SACSCOC standards roles communication

Dear XXX,

I'm contacting you regarding advanced preparations for the SACSCOC 5<sup>th</sup> Year Report. The 5<sup>th</sup> Year Report involves demonstrating compliance for 21 of the 72 accreditation standards. Typically, the demonstration of compliance involves providing 2-3 years of supporting documentation. WCU will be notified in April 2022 concerning the 5<sup>th</sup> Year Report, which is due to SACSCOC in March 2023. Typical preparations for the 5<sup>th</sup> Year Report span two years of effort. During the summer of 2021 I will be conducting a compliance audit to determine WCU's standing for each of the standards included in the 5<sup>th</sup> Year Report, so that any adjustments needed can occur during the 2021-22 academic year.

To ensure we are adequately monitoring compliance with the SACSCOC standards, I've developed the attached draft document assigning roles for each standard. The strategy utilized is similar to that for reporting on the University 2020 Vision Strategic Plan, with role assignments of an accountable executive, a coordinator, and key stakeholders. The coordinator role will be the primary point of contact for communications related to SACSCOC compliance and reporting. The coordinator will likely play a primary role in the composition of the compliance narrative for the assigned standard. The accountable executive would ensure that the required work and documentation is accomplished satisfactorily.

***I'm asking that you review assignments to you or staff in your division.*** I request your feedback as to proposed reassignments and other individuals recommended for coordinator or stakeholder roles. The document provides filters in the top row which can be utilized to limit the view to specific positions of interest. Notes (recommendations and questions) can be added in column H.

I would like your response by **Friday, January 8<sup>th</sup>**. I plan to announce the assigned roles on Monday, January 11<sup>th</sup>.

## **SACSCOC Compliance Roles announcement**

Email subject line: Announcing roles for SACSCOC standards compliance

This message is being sent to announce roles for SACSCOC standards compliance. You are receiving this message as you have been designated a coordinator role for one or more SACSCOC standards (principles). The purpose of these role assignments is to ensure maintenance of compliance with SACSCOC standards, and to ensure WCU is well prepared for the upcoming 2023 Fifth-year Report, and the 2027 Decennial Reaffirmation Report.

An updated SACSCOC information site (SharePoint) is available for your use (<https://intranet.wcu.edu/academicaffairs/sacs/Pages/default.aspx>). It provides information on role assignments, resources for each SACSCOC standard, prior reports to SACSCOC, and a repository for documents intended as evidence of compliance with SACSCOC standards. You are welcome to visit the site, and familiarize yourself with the available information. Individuals designated as coordinators have the responsibility to compile evidence demonstrating compliance with the assigned standard(s). Often, SACSCOC expects 2-3 years of supporting documentation.

Role orientation meetings (Zoom) are being offered so that you can learn more about your role, related responsibilities, and the SACSCOC SharePoint site. Orientation meeting invitations will be sent via email. The meeting will be recorded for those unable to attend.

The attached document provides a brief overview of the SACSCOC SharePoint site.

If desired, please use one of the following links to register for an orientation webinar.

If you have any questions concerning your role(s), please feel free to contact me.

Sincerely,

Tim

**SACSCOC PRINCIPLE:** 10.7 (Policies for awarding credit)**Accountable Executive:** Brandon Schwab**Principle Coordinator:** Larry Hammer**Principle Auditor:** Lori Anderson

Category	Rating	Rating feedback	Other feedback
Quality of evidence	Good (3)	Evidence listed from the catalog is good. One thing that is missing is the graduate course aspect of things. The evidence provided is heavy on the undergraduate aspect.	Recommend including evidence from the graduate catalog as well.
Scope of evidence	Good (3)	Evidence is primarily focused on undergraduate. Distance learning credit is a definite aspect that needs to be included along with credit policies for distance learning courses. Would recommend 2-3 examples of experiential learning credit be highlighted and not just one (i.e., EMC). Also recommend documentation of approval processes (committee overview, roster, and minutes) from various area be included as evidence.	Recommend including graduate focus as part of the evidence.
Evidence management	Exemplary (4)	The listing of support evidence is very organized and detailed- definitely can tell the direction that this is going.	Just need to add a few things- well on your way to addressing the standard.

Quality of evidence	Developing (2)	Unclear to determine from the listing of evidence whether WCU has any current cooperative academic agreements. Unclear if the Wilderness First Responders has a cooperative academic agreement- if so, then this standard will apply and needs to be addressed to include pertinent evidence (i.e., agreement, procedure and timeline for review and renewal, and redacted transcripts, etc).	From review of previous (2017) documents, looks as though WCU received a recommendation for standard 3.4.7 based on the Jamaica partnership. I would highly recommend that as this standard is finalized that the author of the narrative work with the SACS liaison before listing any programs for this standard as it may not apply.

**General feedback**

Highly recommend that this standard be looked at carefully on whether the institution has any cooperative academic agreements. Appeared to be an issue on the previous reaffirmation cycle with standard 3.4.7. Any program listed would be what is in the current cycle when the report is submitted so listing of programs that have ended is not necessary only programs that are active is needed. Any courses taught by WCU or anything that is transfer credit does not apply as listed on the evidence submitted.

# LESSONS & CHALLENGES

- Software functionality across platforms and browsers
- “Clean” PDF document production can be tricky with some sources
- Step-by-step written/visual instructions do not work for everyone
- An institutional priority is not necessarily an individual’s priority
