criteria that require a minimum hours earned per term and term GPA (Honors, donor funded scholarships, etc.)
- Honorary designations that require a minimum term GPA (ex. Chancellor’s/Dean’s List)
- Impact on admission to graduate pr professional schools
- Impact on third party licensures or certifications

Chancellor’s Update, Effective March 27, 2020

WCU Undergraduate professional programs and graduate programs may not be able to provide this accommodation due to accreditation and licensure requirements. An undergraduate student in a professional program or a graduate student must consult with an advisor, program coordinator, department chair, or college dean regarding which, if any, courses are eligible for S/U grading accommodation.

Please note:

- S/U grades will not impact Grade Point Averages (GPAs). Semester hours will be counted as usual.
- You may withdraw from Spring 2020 courses through April 30, 2020-and thereafter if necessary-for extenuating circumstances. For this term only, withdrawals will not impact completion percentages or student withdrawal limits. Contact Financial Aid at finaid@wcu.edu or 828.227.7290 to discuss the potential impact of Withdrawing on your financial aid.
- ALL student transcripts, regardless of S/U grading elections, will include a note regrading the extraordinary circumstances of this time period.
- Deadlines for completion of any Fall 2019 incompletes (“I”) will be extended to December 14, 2020. Given those grading change, Chancellor’s List and Dean’s List will not be observed for the current semester.
S/U grading was subsequently approved for summer 2020, fall 2020, and spring 2021 semesters.

As a result of the S/U grading option available to students in spring 202, summer 202, fall 2020, and spring 2021 semester, a student can be in good academic standing with the school but not financial aid. Financial Aid still reviews Satisfactory Academic Progress after each semester, and these academic standing results are captured prior to S/U grading adjustments. These students may be in good academic standing after S/U grading, but they are still not meeting Satisfactory Academic Progress for financial aid purposes.

In these cases, students have the option to submit an SAP appeal through myWCU. If approved, these students will receive financial aid under an academic action plan. The action plan is the same as students who successfully appeal through the Office of Student Retention. Financial Aid action plans are reviewed at the end of each semester. If the student either meets overall SAP or meets the requirements of the action plan, they can continue to receive financial aid.

12.7 Appeals and Documentation

Undergraduate

All students have the right to appeal prior to the published appeal deadline. Students who are granted an appeal will be required to participate in an Academic Action Plan. Appeals for reinstatement without having to serve a specified period of suspension are approved or denied by the Academic and Admission Appeals Board. The Board’s decision is final and is based upon the student’s letter of appeal, which should include the following:

- The reasons for the student’s poor academic performance,
- Documentation of extenuating circumstances, and
- A plan for rectifying the academic performance and raising the GPA to acceptable standards.

Requests for reinstatement must be submitted to the Office of Student Retention by the deadline stated in the Academic Suspension Notification Letter, which also includes instructions for completing the request for reinstatement. A student whose appeal for reinstatement is approved will be designated as “Academic Action Plan” on his or her academic record and allowed to continue their enrollment under the academic action plan.
Graduate

Students who receive a notice if ineligibility for federal aid based on the SAP guidelines may submit a signed Graduate Student Statement of Academic Intent and Financial Aid Appeal. The Graduate Student Statement of Academic Intent and Financial Aid appeal must also include all necessary documentation to support the existence of the circumstances described in the statement of academic intent and financial aid appeal and evidence that circumstances have been resolved.

Events/circumstances that merit an appeal of financial aid eligibility include, but are not limited to:

- Student suffered a personal illness or injury (excluding chronic conditions—students are responsible for properly balancing schoolwork with known chronic conditions) or personal family emergency.
- Student suffered a death in his/her immediate family. Immediate family is defined as parents, grandparents, and siblings for a dependent student and includes spouses and children for an independent student.
- Student has been absent from Western Carolina University for more than one semester and can document that the time away from the university was spent in pursuit of activities that should make the student better prepared to succeed academically.
- Student was the victim of a natural disaster that caused him/her to miss school for at least five consecutive days.

The Financial Aid Satisfactory Academic Progress Committee will consider the appeal, along with a current degree audit, and render a decision, which will be conveyed to the student by email.

Students seeking to reestablish financial aid eligibility remain ineligible to receive financial aid assistance or deferment of payment until the appeal process is complete and a decision has been made by the Financial Aid Office Satisfactory Academic Progress Committee. Students should be prepared to pay tuition, fees, and other educational expenses.

12.7.1 Maximum Time Frame Appeal

A student can appeal maximum time frame only if (1) the student demonstrates that s/he has a documented disability that requires accommodation, or (2) the student documents other exigent circumstances beyond their control. If an appeal is based on a disability, the
Financial Aid Office may consult with Western Carolina University's Office of Accessibility Resources. Students who successfully appeal determinations based on maximum time frame will be permitted to an extension of the maximum time frame up to a maximum of one or two semesters. Exceptions for a longer extension may be considered based on the circumstances of the individual student. If an appeal of maximum time frame is approved, the student must elect in writing to the Financial Aid Office either one of two enrollment options: (1) to enroll as a full-time student with twelve additional semester hours attempted in one semester; or (2) enroll as a part-time student with six additional semester hours attempted in each of two successive semesters.

An undergraduate or a graduate student can initiate a maximum time frame appeal by contacting the Financial Aid Office and requesting the appeal option be added to myWCU.

12.7.2 Academic Plans

Undergraduate

When a student does not meet Satisfactory Academic Progress standards but an appeal has been approved, an Academic Action Plan is developed on a student-by-student basis, and designed in such a way that, if followed, the student will be meeting SAP standards. Each student must pass and earn 67% of all WCU attempted hours with a 2.3 semester GPA or an overall 2.0 GPA.

If a student submits an appeal and it is approved by the Academic Action Committee, the Financial Aid Office is notified by email regarding the Academic Action Plan. Academic Action Plans are reviewed at the end of each semester by the Office of Student Retention. If an Academic Action Plan needs to be extended to the following semester or a student does not meet the terms of the Academic Action Plan, the Office of Student Retention notifies the Financial Aid Office by email.

Graduate

Students who fail to make Satisfactory Academic Progress, who have appealed, and have had eligibility for aid reinstated, will be placed on an Academic Action Plan. The SAP standards are outlined in the Academic Action Plan, and the student is responsible for meeting the standards by the next review cycle. Academic Action Plans are reviewed at the end of each semester. As part of each semester review, if the student does not meet regular SAP guidelines, but meets the terms of the Academic Action Plan, the student’s degree
audit will be reviewed to confirm that the student is taking classes required for their degree and progressing toward graduation.

Last updated: June 25, 2021

12.8 Remaining Eligibility

Undergraduate

Student grades will be reviewed at the completion of each semester to determine eligibility for the upcoming semester. If a student has a break in enrollment or is suspended/dismissed, then SAP will be reviewed at the end of the semester for which the break in enrollment occurred. Students who are currently under an Academic Action Plan will continue to be reviewed at the end of each semester. Students who fail to meet the terms of their Academic Action Plan will be ineligible for future aid after the term in which they break the Academic Action Plan unless they meet regular SAP guidelines. Any student who does not meet the academic standing guidelines at the time of the semester review will be ineligible for federal financial aid for the upcoming semester and will be sent notification of their ineligibility. Each student is responsible for knowing their own status, whether or not they receive this notification. Students may access their SAP status via myWCU. If a student fails to meet the terms of their Academic Action Plan, they do have the option of submitted an appeal.

Graduate

Student grades will be reviewed at the completion of each semester to determine eligibility for the upcoming semester. Student who fail to meet the terms of their academic action plan will be ineligible for further aid unless they meet regular satisfactory academic progress guidelines. If a student fails to meet the terms of their Academic Action Plan, they do have the option of submitting an appeal.

A student may regain eligibility for financial aid after any academic term by earning the number of credit hours for which they are deficient or improving the WCU GPA without financial aid. These hours must be earned at Western Carolina University. Hours and GPA earned at another institution will not transfer towards meeting satisfactory academic progress.

Last updated: June 25, 2021
12.9 Treatment of Non-punitive Grades, Repeated Courses, Audited Courses, Pass/Fail courses, Withdrawals, & Incompletes

Undergraduate

All students are expected to earn and maintain a grade-point average of at least 2.0 each semester (and cumulatively) and to successfully complete (earn) at least 67% of their attempted WCU semester credit hours and attempted WCU hours overall. A student’s academic standing is measured by comparing the number of attempted WCU semester credit hours with the semester credit hours earned at Western Carolina University. This includes any course for which the student has remained enrolled past the Drop/Add period.

The following are considered when evaluating a student’s academic standing:

- All transfer hours count when calculating maximum time frame
- Withdrawals, incompletes and failures are considered attempted but not earned hours
- Passing credit received for pass/fail courses are considered attempted and earned credits; filing grades in pass/fail courses are considered attempted but not earned
- Audited courses are not considered credits attempted or earned
- If financial aid is awarded under the basis of a consortium agreement, those transfer hours will be considered on the overall calculation of both attempted and earned hours.
- Students enrolled in eligible teacher certificate programs may receive financial aid only for those courses that are required to complete the program.
- These hours will be considered in the overall calculation of both attempted and earned hours
- Repeated courses are counted in the overall calculation of both attempted and earned hours

12.9.1 In-Progress

An IP (In-Progress) is assigned only in courses that have been approved for IP grading. An IP grade indicates that a grade is pending until the sequence of courses is completed. A grade of IP is appropriate as long as work remains in-progress. Once work is complete, the IP grade will be replaced with an evaluative grade appropriate for the course.
12.9.2 Satisfactory or Unsatisfactory

Satisfactory or Unsatisfactory (S/U) grading is limited to courses in which standard or traditional grading is rendered difficult by the nature and purpose of the courses. There is no limit on credit hours a student may earn in S/U grades except that imposed by the types of courses approved for such grading. S/U grades may not be awarded in courses unless specified in the course descriptions in the course catalog and in the master class schedule. S and U are the only grades assigned in these courses. Neither grade is used in calculating the GPA, but an S allows hours of credit while a U does not.

12.9.3 Audit

When a space is available, a registered student may audit a course with approval of the adviser, the instructor, and the head of the department offering the course. A completed course audit form must be submitted in order to enroll. Change from audit to credit, or the reverse, is permitted only during the regular schedule adjustment period. No credit is earned for auditing, but the audited course must not add hours in excess of the student’s maximum load. An audited class will be noted on the student's transcript. Audit courses do not count towards the twelve hours required for full-time enrollment. Participation in class activities is optional with the instructor. Tuition and fees for audited courses are determined by the hour value of the courses.

12.9.4 Incompletes

The instructor may grant a student an “I” grade for work not completed if there is a reasonable prospect that the student can pass the course by making up the work missed and if the incompletion is unavoidable and not caused by the student’s negligence. All incomplete grades must be removed and a grade of A+, A, A-, B+, B, B-, C+, C C-, D+, D, D-, F, S or U must be submitted to the Registrar. The work must be made up and a grade received by the Registrar by the last day of classes of the next regular semester (excluding summer), or the grade will become an F. A student may not re-register for the course until the “I” is removed or changed to an F. The instructor is required to list the conditions to remove the “I” and send them to the department head. If the instructor is no longer employed by the university, the department head will remove the “I” upon completion of the stated requirements. In extenuating circumstances, students should refer to the “Academic Appeals Procedure” section in the Undergraduate Catalog.
12.9.5 Repeated Courses

A student may continue to receive financial aid for repeatedly failing the same course (normal satisfactory academic progress policy applies to such cases), and if a student withdraws before completing the course that they are receiving Title IV funds for retaking, then that is not counted as his or her one allowed retake for that course. However, if a student passes a class once, then receives financial aid for retaking it, and fails the second time, that failure counts as their paid retake, and the student may not be paid for retaking the class a third time. If a student is required to retake all the coursework for a term in which a student fails a course, any courses retaken that were previously passed in this case are not eligible for Title IV aid.

12.9.6 Withdrawals

A student may find it necessary or advisable to withdraw from one or more courses during a term. In some cases, a student may find it necessary to withdraw from the university. After consultation with their academic advisor and the instructor of the course, a student may withdraw from any course prior to the expiration of one-half of the term. Course withdrawals must be completed in myWCU. Students are not permitted to withdraw from courses after one half the expiration of the term. Course withdrawals affect satisfactory academic progress which also affects academic standing. Student may withdraw from a maximum of 16 hours of courses during their career at Western Carolina University and receive a grade of W. Any withdrawal beyond the limit will result in a Withdraw-Failing (WF) which will affect the semester and cumulative GPA as it is were an F.

12.9.6.1 University Withdrawals

During the fall and spring semesters, a student may withdraw from the University through the last withdrawal date, as indicated by the Registrar's Office. During summer sessions, a University withdrawal occurs only if the student withdraws from all summer sessions. University withdrawals will affect satisfactory academic progress and course completion rates but will not count towards the student’s 16 hours course withdrawal limit.

The University withdrawal process is initiated in the Office of Student Retention. In the event of a University withdrawal, the student will receive a grade of “W” (withdrawn) for all courses in which the student was enrolled. The “Fees, Expenses, and Financial Aid” section of the catalog provides the effects of University withdrawal upon tuition and fee payments and financial aid.
A student may not use this policy for courses in which penalty grades were assigned as a result of academic misconduct. In all cases, the withdrawal date is noted on the student’s permanent record.

**After the withdrawal deadline:** There are three exceptions to the University withdrawal policy that will allow a student to withdraw from all courses. The exceptions are medical withdrawals, withdrawals for deployment or other military contingency, and withdrawals for extenuating circumstances.

### 12.9.6.1.1 Medical Withdrawals

Western Carolina University is under no obligation to grant a medical withdrawal after the withdrawal deadline of a grade has been issued or if final examinations have been taken. W's entered on the permanent record as a result of a withdrawal from all classes for medical reasons will affect satisfactory academic progress and course completion rates but will not count toward student's 16-hour course withdrawal limit. A designated physician or a designee at Western Carolina University Student Health Services reviews all medical withdrawals and evaluates the medical documentation. Medical withdrawals are of two types:

### 19.9.6.1.2 Regular Medical Withdrawal (Withdrawal for Current Semester)

The regular medical withdrawals require medical documentation from a private physician, psychiatrist, psychologists, or therapist. If the student has not been seen at Western Carolina University Student Health Services or Western Carolina University Counseling and Psychological Services, appropriate medical records from an outside provider are required.

The regular medical withdrawals require documentation from outside providers to a designated Western Carolina University physician or counselor. Documentation may be by mail, fax, or hand-delivered, but must be in writing. This documentation must specifically recommend withdrawal and must give specific date of withdrawal. Regular medical withdrawals will not be granted if any final examinations for the correct semester have been taken.

### 12.9.6.1.3 Retroactive Medical Withdrawal (Withdrawal for a previous semester)

Retroactive Medical Withdrawals require medical documentation from a private physician, psychiatrist, psychologist, or therapist. If the student has not been seen at Western
Carolina University Student Health Services or Western Carolina University Counseling and Psychological Services, documentation for the previous term from a physician, psychologist, or counselor who treated the student is required.

Retroactive Medical Withdrawals require documentation from outside providers to a designated Western Carolina University physician or counselor. Documentation may be by mail, fax, or hand-delivered, but must be in writing. This documentation must specifically recommend withdrawal and it must give a specific date. Students who attempt the final exam in a class will not be allowed to medically withdraw. Retroactive Medical Withdrawals must be completed by the end of the next regular semester (fall or spring).

12.9.6.1.4 Medical Withdrawal from One Course

A student may not typically withdraw from individual courses for medical reasons. This includes courses in which penalty grades were assigned as a result of academic misconduct. A request to withdraw from a course or to reduce your academic load is not a University medical withdrawal.

Students who wish to withdraw from fewer than all of their current classes for medical reasons may appeal to the dean of the division in which the course/s is/are being offered. In these cases, the student must provide documentation to the dean regarding the medical problem treated at Western Carolina University Student Health Services or Counseling and Psychological Services. If treatment has not occurred at the Western Carolina University Student Health Center, documentation from the outside provider will be required.

Western Carolina University is under no obligation to grant a medical withdrawal if final examinations have been taken. Such situations must be handled as grade replacements. A notation of “W” is entered on the permanent record of the student for all withdrawals for medical reasons. Medical withdrawals will affect satisfactory academic progress and course completion rates but will not count towards the student’s 16-hour course withdrawal limit.

12.9.6.1.5 Military Deployment or Other Withdrawals

When a student is called to active military service during an academic term, he or she may choose one of the following two options:

- The student may request retroactive withdrawal to the beginning of the semester, with a full refund of tuition and fees.
• If at least 75% of the term has been completed, the student may request that the faculty member assign a grade for the course based on the work completed. The final decision about grading is left to the faculty member. If the faculty member assigns a grade of “I,” the student must complete course requirements within one semester or make alternative arrangements with the faculty member.

If a student decides to enlist in the military, s/he will be subject to the regular withdrawal process.

12.9.6.1.6 Extenuating Circumstance Withdrawals

Students can petition the Director of Advising to withdrawal from the University for extenuating circumstances. Extenuating circumstances may include death or serious illness within the immediate family, major life event in the family (e.g. loss of home, incarceration), financial hardship, pregnancy, and others as deemed appropriate by the Director of Advising. Withdrawal for extenuating circumstances will affect SAP and course completion rates but will not count towards the student’s 16-hour withdrawal limit.

12.11 Treatment of Consortium, Change of Major, Second Degree, & Second Major Courses

Consortium Agreement

A consortium agreement is a written agreement between two schools so that a student can continue to receive FSA funds while studying at a school other than their home school (A home school is the one that will grant the student a degree). Therefore, under a consortium or contractual agreement (including study abroad), the home school must give credit for course taken at the other school on the same basis as if it was providing the education itself. The assumption of this agreement is that the host school’s academic standards are equivalent to its own and a completely acceptable substitute for its own instruction.
• Consortium agreements are used during the regular school year as well as summer for distance students only. An exception may be used for a student who needs a course to graduate and the course is not offered at Western Carolina University in their graduating semester.

• Students must receive a passing grade in consortium hours. Even though the grades are not counted towards the GPA, the hours must be used in calculating the quantitative component of the student’s Satisfactory Academic Progress.

• A consortium agreement can apply to all FSA programs as long as the courses are applicable to the student’s degree or certificate program.

• A consortium agreement can be an agreement for each student, a separate agreement with each host school, or a blanket agreement with a group of schools. The home school is responsible for disbursing funds and maintaining information on the student’s eligibility, how the award is calculated, what money is disbursed, and documentation from other schools. Any school paying FSA funds is responsible for returning any funds when necessary.

Change of Major

If a student changes majors, the overall attempted hours cannot exceed the 150% maximum time frame.

Second Degree

A student pursuing a second undergraduate degree is eligible to receive financial aid for a maximum of 150% of the hours required for the second degree.

Second Majors

Students often have questions about the ability to receive federal financial aid for double/dual majors. A major consists of a group of prescribed and elective courses (27-64 hours) providing breadth and depth in an academic discipline. A double major, also referred to as a second major or dual major, is awarded when a student completes appropriate coursework specified in the major component of a degree program in addition to the work done for their primary major and degree. Some degree programs require double majors due to the number of hours in the primary major (if the major component of a degree program is between 30 to 40 hours, a minor or second major is required). In determining whether or not a student is eligible for federal financial aid for double/dual majors, the following question must be answered:
Does the degree program require a double major or minor? If a student’s degree program requires a double major or minor, they cannot graduate until the double major or minor has been completed.

- If the degree program **DOES** require a double major or minor, the student is allowed up to the 150% timeframe to complete both degrees. However, students can only be funded for the classes that are required for the double major or minor.
  - Example: If both degrees require 120 hours, the student can be funded up to 180 hours to complete both programs: 120 hours x 150%=180 hours. If one degree requires 120 hours and the other degree requires 128 hours, the student can be funded up to 192 hours to complete both programs: 128 hours x 150%=192 hours.
- If the degree program **DOES NOT** require a double major or minor, a student is allowed up to the 150% timeframe to complete one degree. Student can only be funded for the classes that are required for one degree. If a student continues to take classes after one degree is completed, the student will only be eligible for federal student loans.

### 12.12 Completion of Degree Requirements

Students can only receive financial aid for the courses needed to complete his or her degree. If a student has met all degree requirements and continues taking classes, the student is considered to be pursuing a second degree and is only eligible for federal student loans.

### 12.13 Notices

The university Academic Standing Policy for undergraduate students can be found under the [Online Catalog](#). The university Academic Regulation for graduate student can be found under the [Online Catalog](#).

The University Satisfactory Progress Policy for undergraduates and graduates can be found on the [Financial Aid Office website](#).
Each academic year, the Satisfactory Academic Progress Policy is reviewed and updated by the Financial Aid Office, Office of Student Retention, Advising Center, Registrar's Office, and Graduate School.
